

ASHP Air source Heat Pump Installation & maintenance

Adult

Employer Training

The knowledge, understanding and performance criteria for Unit 1 training and assessment is based on a foundation level over a broad range. Unit 1 will touch on air source principles to include a minimal content of design.

The knowledge, understanding and performance criteria for Unit 2 training and assessment is specifically for the installation, commissioning, handover and maintenance of ASHP and associated heat emitter systems.

Unit 2 will deliver the training and assess the learner for the knowledge, understanding and application of a specified type and range of air source units and systems.

The knowledge, understanding and performance criteria for Unit 4 training and assessment is specific to standard design principles for ASHP systems to include the heat emitter circuits.

Heat losses in dwellings by fabric and ventilation is also included
