

Plumbing Engineering and Heating Engineering – T Level Technical Qualification in Building Services Engineering for Construction

16-19

This T Level in Plumbing Engineering and Heating Engineering is a 2-year qualification that you can study after GCSEs. The course has been designed with leading businesses and employers to give you the skills you need to enter the workforce in Plumbing Engineering and Heating Engineering roles within the Building Services Engineering Sector.

This T level is equivalent to three A Levels at A* and is recognised by higher education providers if you wish to continue studying after successful completion. You will spend 80% of your time at college in high quality classrooms and workshops, and 20% (315 hours) of your time will be on a work placement with an employer.

When you complete your T Level, you will get a nationally recognised certification which will include:

- an overall grade for the T Level, shown as pass, merit, distinction or distinction*
- a separate grade for the core component, using A* to E
- a separate grade for each occupational specialism, shown as pass, merit or distinction
- statements confirming completion of industry placements

It will also give details of what you learned on the course to help you move into skilled employment or a higher apprenticeship or Degree.
