

Engineering Technologies Diploma EAL Level 3

16-19

Adult

If the world of engineering does fascinate you, then this is the perfect course for you. The focus is on developing your knowledge application, experimental, research and practical engineering techniques. Whilst preparing you to professionally present your findings and demonstrate these essential skills. You'll be using industry-standard technology as you work on exciting practical projects, studying a diverse range of engineering areas such as fabrication and welding, machining, electrical, maintenance, and manufacturing. You will cover content including pneumatics, welding techniques, manufacturing processes, electrical systems (industry motors and drives), PLCs, steam and refrigeration systems, it's the perfect start to a career in engineering.

Diploma in Engineering Technologies Level 3 comes with considerable academic content preparing you for a potential future at a University; as well as the expected maths and science there will be units covering project management, design, engineering drawing, business and quality systems; arming you with an academic background to take on any challenge.

At Cornwall College, we have enthusiastic and highly skilled engineering tutors who are fully committed to helping you develop the skills, knowledge and experience needed to become a fully qualified engineer.
