WELCOME

Welcome to The Cornwall College Group, the place where we nurture peoples' aspirations and support them to build a career path they're passionate about. If you're reading this, it probably means you're considering us as your option and it would be our utmost pleasure to welcome you to the Career College.

For over nine decades, we have been on a mission to provide exceptional education and training for every learner that has stepped into their learning journey with us. We know education is about so much more than a qualification. It's about exploration, it's about peer support, and it's about defining personal successes that bring meaning to your life.

Our courses are designed with our learners, and their diverse needs in mind. As well as having market-leading employers alongside helping us develop our curriculums, we also have a team of passionate tutors to make sure you're unlocking your potential as you progress; learning the skills you need for a successful career. A passion for learning, training, and rewarding careers can be felt on every campus in our Group.

The great news is there has never been a better time to study with us. Our big advancements have been highly praised in the latest Ofsted report mentioning:

'Since the previous inspection, senior leaders and governors have transformed the culture at the college. Governors and leaders have high expectations for learners. Leaders are passionate about the power of education to change lives and benefit the wider community.'

Our incredible story is receiving positive local and national attention and we would love for you to be part of this! It might all feel like a big decision to make, and we're here to guide you! Check out our social media pages and get a flavour of our students' incredible experiences, and reach out to us if there are any questions you may have. If you're ready to take the next step, join us at one of our open events or have a chat with one of our staff regarding your application.

You're/we're #AllGood

John Evans
Principal and Chief Executive
The Cornwall College Group

Choose THE CAREER COLLEGE

If you're in your last year of school, or thinking of your next steps, then the book you're holding has been designed just for you.

Think of it as a guide to the huge range of career pathways you could choose when your time at school comes to an end.

We get it... choosing the right course to do at college isn't easy, but we've got you covered.

On the pages that follow, you'll find all the information you need to help make this important decision, as well as the steps to take to get you closer to your dream career.

With both full-time study and apprenticeship options available, across a wide choice of careers; there really is something for everyone.

Our education standards and services were thoroughly reviewed during our last Ofsted inspection in February 2022. The Group, which includes Cornwall Colleges in Camborne, St Austell and Newquay, Duchy Colleges in Rosewarne and Stoke Climland, Falmouth Marine School, Sisna Park, Bicton College in Devon, and CCB training, received a Grade 2 “Good” rating for each of the eight areas inspected.

“To receive a glowing report like this from Ofsted demonstrates the distance we have travelled as an organisation, and especially one of this size. But what is most important is learners, parents, and businesses in the region can have absolute confidence in our ability to deliver quality education and training experiences that will help them in their next steps. We’re proud to be “Good” and relentless in continuously making our experience remarkable, whether that’s supporting you in continuing education, starting a new career, or upskilling your workforce.”

John Evans, Principal and Chief Executive of TCCG

A selection of comments from the Inspection Report

“Governors, senior leaders and managers have worked relentlessly to establish the college as an influential partner in the region. They work productively with local and regional stakeholders to offer a curriculum which meets the needs of learners, the community, and local stakeholders.”

“Since the previous inspection, senior leaders and governors have transformed the culture at the college. Governors and leaders have high expectations for learners. Leaders are passionate about the power of education to change lives and benefit the wider community. They focus consistently on learners and their learning and well-being.”

“Teachers and trainers use their extensive skills and experience from industry to inform their teaching well. They teach learners practical skills to high standards through clear explanation, demonstration, and repetition, so that the skills become automatic.”

When you finish your GCSEs, your options are...

START YOUR CAREER NOW WITH AN APPRENTICESHIP

If you know the career route you want to follow, why wait? You can start your career now with an apprenticeship programme, where you can:

- Earn a real salary
- Learn skills in the workplace
- Train with a workplace mentor and our experienced team of college tutors
- Get qualified and improve your future earning potential!

We have a recruitment team to help you get started. Our advisors will help you with applications, CV writing and provide you with interview guidance to help you stand out from the crowd.

Throughout your apprenticeship you will have the support of your college tutor to ensure your learning is on track and an apprenticeship advisor who will visit you at work and make sure you are happy and thriving in the workplace.

Apprenticeships can also take you further, with a range of new Higher Apprenticeships available, you may be able to continue your apprenticeship on to degree-level. Many apprenticeship programmes also offer UCAS tariff points giving you the chance to go on to university if you want to later in life. Apprenticeships can also lead to further professional qualifications that could advance your career.

If you are applying for an apprenticeship you need an employer who is willing to take you on as an apprentice. If you don't have an employer please speak to the recruitment team.

0330 123 2523
apprenticeships@cornwall.ac.uk
falmouthmarineschool.ac.uk/apprenticeships

Do I have to pay for my course?

