

Furniture Apprenticeship

Apprenticeship

This course can change your earning potential and your ability to find work anywhere in the world. The question is what do you want to do?

This course will enable you to fit out very high specification interiors in cars, motorhomes, super Yachts, planes or design and fit kitchens, offices, shops or set up your own furniture making business. The course is delivered here at the Camborne campus within the dedicated furniture suite where we have a large maker's workshop, a design room, a power tool room and a finishing room as well as access to the wood machine/joinery workshop.

Within the workshops you will have practical access to equipment and staff that will enable you to progress your design to completion. You will have time to learn techniques that you can further develop. We are the only furniture provider in Cornwall and one of only a few furniture apprenticeship courses in the UK.

We expect our learners to work to very high standards and this is reflected in the fact that one of our learners won Gold at the National World skills UK competition and has recently picked up the apprentice of the year for the Cornwall College Group. So if you want to become an outstanding furniture maker with a fantastic future come and join us.
