

Zoo Animal Management Diploma Level 3

This Level 3 Zoo Animal Management Diploma at our Newquay campus is perfect for those who would like a career caring for animals in a zoo-based setting. We work in partnership with Newquay Zoo to ensure you gain the practical, real-life experience that employers look for.

Our Newquay campus is situated next door to Newquay Zoo, where we have a dedicated classroom. We also have very close links with Blue Reef Aquarium where you will be able to develop your knowledge of aquatic animals.

There are one and two year options available with the Level 3 pathway and we will work with you to decide which is best for you.

As part of your course you will be required to carry out Work Experience and/or an Industry Placement. For more details please [click here](#).

□ Ideal if

You have a passion for working with and conserving captive animal populations and would like a career caring for animals in a zoo-based setting.

□ You'll need

Five GCSEs at grade 4 including English, maths and science.

□ You'll learn

The skills required to help conserve captive wild animals by developing your knowledge in topics such as animal nutrition, animal handling and safe working, health and welfare, husbandry of exotic species, animal biology, anatomy and physiology, behaviour, breeding, genetics and wildlife ecology.

□ Expect

Our Newquay campus is situated next door to Newquay Zoo, where we have a dedicated classroom. We also have very close links with Blue Reef Aquarium where you will be able to develop your knowledge of aquatic animals. You will share your first year with the Animal Management Diploma and this is the qualification you will receive on completion of your course.

Your assignments and projects to be assessed throughout the course as well as externally set exams.
