

Logistics and Transport Certificate Level 3 CILT UK

This course is aimed at team leaders, new supervisors, aspiring managers or for anyone making a career change.

The Chartered Institute of Logistics and Transport (CILT) Level 3 course is designed to cover principles and processes involved in logistics and warehouse management. It is relevant to those from a range of backgrounds, looking for an inventory planning, logistics, transport or warehousing course.

It is a course for those already working, or who wish to work, in a supervisory or first line management role in transport and logistics or in warehousing and inventory management. The CILT Level 3 qualification will give you the skills to advance your logistics career, and to progress on to more advanced CILT courses.

The Certificate provides you with industry recognition and the ability to excel in any introductory logistics role. During the course learners will study a range of supply chain topics including: Business Theory, Business Application, Supply Chain Operations and Warehousing. All courses are delivered by supply chain practitioners and all sessions are highly interactive, aimed at enhancing knowledge and skills

Benefits to your business:

CILT(UK) qualifications provide a benchmark against which all employees can be measured. They provide reassurance to employers that members of staff have a certain level of knowledge, which can consequently create a positive image of a company committed to the development of its employees.
