

Welcome to #thecareercollege

THE CORNWALL COLLEGE GROUP

CAREERS & COURSES GUIDE 2023 FOR SCHOOL LEAVERS

WELCOME

Welcome to The Cornwall College Group, the place where we nurture peoples' aspirations and support them to build a career path they're passionate about. If you're reading this, it probably means you're considering us as your option and it would be our utmost pleasure to welcome you to the Career College.

For over nine decades, we have been on a mission to provide exceptional education and training for every learner that has stepped into their learning journey with us. We know education is about so much more than a qualification. It's about exploration, it's about peer support, and it's about defining personal successes that bring meaning to your life.

Our courses are designed with our learners, and their diverse needs in mind. As well as having market-leading employers alongside helping us develop our curriculums, we also have a team of passionate tutors to make sure you're unlocking your potential as you progress; learning the skills you need for a successful career. A passion for learning, training, and rewarding careers can be felt on every campus in our Group.

The great news is there has never been a better time to study with us. Our big advancements have been highly praised in the latest Ofsted report mentioning:

'Since the previous inspection, senior leaders and governors have transformed the culture at the college. Governors and leaders have high expectations for learners. Leaders are passionate about the power of education to change lives and benefit the wider community.'

Our incredible story is receiving positive local and national attention and we would love for you to be part of this! It might all feel like a big decision to make, and we're here to guide you! Check out our social media pages and get a flavour of our students' incredible experiences, and reach out to us if there are any questions you may have. If you're ready to take the next step, join us at one of our open events or have a chat with one of our staff regarding your application.

You're/we're #AllGood

UPCOMING EVENTS

Find out about visiting one of our campuses at the various events we hold throughout the year.

6

EXPLORE YOUR OPTIONS

Let's take a look at the different routes available to you after finishing your GCSEs.

8

COURSE LEVELS AND ENTRY REQUIREMENTS

Find out information about selecting the right level of course for you, as well as the entry requirements you'll need.

9

HOW DO I APPLY?

This handy, step-by-step guide will show you exactly what the process of applying to study with us looks like.

12

OUR CAMPUSES

Take a tour of our amazing campus facilities. Which one is right for you?

14

AGRICULTURE & COUNTRYSIDE MANAGEMENT

We have over 100 years' experience in providing award-winning education to drive the rural economy.

26

ANIMAL MANAGEMENT & VETERINARY NURSING

Explore the world of animals with courses and apprenticeships that can lead to degree study, or open doors to a range of careers.

32

ARTS & MEDIA

Our bespoke facilities and expert lecturers make us a perfect destination for creatives.

38

BUSINESS SCHOOL

Looking to start your own business or to effectively lead a team of professionals? Get the skills you need here.

44

CATERING

The best college for catering in the South West, our award-winning training is second-to-none in the industry.

48

CHILDREN, SCHOOLS & FAMILIES

Train with the experts and gain real work experience for a career working with young people.

54

CONSTRUCTION & BUILDING TRADES

We offer practical skills training in all construction trades.

58

DIGITAL ACADEMY

Jump into the fast moving world of the digital sector in the South West, one of the UK's growth centres for digital tech.

70

ENGINEERING & PLANT OPERATIONS

Engineering is one of the UK's most important industries. Get your start with us.

74

EQUINE

For anyone with a passion for horses, our industry-leading courses will give you the right start for a dream career working in the equine industry.

84

FOUNDATION LEARNING

Pathways to develop independence and confidence in preparation for adulthood.

88

HAIRDRESSING & BEAUTY THERAPY

Get the practical experience you need in our student-led commercial salons and spas.

92

HORTICULTURE, FLORISTRY & ARBORICULTURE

Our beautiful rural campuses are hard to beat for anyone looking to study the natural world.

100

HOSPITALITY & FRONT OF HOUSE

Start your hospitality career journey in our award-winning restaurants and facilities.

106

MARINE ENGINEERING, BOATBUILDING & RENEWABLE ENERGY

What better place to study a subject linked to the sea than historic Falmouth?

110

MARINE & NATURAL ENVIRONMENT

With a range of stunning marine environments on our doorstep, we can give you the best start possible in the vital marine and conservation sectors.

116

MILITARY & PROTECTIVE SERVICES

Discover what you're truly made of and get the best start for a career in either the blue light services, armed forces or protective sector.

120

MOTOR VEHICLE

We'll help you gear up for a career in the growing automotive industry.

