

Technology Enabled Care - Level 2 (Online)

Adult

In this fast-moving world, technology plays a huge part in daily life, and the care sector is no different. Technology Enabled Care (TEC) is playing an increasing role in health and social care, with over 1.7 million vulnerable people relying on TEC to support independence in their own homes. This qualification gives learners an understanding of the positive impact technology can have on individuals and the improvements it can make to quality of life.

By completing this course, you will develop an understanding of the impacts that technology can have on people and the impacts it can have on their quality of life.

Learners may be eligible for funding which means the course won't cost a thing to complete (subject to eligibility). There is a £125 cancellation fee if a learner enrolls and fails to complete or withdraws early from the course. This fee is to cover administration costs. We may be able to offer extensions if learners are unable to meet the set submission deadline. Please read the declaration on the enrolment form carefully before signing up.