After GCSEs you are able to access three years of full-time study free of charge. Apprenticeships can be started at any age (if you are 19+, this still won't cost you, but your employer will have to contribute to apprenticeship fees).

PREPARE FOR YOUR CAREER WITH A QUALIFICATION AND REAL WORK EXPERIENCE

Our full-time study programmes offer qualifications, work experience and work competencies, which give you a great start to your career.

We believe that the purpose of education is to prepare you for a successful working life, which goes beyond qualifications. As the Career College we want to give you the edge you'll need for your chosen career.

We will help you gain industry relevant skills through work experience, build your confidence and life skills through our work competencies programme and give you specialist subject knowledge and qualifications through your time with us.

Work experience

All of our courses have a work experience element and this is where you will gain insight into possible future careers and immerse yourself in real work; on your CV this will show future employers you are work ready. Some programmes also offer 350 hours of industry placement.

Work competencies

We prepare you for the workplace by helping you develop work ready skills which include punctuality, reliability, meeting deadlines, communication, resilience, problem solving, innovation, financial acumen, planning, prioritising and much more.

Specialist knowledge

We have strong partnerships with employers who help shape the curriculum, to make sure your training is relevant, giving you an edge when you start your chosen career.

Skills to business

It is a requirement for all 16-18 funded Study Programme learners to undertake a Work Experience Placement with a relevant local employer for a minimum of one week.

Work experience and industry placements offer an exciting opportunity to enhance your skills and knowledge. You will understand first-hand the sector you're interested in, get ready to work and open up a world of employment opportunities after college.

Inclusive work experience

At The Cornwall College Group, we offer inclusive work experience in different areas across our campuses. We're proud to help students who aren't quite ready to enter the world of work develop their behaviours and industry-specific skills.

All inclusive placements have job descriptions with bronze, silver and gold tasks to work towards. At all stages, our work experience team review the placement to see whether a student is ready to progress. Whether this is to a group external placement, supported by the college, working with local employers, or to the end goal of an independent work placement.

COURSE LEVELS AND ENTRY REQUIREMENTS

It is important to choose the correct level of course after your GCSEs. Making the right choice will depend on meeting the entry requirements, how you like to study and what you would like to do after your time with us.

Please use the table below as a general guide to our entry requirements. Some courses may require further specific qualification grades due to the nature of their content. Acceptance on a course will also depend on a successful interview.

Course Level	Study Options	Typical Entry Requirements	Progression
ENTRY LEVEL	Entry Level qualifications.	No formal qualifications are required for Foundation Level courses.	Next Entry Level or Level 1 course.
LEVEL 1	Level 1 qualifications, including Certificates and Diplomas.	Two or more GCSEs at grade 2 or above, or successful completion of Entry Level qualification.	Level 2 course, Apprenticeship or employment.
LEVEL 2	Level 2 qualifications, including Diplomas and Apprenticeships.	Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification. *see note below reference apprenticeships	Level 3 course, Apprenticeship or employment.
LEVEL 3	Level 3 qualifications, including Diplomas, Apprenticeships and T levels. Note: Our programmes are delivered as two one year courses; Year 1 – Diploma, and Year 2 – Extended Diploma.	Four or more GCSEs at grade 4 or above including English and/or maths, or successful completion of a relevant Level 2 qualification. *see note below reference apprenticeships	University study, an Apprenticeship or employment.
LEVEL 4	HNC/Higher Apprenticeship.	48 - 64 UCAS Tariff points from A-levels or a relevant full Level 3 qualification such as a BTEC Extended/National Diploma/City & Guilds Advanced Technical Diploma/Access to HE Diploma with at least 45 credits at level 3 (all of the above to be in relevant subjects). Maths and English GCSE preferable or equivalent Functional Skills Level 2.	Further study at university, a Higher Apprenticeship or employment.
LEVEL 5	HND/Foundation Degree.	48 - 104 (depending on subject area) UCAS Tariff points from A levels or a relevant full Level 3 qualification such as a BTEC Extended/National Diploma/City & Guilds Advanced Technical Diploma/Access to HE Diploma with at least 45 credits at level 3 (all of the above to be in relevant subjects). Maths and English GCSE preferable or equivalent Functional Skills Level 2.	Further study at university or employment.
LEVEL 6	Honours Degree/3rd year top-up Honours Degree/Level 6 only Honours degree.	64 - 104 (depending on subject area) UCAS Tariff points from A levels or a relevant full Level 3 qualification such as a BTEC Extended/National Diploma/City & Guilds Advanced Technical Diploma/Access to HE Diploma with at least 45 credits at level 3 (all of the above to be in relevant subjects). Maths and English GCSE preferable or equivalent Functional Skills Level 2.	Further study at university or employment.
LEVEL 7	Postgraduate Study (PGCE/MSc/MA)/ Higher Apprenticeship - Undergraduate Degree.	Undergraduate Degree.	Employment.

