

Applying Stone Therapy

This is a part time course to learn and develop industry skills in stone therapy. The Level 3 Award covers anatomy and physiology to develop and provide an in-depth understanding of the human body.

Once the stones have been placed correctly and have been left to do their job, it is then often followed up by a holistic massage which offers a more intense and deeper treatment. The heat from the stones helps to penetrate the body and aids in relaxing the muscles on a deeper level than just normal massage. Therefore it is recommended that students have a basic knowledge of massage.

□ Ideal if

This course is ideal for anyone wishing to learn to apply these special stones (usually basalt) to offer an invigorating and amazing massage treatment

□ You'll need

No previous qualifications are required and this treatment can be incorporated into many holistic therapy treatments or as a stand-alone therapy. However, it is recommended that students have a basic knowledge of massage prior to undertaking the course.
