Animal Management Advanced Apprenticeship Level 3

This Level 3 advanced apprenticeship will help you develop your supervisory skills in the workplace and will further enhance your animal management abilities.

An animal management apprenticeship will often be for those who have already successfully completed a relevant Level 2 provision and/or who hold appropriate employment, expertise and responsibilities performed within the workplace. You must be employed within the sector and display a strong interest in your job role, as well as being able to demonstrate enthusiasm and a strong determination to succeed as a recognised professional within industry. As an apprentice you will work with a range of animals and learn more about their health, welfare, handling and supervision, as well as earning money at the same time.

Ideal if

You have already completed a relevant Level 2 qualification and you work in or would like to work in the animal management industry.

You'll need

To have completed the Level 2 Animal Care Apprenticeship.

You'll learn

This apprenticeship will help you develop your management skills in the workplace and will further enhance your animal management abilities in animal health, controlling and restraining animals, animal feeding and nutrition, breeding, monitoring and evaluating animal accommodation.

Expect

To spend one day each week on campus and the remaining four days in the workplace with your employer.

You'll love

Earning money while gaining a nationally recognised qualification and training with experts in the industry.
You'll go on to

University study such as our FdSc Animal Health & Management, FdSc Animal Behaviour & Psychology, FdSc Animal Husbandry & Welfare, or FdSc Zoological Conservation.

Employment in animal management or related industries.

**Careers in this industry**