124

MUSIC & PERFORMING ARTS

Working with industry innovators you'll be challenged and supported to find your own voice, to trust your own creative judgement and to work with passion and discipline.

130

SOCIAL CARE & HEALTH

Our pioneering partnership with Cornwall Care is securing the development of the next generation of health practitioners.

134

SPORT, FITNESS, OUTDOOR ADVENTURE & WATERSPORTS

Step up your sporting journey with our amazing range of courses, training and facilities.

140

TRAVEL & TOURISM

Ever considered a career in travel? A course at your local college could take you around the world.

146

VOCATIONAL ACADEMY

Need some time and support before committing to a specific course to study? Then our Vocational Academy is for you.

Throughout this careers and courses guide you will see this symbol. Follow these instructions to unlock introductory videos, campus tours, former student profiles and more.

Please note Zappar is more responsive when connected to Wi-Fi.

Our education standards and services were thoroughly reviewed during our last Ofsted inspection in February 2022. The Group, which includes Cornwall Colleges in Camborne, St Austell and Newquay, Duchy Colleges in Rosewarne and Stoke Climland, Falmouth Marine School, Sisna Park, Bicton College in Devon, and CCB training, received a Grade 2 “Good” rating for each of the eight areas inspected.

“To receive a glowing report like this from Ofsted demonstrates the distance we have travelled as an organisation, and especially one of this size. But what is most important is learners, parents, and businesses in the region can have absolute confidence in our ability to deliver quality education and training experiences that will help them in their next steps. We’re proud to be “Good” and relentless in continuously making our experience remarkable, whether that’s supporting you in continuing education, starting a new career, or upskilling your workforce.”

John Evans, Principal and Chief Executive of TCCG

A selection of comments from the Inspection Report

“Governors, senior leaders and managers have worked relentlessly to establish the college as an influential partner in the region. They work productively with local and regional stakeholders to offer a curriculum which meets the needs of learners, the community, and local stakeholders.”

“Since the previous inspection, senior leaders and governors have transformed the culture at the college. Governors and leaders have high expectations for learners. Leaders are passionate about the power of education to change lives and benefit the wider community. They focus consistently on learners and their learning and well-being.”

“Teachers and trainers use their extensive skills and experience from industry to inform their teaching well. They teach learners practical skills to high standards through clear explanation, demonstration, and repetition, so that the skills become automatic.”

*Ofsted is the Office for Standards in Education, Children’s Services and Skills.

When you finish your GCSEs, your options are...

START YOUR CAREER NOW WITH AN APPRENTICESHIP

If you know the career route you want to follow, why wait? You can start your career now with an apprenticeship programme, where you can:

- Earn a real salary
- Learn skills in the workplace
- Train with a workplace mentor and our experienced team of college tutors
- Get qualified and improve your future earning potential!

We have a recruitment team to help you get started. Our advisors will help you with applications, CV writing and provide you with interview guidance to help you stand out from the crowd.

Throughout your apprenticeship you will have the support of your college tutor to ensure your learning is on track and an apprenticeship advisor who will visit you at work and make sure you are happy and thriving in the workplace.

Apprenticeships can also take you further, with a range of new Higher Apprenticeships available, you may be able to continue your apprenticeship on to degree-level. Many apprenticeship programmes also offer UCAS tariff points giving you the chance to go on to university if you want to later in life. Apprenticeships can also lead to further professional qualifications that could advance your career.

If you are applying for an apprenticeship you need an employer who is willing to take you on as an apprentice. If you don't have an employer please speak to the recruitment team.

0330 123 2523
apprenticeships@cornwall.ac.uk
cornwall.ac.uk/apprenticeships

Do I have to pay for my course?

After GCSEs you are able to access three years of full-time study free of charge. Apprenticeships can be started at any age (if you are 19+, this still won't cost you, but your employer will have to contribute to apprenticeship fees).

PREPARE FOR YOUR CAREER WITH A QUALIFICATION AND REAL WORK EXPERIENCE

Our full-time study programmes offer qualifications, work experience and work competencies, which give you a great start to your career.

We believe that the purpose of education is to prepare you for a successful working life, which goes beyond qualifications. As the Career College we want to give you the edge you'll need for your chosen career.

We will help you gain industry relevant skills through work experience, build your confidence and life skills through our work competencies programme and give you specialist subject knowledge and qualifications through your time with us.

