

An Introduction to Managing Projects

Benefits to you:

You will be introduced to a range of skills, tools and techniques that will support you to manage projects from start through to successful completion and beyond to the evaluation stage. A practical focus ensures that you can relate your learning to your individual situation and apply it back at the workplace.

- Manage and deliver current projects more effectively
- Apply the principles of project management across your working life
- Gain skills, knowledge and confidence in planning, implementing and closing projects

Benefits to your business:

Employees will return to the workplace with a clear view on how to run successful projects that support the business. Key stages covered will be:

- What is a Project
- Defining a Project
- Planning a Project
- Implementing a Project
- Closing & Reviewing a Project

PLEASE NOTE - We off this course as a bespoke option. Please enquire to find out costs.
