

Heavy Goods Vehicle Maintenance & Repair Advanced Apprenticeship

As a qualified HGV specialist mechanic you could work in an amazingly diverse industry, whether servicing, repairing, working managing a fleet or as a mobile specialist, once qualified there are lots of career opportunities. Modern technology means you won't just be working with sockets, wrenches and pliers to repair engines, with modern heavy goods vehicles now requiring computer diagnostics for fault finding and repairs you will become familiar with the latest technology, repair techniques and testing.

We offer a range of professional qualifications and training that will allow you to become a qualified mechanic, whatever level you start at.

This advanced apprenticeship will provide you with the chance to become a fully qualified heavy vehicle mechanic. The course will offer you the chance to gain higher practical skills training in our state-of-the-art workshops and working garages.

□ Ideal if

You have completed the Level 2 qualification, or have substantial experience in the sector.

□ You'll need

To have completed the Level 2 course and have English and maths GCSEs at grade 4 or above or relevant experience and knowledge.

MAKING LEARNING WORK

□ You'll learn

By the end of this course you will be able to learn how to understand and diagnose faults on a range of systems, gain the knowledge and experience to be able to supervise others and some understanding of how to run your own business if that's your goal or work to become a diagnostic technician.

Areas you will cover include:

- Engine faults
- Transmission issues
- Steering and suspension
- Chassis rectification
- Electrical and electronic diagnostic testing

You will also work towards developing your skills in removing and fitting light vehicle mechanical, electrical and trim (MET) components and non-permanent body panels.

□ Expect

To be assessed throughout your course.

□ You'll love

Spending most of your time in our well-equipped workshops, developing specialist diagnostic skills through hands-on experience.

□ You'll go on to

Into the workplace or meet your ambition of setting up your own business. You may also wish to do further specialist training in light vehicle, bodywork and painting or inspection and testing to broaden your expertise and develop your career.
