

Digital Photography: How to Use Photoshop

Leisure and Professional

A 6-week course on photo editing using Adobe's Photoshop.

You will gain editing skills to enhance your photography using the different tools, filters, layers and masking. You will be given the chance to create a watermark to add to your images for copy-right purposes.

There will also be an introduction to Adobe Lightroom for editing multiple images all at once. This course will include the basic law regulations needed when photographing in public and private areas.

Please bring a USB memory stick and a notepad and pen with you.