Please note

- *For any applicants considering undertaking an apprenticeship, you will need an employer willing to take you on as an apprentice, which is a process that we can support you in. With regards to entry requirements, please note that prior to starting an apprenticeship you will need to complete an initial assessment in English and maths, so that we can establish the level you are currently working at. We will then run through a Skills Scan with you, in order to determine your current level of knowledge and skills in your chosen area of study. Both of these elements will then be used to determine the level of apprenticeship which is most suitable for you to start at, irrespective of grades awarded in previous qualifications.
- Some specialist courses may have extra entry requirements, please see website for details.
- If you do not achieve your expected grades please do not panic. Contact us and we will help you find an alternative course, normally in the same subject area of interest.

GCSE GRADES

GCSE GRADES UPDATE

In 2017 the grading system for GCSE English and maths changed significantly. Rather than being graded A* to G, a numerical system is now used. The grades now run from 1 to 9, with 9 being the highest. A grade 4 is now a 'standard pass', equivalent to a grade C, with a grade 5 being a 'strong pass'.

GCSE ENGLISH AND MATHS

According to the Department for Education, gaining a grade 4 or higher in English and maths could potentially add £2,000 to your salary every year. If you have not yet gained a grade 4 in GCSE English and maths then you will carry on studying these subjects as part of your Study Programme at college. Our English and maths teams are committed to helping you succeed, and we offer a different and more personalised experience than school.

Our GCSE courses run from September until June, giving you the chance to gain your qualification in just one academic year.

Not quite ready for GCSEs yet? Don't worry, we have a range of 'stepping stone' qualifications in English and maths meaning that you can improve your skills at your own pace. If you have already gained your GCSE English and maths at grade 4, we will continue to embed English and maths into your specialist course, as these skills are essential for your future employment.

When you join us, we will assess your current levels of English and maths, and use your existing qualifications to make sure that you are on the right course for you.

A NEW WAY OF PROGRESSING - T LEVELS

Coming to The Cornwall College Group from September 2023

A T Level qualification follows on from GCSEs and combines classroom theory, practical learning and a three-month industry placement to ensure students have the skills to thrive in the world of work. A two-year course, T Levels aim to provide the knowledge and experience needed to open the door to highly skilled employment, higher level study or a Higher Apprenticeship.

As well as offering a clear line of sight to industry, T Levels are recognised by UCAS to support applications to study at university, with a starred distinction in a T Level being worth the equivalent of three A*s at A-level.

What are T Levels like?

T Levels are different to the traditional route of A-levels as they focus on the skill acquisition required to move directly in to industry. Courses consist of around 80% of time spent in the classroom with the remaining 20% spent being on a valuable work placement in a relevant workplace. This differs from an Apprenticeship where around 80% of time is spent with an employer and 20% in the classroom and is more suited to those who feel ready to enter the workforce at age 16 while learning at the same time.

What are the entry requirements?

You will need six GCSEs in total, with English and maths at grade 4 or above. Learners progressing from a Level 2 course will need a Level 2 Diploma with a good Merit profile, along with English and maths GCSE at grade 4 or above (or equivalent).

Want to know more?

If you're interested in finding out more about T Levels, contact our College Advice Team by emailing enquiries@cornwall.ac.uk or call us at 0330 123 2523.

T-LEVELS

THE CORNWALL COLLEGE GROUP

HOW TO JOIN US

THE ROADMAP TO STUDYING WITH US

We make it as easy as possible to apply to study with us. Our team of advisors will talk you through your options and recommend the right programme and level to start at. You will then get the chance to meet the course tutor in an informal interview to talk in-depth about your application and aspirations. Here is our simple guide to applications. Please note that during this process you may receive phone calls from a withheld number.

1.

APPLY FOR COURSES

anytime throughout the year, it's ok to change your mind.

2.

YOU'LL GET A SPECIALIST ADVISOR

who will talk you through the process and answer questions.

3.

WE'LL GIVE YOU AN INTERVIEW DATE

to meet the tutors and see where you'll be studying.

4.

YOU'LL RECEIVE AN OFFER

for the right course for you (this may be based on you gaining certain GCSE grades).

5.

ACCEPT YOUR OFFER

as soon as possible and reserve your place (you can still change your mind).

6.

APPLY FOR TRANSPORT TO COLLEGE

before the end of July (it may be free); our team can help with this.

7.

CALL US AND LET US KNOW

your results on GCSE results day.

8.