Work experience

All of our courses have a work experience element and this is where you will gain insight into possible future careers and immerse yourself in real work; on your CV this will show future employers you are work ready. Some programmes also offer 350 hours of industry placement.

Work competencies

We prepare you for the workplace by helping you develop work ready skills which include punctuality, reliability, meeting deadlines, communication, resilience, problem solving, innovation, financial acumen, planning, prioritising and much more.

Specialist knowledge

We have strong partnerships with employers who help shape the curriculum, to make sure your training is relevant, giving you an edge when you start your chosen career.

Skills to business

It is a requirement for all 16-18 funded Study Programme learners to undertake a Work Experience Placement with a relevant local employer for a minimum of one week.

Work experience and industry placements offer an exciting opportunity to enhance your skills and knowledge. You will understand first-hand the sector you're interested in, get ready to work and open up a world of employment opportunities after college.

Inclusive work experience

At The Cornwall College Group, we offer inclusive work experience in different areas across our campuses. We're proud to help students who aren't quite ready to enter the world of work develop their behaviours and industry-specific skills.

All inclusive placements have job descriptions with bronze, silver and gold tasks to work towards. At all stages, our work experience team review the placement to see whether a student is ready to progress. Whether this is to a group external placement, supported by the college, working with local employers, or to the end goal of an independent work placement.

COURSE LEVELS AND ENTRY REQUIREMENTS

It is important to choose the correct level of course after your GCSEs. Making the right choice will depend on meeting the entry requirements, how you like to study and what you would like to do after your time with us.

Please use the table below as a general guide to our entry requirements. Some courses may require further specific qualification grades due to the nature of their content. Acceptance on a course will also depend on a successful interview.

Course Level	Study Options	Typical Entry Requirements	Progression
ENTRY LEVEL	Entry Level qualifications.	No formal qualifications are required for Foundation Level courses.	Next Entry Level or Level 1 course.
LEVEL 1	Level 1 qualifications, including Certificates and Diplomas.	Two or more GCSEs at grade 2 or above, or successful completion of Entry Level qualification.	Level 2 course, Apprenticeship or employment.
LEVEL 2	Level 2 qualifications, including Diplomas and Apprenticeships.	Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification. *see note below reference apprenticeships	Level 3 course, Apprenticeship or employment.
LEVEL 3	Level 3 qualifications, including Diplomas, Apprenticeships and T levels. Note: Our programmes are delivered as two one year courses; Year 1 – Diploma, and Year 2 – Extended Diploma.	Four or more GCSEs at grade 4 or above including English and/or maths, or successful completion of a relevant Level 2 qualification. *see note below reference apprenticeships	University study, an Apprenticeship or employment.
LEVEL 4	HNC/Higher Apprenticeship.	48 - 64 UCAS Tariff points from A-levels or a relevant full Level 3 qualification such as a BTEC Extended/National Diploma/City & Guilds Advanced Technical Diploma/Access to HE Diploma with at least 45 credits at level 3 (all of the above to be in relevant subjects). Maths and English GCSE preferable or equivalent Functional Skills Level 2.	Further study at university, a Higher Apprenticeship or employment.
LEVEL 5	HND/Foundation Degree.	48 - 104 (depending on subject area) UCAS Tariff points from A levels or a relevant full Level 3 qualification such as a BTEC Extended/National Diploma/City & Guilds Advanced Technical Diploma/Access to HE Diploma with at least 45 credits at level 3 (all of the above to be in relevant subjects). Maths and English GCSE preferable or equivalent Functional Skills Level 2.	Further study at university or employment.
LEVEL 6	Honours Degree/3rd year top-up Honours Degree/Level 6 only Honours degree.	64 - 104 (depending on subject area) UCAS Tariff points from A levels or a relevant full Level 3 qualification such as a BTEC Extended/National Diploma/City & Guilds Advanced Technical Diploma/Access to HE Diploma with at least 45 credits at level 3 (all of the above to be in relevant subjects). Maths and English GCSE preferable or equivalent Functional Skills Level 2.	Further study at university or employment.
LEVEL 7	Postgraduate Study (PGCE/MSc/MA)/ Higher Apprenticeship - Undergraduate Degree.	Undergraduate Degree.	Employment.

