

MSc Ecological Restoration and Environmental Management

University

This MSc programme is awarded by the University of Plymouth, which combines academic rigour with hands-on learning. Key principles and standards from the Society for Ecological Restoration (SER) and the Chartered Institute of Ecology and Environmental Management (CIEEM) are embedded throughout the curriculum to support your pathway to professional recognition.

This programme centres on four key priorities:

- **Environmental Degradation and Restoration:** understand how degraded ecosystems can be restored and enhanced
- **Fieldwork and Facilities:** gain practical experience on the Eden Project Estate and Labs, plus other sites around Cornwall
- **Theory and Practice:** learn the principles and implementation of environmental management
- **Career Opportunities:** preparation and guidance on work in the environmental industry and ecological research

Cornwall College University Centre at the Eden Project Teaching takes place at Cornwall's iconic Eden Project, a world-renowned example of environmental regeneration and sustainable management of a post-industrial landscape. Situated within an area of active China clay extraction — the English county with the greatest proportion of derelict land — the Eden Project provides an ideal living laboratory.

As a student, you will benefit from access to Europe's largest indoor rainforest, constructed soils, specialist laboratories, teaching spaces and IT facilities, as well as resources across other Cornwall College campuses and the University of Plymouth. Fieldwork is central to the programme, with visits to a range of local sites representing different scales and stages.

Future Careers

Graduates are well equipped to progress to PhD research or enter a wide range of roles in the national and international environmental sector.

Examples of student destinations include:

- Restoration Manager
- Consultant Ecologist
- PhD students
- Environment Agency Officer
- Climate & Sustainability Manager
- Sustainable Tourism Officer
- Council Ecologist

ENTRY REQUIREMENTS

A good honours degree (minimum 2:2) or equivalent in a relevant discipline. We welcome applicants from a variety of subjects, including career changers and those with equivalent international credentials. Mature applicants with relevant professional experience are encouraged to apply and will be considered on an individual basis, alongside wider entry criteria.

Applicants must also have a minimum grade 4 / C in English Language at GCSE level OR a minimum overall score of 6.5, with a minimum of 5.5 in each of listening, reading, speaking and writing in IELTS.

The programme, taught by expert staff and awarded by the University of Plymouth, presents a unique opportunity for those wishing to make the world a better place. Still undecided? Why not find out more at our next [open day](https://www.cornwall.ac.uk/events/).
