

Oxy-Fuel Gas Competence Training & Inspection

Adult

Leisure and Professional

This course is for owners and users of compressed gases for welding, cutting and similar processes. Oxy/Fuel equipment should only be used by those who have had competence training.

This Mandatory Competence Inspection course, focuses on the essential knowledge and skills required to inspect Oxy-Fuel Gas Equipment safely.

The training enables the candidate to comply with legal obligations and current codes of practice.

Upon meeting the criteria after attending this course, you will be able to inspect test and operate Oxy-Fuel gas equipment safely and competently.

Tuition Fees: Inspection Only - £150. Inspection and Practical Cutting training £225