Please note

- *For any applicants considering undertaking an apprenticeship, you will need an employer willing to take you on as an apprentice, which is a process that we can support you in. With regards to entry requirements, please note that prior to starting an apprenticeship you will need to complete an initial assessment in English and maths, so that we can establish the level you are currently working at. We will then run through a Skills Scan with you, in order to determine your current level of knowledge and skills in your chosen area of study. Both of these elements will then be used to determine the level of apprenticeship which is most suitable for you to start at, irrespective of grades awarded in previous qualifications.
- Some specialist courses may have extra entry requirements, please see website for details.
- If you do not achieve your expected grades please do not panic. Contact us and we will help you find an alternative course, normally in the same subject area of interest.

GCSE GRADES

GCSE GRADES UPDATE

In 2017 the grading system for GCSE English and maths changed significantly. Rather than being graded A* to G, a numerical system is now used. The grades now run from 1 to 9, with 9 being the highest. A grade 4 is now a 'standard pass', equivalent to a grade C, with a grade 5 being a 'strong pass'.

GCSE ENGLISH AND MATHS

According to the Department for Education, gaining a grade 4 or higher in English and maths could potentially add £2,000 to your salary every year. If you have not yet gained a grade 4 in GCSE English and maths then you will carry on studying these subjects as part of your Study Programme at college. Our English and maths teams are committed to helping you succeed, and we offer a different and more personalised experience than school.

Our GCSE courses run from September until June, giving you the chance to gain your qualification in just one academic year.

Not quite ready for GCSEs yet? Don't worry, we have a range of 'stepping stone' qualifications in English and maths meaning that you can improve your skills at your own pace. If you have already gained your GCSE English and maths at grade 4, we will continue to embed English and maths into your specialist course, as these skills are essential for your future employment.

When you join us, we will assess your current levels of English and maths, and use your existing qualifications to make sure that you are on the right course for you.

A NEW WAY OF PROGRESSING - T LEVELS

Coming to The Cornwall College Group from September 2023

A T Level qualification follows on from GCSEs and combines classroom theory, practical learning and a three-month industry placement to ensure students have the skills to thrive in the world of work. A two-year course, T Levels aim to provide the knowledge and experience needed to open the door to highly skilled employment, higher level study or a Higher Apprenticeship.

As well as offering a clear line of sight to industry, T Levels are recognised by UCAS to support applications to study at university, with a starred distinction in a T Level being worth the equivalent of three A*s at A-level.

What are T Levels like?

T Levels are different to the traditional route of A-levels as they focus on the skill acquisition required to move directly in to industry. Courses consist of around 80% of time spent in the classroom with the remaining 20% spent being on a valuable work placement in a relevant workplace. This differs from an Apprenticeship where around 80% of time is spent with an employer and 20% in the classroom and is more suited to those who feel ready to enter the workforce at age 16 while learning at the same time.

What are the entry requirements?

You will need six GCSEs in total, with English and maths at grade 4 or above. Learners progressing from a Level 2 course will need a Level 2 Diploma with a good Merit profile, along with English and maths GCSE at grade 4 or above (or equivalent).

Want to know more?

If you're interested in finding out more about T Levels, contact our College Advice Team by emailing enquiries@cornwall.ac.uk or call us at 0330 123 2523.

T-LEVELS

THE CORNWALL COLLEGE GROUP

HOW TO JOIN US

THE ROADMAP TO STUDYING WITH US

We make it as easy as possible to apply to study with us. Our team of advisors will talk you through your options and recommend the right programme and level to start at. You will then get the chance to meet the course tutor in an informal interview to talk in-depth about your application and aspirations. Here is our simple guide to applications. Please note that during this process you may receive phone calls from a withheld number.

1.

APPLY FOR COURSES

anytime throughout the year, it's ok to change your mind.

2.

YOU'LL GET A SPECIALIST ADVISOR

who will talk you through the process and answer questions.

3.

WE'LL GIVE YOU AN INTERVIEW DATE

to meet the tutors and see where you'll be studying.

4.

YOU'LL RECEIVE AN OFFER

for the right course for you (this may be based on you gaining certain GCSE grades).

5.

ACCEPT YOUR OFFER

as soon as possible and reserve your place (you can still change your mind).

6.

APPLY FOR TRANSPORT TO COLLEGE

before the end of July (it may be free); our team can help with this.

7.

CALL US AND LET US KNOW

your results on GCSE results day.

8.

WE'LL CONFIRM YOUR PLACE

on the course and send you all the information you need for the start of term.

**If you are applying for an apprenticeship you need an employer who is willing to take you on as an apprentice.
If you don't have an employer please speak to our dedicated Apprenticeship Recruitment Team
apprenticeships@cornwall.ac.uk or call 0330 123 4785**

Plants, Flowers and Trees
Our horticulture, floristry and arboriculture facilities are located in 200 hectares of green parkland and rolling countryside.