WE'LL CONFIRM YOUR PLACE

on the course and send you all the information you need for the start of term.

If you are applying for an apprenticeship you need an employer who is willing to take you on as an apprentice. If you don't have an employer please speak to our dedicated Apprenticeship Recruitment Team apprenticeships@cornwall.ac.uk or call 0330 123 4785

SEE HOW WE'RE INVESTING IN YOUR FUTURE

Falmouth Marine School Boatbuilding training buoyant after 100 years

October 2020 marked 100 years of Falmouth Marine School providing training for the boatbuilding industry, an integral part of the maritime history of Cornwall. On the 1st October 1920, 96 apprentices from Cox & Co (Falmouth Docks) began their boatbuilding apprenticeships with the college and since then we have continued to provide students with first-class experience within the industry, which leads directly to employment with companies such as Pendennis Superyachts, Princess Yachts Limited, Gweek Classic Boatyard, Fibrefusion Limited, Cockwells, Rustler Yachts and more.

multitude of clients on live projects, and employers through work experience and industry placements. This provides the students with first-class experience in the industry which is proving to lead directly to employment."

Falmouth Marine School is recognised as one of the leading educators in the region, and beyond, for its diverse courses, which include marine engineering, marine science and watersports courses, as well as continuing with its boatbuilding provision.

The head of Falmouth Marine School, Steve Taylor, said everyone at The Cornwall College Group is "very proud of our history".

Located in the heart of the boatbuilding industry at Ponsharden, the boatbuilding courses and apprenticeships equip students with both traditional and modern boatbuilding techniques. It is the only place where students can gain specialist training with access to dedicated workshops in both traditional and new wood techniques, as well as having the latest range of composites.

"We are known as the 'Career College' as all of our courses focus on the skills and knowledge required by the industry, thus, ensuring that our students are fully employable when they leave us," he continued.

It is their achievements and stories that showcase the value of the courses to the community and around the world.

"With this ethos, it's not surprising we are still here after a century, training and educating people to be the future leaders of their chosen fields. We work with a

Ecology apprenticeships are breaking new ground

by OLIVIER VERGNAULT
olivier.vergnault@irishcoop.com
@OlivVergnault

THE UK's first ecological post-graduate degree apprenticeship course is being pioneered in Cornwall.

The course, set up by The Cornwall College Group (TCGG) in partnership with the Eden Project, will allow participants to secure a master's degree in ecological restoration and specialise in one of three ecological subjects while working full-time.

Dr Mark Nason, head of Eden Project learning, said: "This is a UK first and an incredible opportunity for businesses as well as students."

The course has been designed in direct response to the demand seen

in such a hands-on industry – students can earn whilst they learn and employers will help create experts in the field whilst being seen to have a strong commitment to this vital sector."

Businesses interested in taking on an apprentice ecologist are being urged to attend a virtual event to find out how their firm could benefit – including how those that recruit before September will receive the £3,000 government bonus.

The "blended" nature of the level-seven ecologist apprenticeship being delivered by TCCG will involve weekly virtual lessons and four five-day residentials at the Eden Project over two years.

The course was created by 10 employers to combine expertise

in such a hands-on industry – students can earn whilst they learn and employers will help create experts in the field whilst being seen to have a strong commitment to this vital sector."

Environmental. Three different routes are being offered, with apprentices choosing to study as an ecological consultant, ecological scientist or a landscape ecologist.

Employers interested in taking part in the scheme are being invited

SUSTAINABILITY AT THE HEART OF YOUR COLLEGE

We hope when you arrive at college you realise very quickly how we are dedicating ourselves to securing the future of our planet.

Everyone has a part to play in achieving the long term sustainability of what we do, and we are determined to be leaders in this vital work.

SO FAR, WE HAVE:

1.
Created a Sustainability Committee formed of students, staff, leaders and governors, that has the power to make real changes to the way we go about our work

2.
Established new courses that lead to important and rewarding careers in the sustainability sector

3.
Begun weaving a sustainability focus into all our courses

5.
Launched Future Farm, which is leading research into cutting-edge sustainable farming techniques

4.
Audited our energy, waste, travel and many other operations within the Group, resulting in positive decisions such as switching our energy provider to one that only uses renewable energy

6.
Added sustainability into one of our five core values so that it is woven into daily practices

7.
Lobbied world leaders with highly regarded #heyG7 campaign

But this is just the beginning and we have much to do. We have a clear plan of how we want to achieve carbon net zero and then go further.

There are lots of exciting projects that are happening across our campuses, alongside new ways of working that will be introduced in the coming months.

It's vital to us that our students are involved in all these plans.

Luckily, we have a highly vocal and active student body, who have been championing the sustainability cause for some time, and we would love for you to be part of this exciting and important work.

