

Land & Wildlife Management Diploma

This sector is all about sustaining, protecting and using the natural environment. So if you love the countryside, are passionate about its protection and conservation, and the livelihoods that rely on its existence, then this is the career for you.

We offer two options for you to start your career in the countryside and conservation industry depending on your GCSE results. Our Level 2 course is ideal should your GCSEs not be what you expected with the option to progress to Level 3.

If you would love a career working outdoors then this course is ideal for you. Throughout your studies you will learn the skills and knowledge needed to manage land and wildlife and have the opportunity to go on field trips abroad, including destinations such as Germany, Cyprus, Finland and many more. With access to our beautiful farms and estates this course focuses on practical skills development, ensuring you are work ready when you finish your studies. Bicton College is located in an area of outstanding natural beauty and the grounds of our Rosewarne campus are spread over approximately 47 hectares, allowing you to immerse yourself in every aspect of countryside living. Our Bicton College campus also offers you the opportunity to specialise in a countryside ranger pathway, where your studies will focus on moorland management, freshwater and wetland management, and plant and soil science.

✓ Ideal if

You want a career in areas of environment and conservation management.

☰ You'll need

Four GCSEs at grade 4 including English, maths and science.

🎓 You'll learn

During the course you will study a range of modules including ecological surveys, conservation practices, coastal management, farm habitats, livestock conservation, rural technology, forestry estate maintenance, countryside tourism, green woodwork, forest recreation and environmental interpretation.