Military & Protective Services
Our specialist academy staff will train you for a career in the armed forces or protective services.

Home Farm
Our farm is run commercially and provides state-of-the-art resources for education and practical training.

Equine
Our indoor and outdoor arenas in partnership with Bicton Arena's world-class facilities create a perfect environment for students to practice what they learn.

SCAN HERE with Zappar to...

Agricultural Engineering
Our engineering and heavy plant machinery workshop has excellent facilities.

Bicton College is located in East Devon, near Exeter. Set in an Area of Outstanding Natural Beauty, just two miles from the Jurassic Coast. The historic Georgian mansion, commercial farm, animal husbandry school, modern veterinary nursing building, world-class engineering and heavy plant machinery workshop, walled garden and arboretum are all set in over 200 hectares of historic parkland.

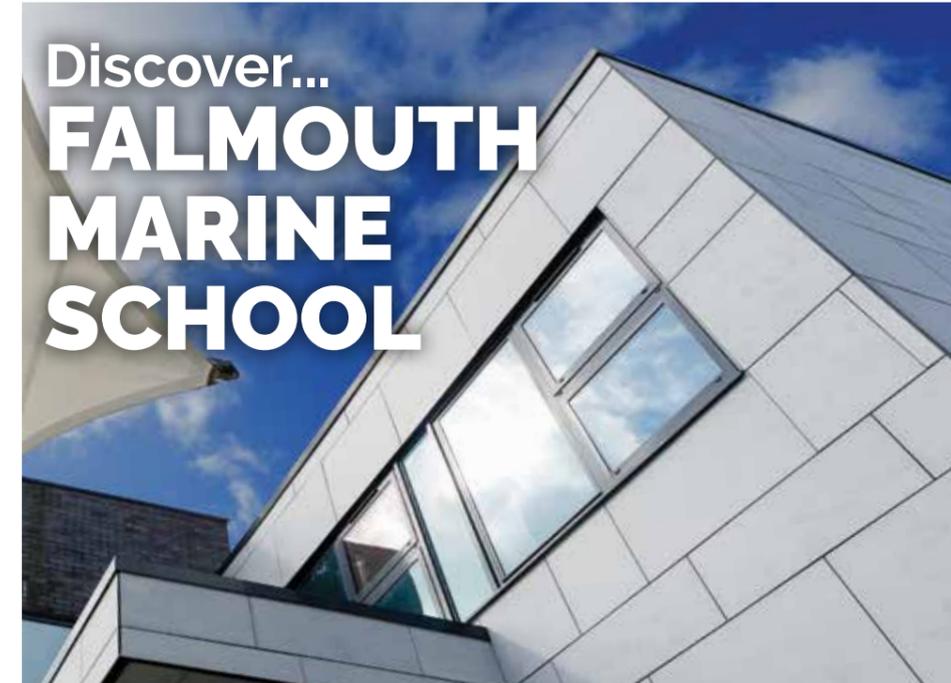

Transport
An extensive transport network covers towns and villages across Devon. The campus is 20 minutes from the M5 motorway, 25 minutes from Exeter and 10 minutes from Exmouth. Our funding and transport team are on hand to advise you. We also have bike shelters on campus.

Accommodation
We have a range of accommodation options including a single study or en-suite rooms.

Animal Management
Our animal management centre is now open as a commercial zoo.

Marine Science Laboratory
Our renovated marine science laboratory has a range of equipment for marine breeding programmes.

South West Lakes
All our watersports provision is delivered by leading watersports provider South West Lakes at Stithians Lake.

Sails Café
Offers a wide range of drinks, snacks and light meals for students throughout the day.

Marine Engineering Workshop
A state-of-the-art workshop complete with a commercial engine room, with fuel mapping and testing equipment.

SCAN HERE with Zappar to...

Industry Day
Your chance to speak to relevant employers about future job opportunities.

National Maritime Museum Cornwall
We have a close relationship with the museum, recently our students worked on building a Viking boat.

Ponsharden Workshops
We have our own boatbuilding workshop in the heart of the industry at Ponsharden.

Cornwall's college of the ocean has had a facelift, with over £3 million invested in ensuring the main Killigrew campus is an industry standard training facility for the marine sector including ocean sciences, marine engineering, boatbuilding and watersports.