We're looking forward to welcoming you to join one of our colleges as well as the Group's sustainability revolution.

VOICE CAMPAIGN

MARINE ENGINEERING, BOATBUILDING & RENEWABLE ENERGY

A career in the marine industry can open up endless opportunities. Just like our students, you can build an incredible career working on superyachts, in various dockyards, or serving in the merchant navy across the world.

Our specialist marine engineering workshop includes inboard and outboard engines, hydraulic systems, thrusters, and generators from leading marine brands, giving you access to the latest equipment.

Falmouth Marine School has been delivering training to the boatbuilding, ship repair and the shipbuilding industry in Falmouth since 1920, and is renowned world-wide for its training and education in this sector. We have run full-time boatbuilding courses since the early 1970s and have dedicated wood and composite workshops in the heart of this extensive maritime industrial area.

With the marine industries rapid growth into renewable energy, we are developing courses up to degree level, relevant to this exciting and challenging new sector.

I want to be a... BOATBUILDER

If you would like a future in the thriving marine sector, and you love working with your hands to create something spectacular, then boatbuilding is the career for you. Each of our courses feature large practical elements and you will spend a great deal of time in our dedicated boatbuilding workshops, in the heart of Cornwall's marine industry.

Study Full-time

BOATBUILDING DIPLOMA LEVEL 2

Where: Falmouth Marine School

Entry Requirements: Two or more GCSEs at grade 4 or above, including English and/or maths.

This one-year foundation course will give you a great start towards a career as a boatbuilder; you will learn about the working environment, the different shapes and designs of boats, the various materials used in boat construction, the numerous components, fittings and systems that go into traditional and modern constructed vessels and the specific terminology used in the marine industry.

By gaining an introduction into the many elements that make up both wooden and composite boats, you will be prepared for the more advanced and specialist skills that are taught in further boatbuilding qualifications.

Our workshop features industry-standard equipment, exactly like a working boatyard. We have strong connections with local boatbuilding companies, and those employers know a boatbuilding qualification from Falmouth Marine School, and The Cornwall College Group means you have the very best skills of a crafts person. So, if you dream of creating exotic boats with beautiful flowing curves, then this is the best place to start.

Progression: Boatbuilding Diploma Level 3.

Study Full-time

PERFORMING ENGINEERING OPERATIONS LEVEL 2

Where: Falmouth Marine School

Entry Requirements: Two or more GCSEs at grade 3 or above.

This one-year assessment based course covers the fundamental skills and knowledge common to all engineering and manufacturing practices within the marine industry. Learners will work with different materials and gain an insight into the worlds of boatbuilding, marine engineering and renewable energy in order to realise their potential and to make an informed decision about their further education and career pathway.

Progression: Level 2 or 3 in Boatbuilding, Marine Engineering or Wind Turbine Technician.

Study Full-time

BOATBUILDING DIPLOMA LEVEL 3

Where: Falmouth Marine School

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

This one-year advanced course will give you the knowledge and skills required to move directly into the industry as a boatbuilder. You will learn about the working environment, the shape and designs of boats, the materials used in boat construction, the numerous components and systems that go into traditional and modern constructed vessels and the specific terminology used in the marine industry.

By learning in detail the many elements that make up both wooden and composite boats, you will be prepared for this challenging and highly skilled role.

You'll be learning from experienced professionals, who are there to give you the very best start to your career. Our workshop features industry-standard equipment, exactly like a working boatyard.

We have strong connections with local boatbuilding companies, and those employers know our boatbuilding qualification means you have the essential skills needed to enter the industry.

Progression: Employment in the industry, or university study.

MARINE ENGINEER

As a marine engineer you will enjoy a career that is filled with exciting challenges, job satisfaction and the opportunity to travel. Our courses will give you the in-depth knowledge you need to service and maintain a wide variety of marine inboard and outboard engines and you will learn in our dedicated workshop, which is one of the largest marine specific training areas in the UK.

Study Full-time

MARINE ENGINEERING DIPLOMA LEVEL 2

Where: Falmouth Marine School

Entry Requirements: Two or more GCSEs at grade 4 or above, including English and/or maths.

This one-year programme will give you an excellent insight into the inner working of marine engines and propulsion systems. You will also learn basic marine electrics, hydraulics and gain knowledge of construction principles and engineering processes related to the marine industry.

Progression: Marine Engineering Diploma Level 3.

MARINE ENGINEERING DIPLOMA LEVEL 3

Where: Falmouth Marine School

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

This one-year programme focuses on giving you the ability to diagnose, analyse and calibrate marine mechanical systems and components found on inboard and outboard engines, alongside the propulsion systems commonly found in most marine vessels.

