

Vehicle Service Technician Apprenticeship

In an increasingly busy world, demand for quick, responsive, high street vehicle repair has seen companies like Kwik Fit become national success stories. To fill the skills demand for experienced technicians who can operate in a fast-paced garage environment we have developed the Vehicle Service Technician programme.

You will need to have completed the Level 1 full-time introductory course, have prior work experience or be in a position to move into a work placement in this sector. Once you have completed the Level 2 qualification, you will be able to work in the industry or further study or an advanced apprenticeship.

✓ Ideal if

You would like to pursue a career as a vehicle service technician.

☰ You'll need

English and maths GCSEs at grade 4 or above, plus ideally (but not essential) a relevant Level 1 qualification such as Transport Maintenance Diploma.

🎓 You'll learn

This two-year apprenticeship will provide you with all the skills and knowledge you need to work as a vehicle service technician. This will include routine vehicle inspection, testing and maintenance, repairing or replacing tyres including run-flat, batteries, suspension and brake systems. You will also have to understand a wide range of vehicle systems from old to new.

❓ Expect

To be continually assessed throughout your course.

♥ You'll love

Gaining the knowledge and skills to work in a professional garage.
