

Site Carpentry Level 2 Diploma

16-19

This course could change your life it's an active well paid job your after and you want to travel the world. The course will enable you to take your carpentry skills far beyond the usual DIY level and give you an understanding of general building construction along with the part a carpenter plays in the construction of al sorts of buildings.

The course will enable you to work confidently in a construction related work place. All of our training takes place in a construction related environment and with carpentry you'll be working on your own timber frame house either in our large workshops or outside to add a bit more site realism to the course.

We have a large range to tools and equipment for you to practice with, you'll also have access during the course to our wood machine shop to experience the machines we have. Your teaching will be delivered by highly experienced qualified trades people who have many years' experience of working in the construction industry.