Progression: Employment in the industry, or continue your studies to progress to the navy, merchant navy or super yacht cadetship.

Study Full-time

PERFORMING ENGINEERING OPERATIONS LEVEL 2

Where: Falmouth Marine School

Entry Requirements: Two or more GCSEs at grade 3 or above.

This one-year assessment based course covers the fundamental skills and knowledge common to all engineering and manufacturing practices within the marine industry. Learners will work with different materials and gain an insight into the worlds of boatbuilding, marine engineering and renewable energy in order to realise their potential and to make an informed decision about their further education and career pathway.

Progression: Level 2 or 3 in Boatbuilding, Marine Engineering or Wind Turbine Technician.

Study Full-time

ENGINEERING TECHNOLOGIES DIPLOMA LEVEL 3

Where: Falmouth Marine School

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

In your first year you will study a range of academic units from ship construction and system maintenance through to computer aided drawing and engineering science. In the second year you will learn complex technical skills relating to hydraulic systems, electrical panels and engineering design.

Progression: Employment in the industry or university study.

Apprenticeship

MARINE ENGINEER APPRENTICESHIP LEVEL 3

Where: Falmouth Marine School

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification. Plus an employer willing to take you on as an apprentice.

You'll develop the knowledge needed to assemble, strip, repair and rebuild components, including how to use hand tools to cut, drill, shape and finish components, alongside how to move components using the appropriate safe methods and equipment.

Progression: A higher level apprenticeship in this sector, university study such as our FdSc Engineering or employment in the industry.

MARINE & NATURAL ENVIRONMENT

Cornwall has the longest coastline of any English county along with countless Areas of Outstanding Natural Beauty and marine conservation zones.

As well as being passionate advocates of sustainability, The Cornwall College Group is rapidly positioning itself at the forefront of education and training in wildlife and conservation. Whether you are looking to train as a marine scientist or zoologist you will learn from lecturers who are experts in this field as well as benefiting from the insights of industry professionals.

We have established powerful links to key organisations in this growing and important sector, with colleagues working with the likes of Newquay Zoo, Blue Reef Aquarium, Cornwall Wildlife Trust, independent consultants and more.

Because of the wide reaching courses we offer across our campuses, you can begin your #GenerationRestoration journey at Falmouth Marine School before having the chance to progress onto our unique degree courses at Cornwall College Newquay or a range of other universities.

Our industry partners & connections

CORNWALL WILDLIFE TRUST	ANGLO DAWN
BEACH GUARDIAN	NATIONAL TRUST
NATURAL ENGLAND	NATIONAL MARITIME MUSEUM
ENVIRONMENT AGENCY	BLUE REEF AQUARIUM
MARINE DISCOVERY	

70,000

species of animals, plants, fungi and single-celled organisms make up the UK's rich natural environment

£12 billion

was contributed to the UK's economy from tourism and outdoor leisure companies working with nature

I want to be a... MARINE BIOLOGIST

Located in the heart of one of the most biologically diverse regions in the world, with rocky shores, mudflats, maerl and seagrass beds, and a coastline that supports internationally important marine wildlife, there really is no better place to turn your passion for the ocean into a full-time career.

Study Full-time

MARINE CONSERVATION DIPLOMA LEVEL 2

Where: Falmouth Marine School

Entry requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

This one-year foundation course gives you an introduction to marine biology, conservation and marine environmental science. You will develop a multitude of practical skills for working in the marine science and fisheries sector, as well as building on your understanding of marine systems and biology. This will include working with aquaria, surveying, practical conservation activities, marine animal identification and species biology.

Progression: Progression to Level 3 courses, including marine biology and marine conservation at Falmouth, or employment in industry such as fish farming or estate and countryside management.

Study Full-time

MARINE CONSERVATION DIPLOMA LEVEL 3

Where: Falmouth Marine School

Entry requirements: Four or more GCSEs at grade 4 or above, including English and/or maths.

This two-year Level 3 course is a zoology focused conservation course, incorporating learning about the management and biology of marine species, alongside some practical skills in conservation and animal science. No prior knowledge is required, but you will develop your knowledge of the industry, your ability to work in the sector, and gain skills in maintaining and caring for wild marine populations as well as public aquaria.

Progression: Progression to some universities for undergraduate and foundation degrees such as within Cornwall College, or employment in industry such as aquarium or zoos alongside conservation charities and groups.

Study Full-time

MARINE BIOLOGY & ECOLOGY DIPLOMA LEVEL 3

Where: Falmouth Marine School

Entry requirements: Four or more GCSEs at grade 4 or above, including English and maths.

This is an A-Level equivalent course, with a focus on marine biology, ecology, and environmental science. You will gain practical skills in marine surveying, wildlife management, as well as species identification skills gained along the local marine environment and coastline. You will also cover elements of evolutionary biology and behaviour, fisheries management and enhancement, ecological theory, and oceanography.

Progression: Progression to degrees covering marine biology/marine sciences, as well as industry roles covering these.

MARINE ENVIRONMENTAL SUSTAINABILITY DIPLOMA LEVEL 3

Where: Falmouth Marine School

Entry requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

This two-year programme, split into two one-year qualifications, teaches students interested in the changes happening in sustainability from an environmental management view. Blending together technology and natural science, you can expect to learn about the marine environment and techniques for environmental monitoring, alongside natural resources management and the tools for environmental sustainability science.

Progression: Degrees in marine resource management, geo-environmental science, sustainability sciences, and marine wildlife management, including marine biology and ecology BSc routes.

HEAR FROM OUR ALUMNI

EMILY HARDISTY WILDLIFE CONSERVATIONIST, RIVER TRUST AMBASSADOR AND PRESENTER FOR CORNWALL WILDLIFE TRUST

Emily began her Cornwall College journey with a course in Countryside Management specialising in Marine Biology and Ecology.

She later used these skills to complete degrees at our Newquay campus in Marine Science and Applied Zoology – achieving a First in both.

Emily is now a well-known figure in the marine and wildlife conservation world in Cornwall and regularly presents for the Cornwall Wildlife Trust alongside running her own wildlife vlogs @wildlingcreature

£39 billion

is contributed to the UK economy from sport and physical activity businesses each year

581,000

people are employed in the business of sport in the UK

I want to be a... WATERSPORTS INSTRUCTOR

Our exciting partnership with South West Lakes, one of Cornwall's leading outdoor providers, has enabled us to develop a study programme that will make you directly employable by the industry or allow you to gain entry on to university study. The beautiful Stithians Lake is your classroom and our expert lecturers will prepare you for a career in watersports and the wider outdoor industry.

Study Full-time

WATERSPORTS INSTRUCTOR DIPLOMA LEVEL 2

Where: Falmouth Marine School

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

During this one-year course you will achieve your Level 2 diploma, alongside developing your personal and leadership skills in a range of watersports including paddleboarding, kayaking, windsurfing and sailing. You will also have the opportunity to gain additional instructor qualifications which will make you extremely employable within the industry.

75% of your timetable will be spent on the water developing your skills. Once your personal levels are up to scratch, you will start developing leadership and coaching skills. You will gain a range of RYA qualifications in sailing, windsurfing, powerboating and first aid. Your classroom sessions will focus on study such as business, sports events, and health and safety.

You will have the opportunity to take part in several trips which could include surfing, coastering, with the possibility of a trip abroad to a watersports centre.

Progression: On to the one-year Level 3 programme and then employment in the industry or university study.

Study Full-time

WATERSPORTS INSTRUCTOR DIPLOMA LEVEL 3

Where: Falmouth Marine School

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

This one-year programme is for those who have completed the Level 2 and would like to further develop their skills in the watersports industry.

You will learn about different aspects of the watersports industry, which may include sports development and coaching, equipment and facilities, sports facilities and operations management, outdoor adventurous expeditions and assessing risk.

In addition to work experience placements, volunteering opportunities and long-term prospects within the local industry, we also give you the opportunity to take additional internationally recognised qualifications, including National Governing Body qualifications, at a hugely reduced and affordable price. They are not compulsory and will not impact upon you completing your educational qualifications.

Progression: University study such as our FdSc Surf Science at Cornwall College Newquay or straight into employment in the industry.

INDUSTRY DAY

YOUR CHANCE TO SPEAK TO RELEVANT EMPLOYERS ABOUT FUTURE JOB OPPORTUNITIES

Our annual Industry Day is your chance to meet with local and international employers to discuss future job opportunities. Employers have told us they attend Industry Day as they know they are guaranteed to find qualified students who have already gained the relevant industry skills they need. The event has now been running for over 15 years and helps fulfil industry needs and demonstrates Falmouth Marine School's dedication to being a career college.

The event delivers talks which are split by industry sector. Once the talks are complete students are given the opportunity to meet with all businesses. Interviews are also held on the day itself.

Head of Falmouth Marine School, Steve Taylor, said Industry Day "epitomises the ethos of The Cornwall College Group".

"We are preparing all of our learners for industry by giving them all the relevant skills and experiences they need to be successful in their chosen career," he said. "I would like to congratulate those that have been offered jobs and to thank those businesses that have attended the event, because our links to industry will help us to shape and grow our curriculum for the future."

The day also gives current students the chance to meet with former students, to see where their courses have taken them.

START YOUR CAREER WITH AN APPRENTICESHIP

#1 FOR APPRENTICESHIPS IN CORNWALL AND DEVON

An apprenticeship is for anyone over the age of 16 and is the perfect option to allow you to start or keep earning at work, while receiving training and gaining a recognised qualification. It gives you a great mix of learning in a work setting, and studying at college, allowing you to continue developing your skills.

A fair deal: Starting salary £4.30 per hour*.

Support: We will be there when you need us throughout your training.

Choice: We've got a wide range of different pathways to choose from across the region.

Get hired: We will help you find an employer, alongside supporting your college and job applications.

We work with a range of organisations to develop industry relevant apprenticeship programmes, including:

- Fugro
- Falmouth Harbour Commissioners
- Mylor Yacht Harbour
- A&P
- Rustler Yachts
- Pendennis Shipyard

If you are applying for an apprenticeship you need an employer who is willing to take you on as an apprentice. Please speak to our dedicated recruitment team to find out more.

LIVE YOUR
BEST LIFE

Foundation Degree Awarding Powers

In a major boost for learners and businesses in the South West, we have secured foundation degree awarding powers.

As the only FE college in the county to do this, we now have the authority to co-create bespoke higher level foundation degree courses with key employers efficiently and quickly to the requirements of each business, as well as being responsive to the workforce needs of the local and regional economy. We also work in partnership with a range of universities to award our HNDs, Foundation Degrees, Bachelors Degrees and Masters programmes.

SUPPORTING YOU

We have a range of staff who will support you and help you achieve your goals.

Engagement and Progression Officers (EPOs) are available to support you with any concerns that you have or if you need any support.

- They can offer advice and guidance and help to find solutions to overcome any barriers you are facing
- Help you to progress with your studies and achieve your learning and career goals
- They will always be available in the social space for you to talk to and will also arrange activities for students to take part in.

Personal Development

You will take part in a range of activities that will help you develop personal and employability skills. They will focus on helping you to become a successful student and prepare for your future life and be an active part of society. There will also be lots of enrichment opportunities that you can take part in from trips and visits to guest speakers. You can have your say in the activities we offer as well.

Health and Wellbeing

We offer a wide range of additional health and wellbeing opportunities for you to participate in around your study programme. The activities you undertake will depend on which campus you are studying at.

Learning Centre and Study Support

Our Learning Centres have a range of staff to support you when using the resources, computers and software. You can also access workshops and request support sessions to develop your study and academic skills whether you are

on an introductory course or studying for a higher level qualification.

Computer access and access to online classrooms

- When you enrol with us you will be issued with a computer account and email. This will give you access to a range of software and resources which includes:
- the College's Wi-Fi
 - your course details and progress information
 - access to a wide range of software and resources to support your study
 - Online classrooms with Moodle and Teams
 - A range of online study resources and ebooks

Careers

Alongside our Engagement and Progression Officers, our team of Careers Officers are available all year round to provide impartial support and advice when help is needed with career choices, progression to university and other training, education or employment opportunities.

Special Educational Needs and Disability (SEND) Provision

Our vision is to develop independent, confident and resilient learners who are well-prepared to engage with the wider community. Please see our website for our SEND Provision Statement which includes further information and details should you wish to talk to someone in person: cornwall.ac.uk/supporting-your-learning/#send-provision

Safeguarding

We set out to provide a safe and supportive learning and working environment for all our students, staff and visitors. The Cornwall College Group has a duty to safeguard all

learners, staff and visitors. We also have a duty to prevent extremism and radicalisation.

Equality, Diversity and Inclusion

The Cornwall College Group is committed to equal opportunities for all and recognises that valuing and embracing diversity is the key to providing high quality teaching and learning. We take pride in serving our local communities in Cornwall and Devon and are fully committed to promoting equality of opportunity, access, dignity and fairness.

Financial support

Financial support is available via a college bursary to help you access your college education. This is means-tested and primarily focused on supporting you with bus pass costs, childcare and meals whilst at college. To find out the most up-to-date information; please visit our website cornwall.ac.uk/financial-support or email studentfinance@cornwall.ac.uk

Accommodation

If you do not live within reasonable travelling distance of the College you may wish to consider seeking accommodation nearby. For students at Bicton College and Duchy College Stoke Climsland there are full-board residential places available. Residential Bursaries are available for eligible students.

Students' Union (CCSU) and Learner Voice

We are incredibly proud of our Students' Union (CCSU) which exists to represent your voice at every level in the College and to make sure you have a fantastic time with us. The CCSU can arrange activities for students and give feedback on how to improve the student experience on campus. Every course will also have a course rep to provide feedback on your programme.