Transport
The main campus on Killigrew Street is in the heart of the town centre, all bus and train links connect the town very well to the rest of the county. The main bus depot for the town is only 100 metres away and there are two train stations within a 10 minute walk. We also have bike shelters on campus.

Work Experience
We have a close partnership with Newquay Zoo, where you can get hands-on work experience as part of your course.

Exciting Collaborations
We work closely with Newquay Zoo, Cornwall Wildlife Trust, St Francis Home For Animals, Newquay Marine Group, Cornwall Seal Group and others.

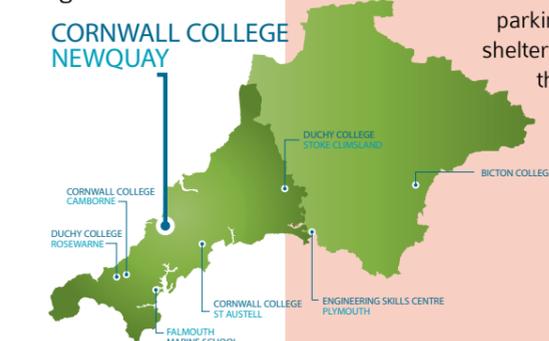

Student Conservation Work
Our students are involved in a wide range of projects including: Beach Rangers, Refill Cornwall, Plastic Free Newquay and more.

Cornwall College Newquay is a modern, small and friendly campus located in the heart of the bright and bustling town of Newquay. Specialising in animal, marine and surf science studies, it has a reputation for being environmentally friendly and offering individual support in all aspects of study.

Transport
The Newquay campus is only a 10-minute walk from the town centre. The Newquay branch line connects to the Cornish main train line at Par. Newquay Cornwall airport is only a 15 minute drive away.

There is discounted car parking nearby, a bike shelter and showers for those who wish to come to college the green way.

SCAN HERE with Zappar to...

Cloisters Restaurant
This training restaurant is a Centre of Excellence and part of the best catering college in the South West.

The Bay
A 150 seat outlet offering food for all tastes; breakfast, snacks, a salad bar and a wide choice of hot meals every day.

Skills Centre
Our engineering, motor vehicle, electrical, plumbing, bricklaying and carpentry courses are all housed in our specialist Skills Centre.

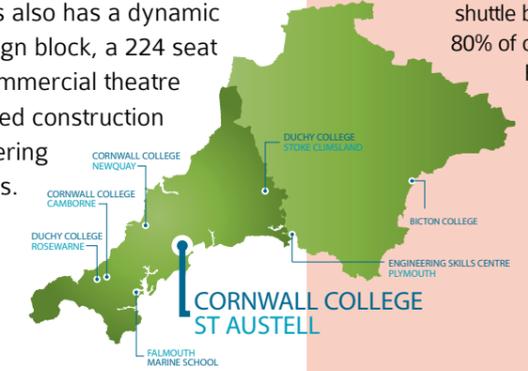

The Keay Theatre
A 250-seat theatre and conference space, dance studios, music practise suites and rehearsal rooms.

The Space
Take a break from your studies and play darts, pool or video games, watch a film, or simply relax.

Koko Hair & Beauty Salons
State-of-the-art salons, nail bar, barbering suite and therapy lounges, open to the public.

The St Austell campus sits overlooking the bay and offers panoramic views of the area. There are six floors in the main building hosting specialist industry standard spaces across all our curriculums, including an award-winning restaurant. The campus also has a dynamic art and design block, a 224 seat capacity commercial theatre and dedicated construction and engineering skills centres.

Transport
The St Austell campus at John Keay House is only a 10-minute walk from the town centre. We offer a range of bespoke shuttle buses to the college from towns around the area. There is free parking on campus for over 300 cars, plus electric charging points and a shuttle bus to the town centre. 80% of our learners qualify for FREE travel to college. Plus for those who like to cycle, we have designated priority shelters for your bikes.

INVESTING IN YOUR FUTURE

New campus proposed for St Austell

Cornwall College St Austell has an incredibly exciting future after it was told that a share of a £1.5 billion government fund to redevelop and refurbish colleges across the country was coming its way.

The news means that a brand new campus building is on the cards and could be happening in the next few years.

The funding will help us make the college a centre of educational excellence and comes off the back of increased investment in our student experiences and facilities.

St Austell's new college campus project wins Government cash

£1.5BN COLLEGE INVESTMENT FUND TO HELP BOOST CORNISH TOWN

CORNWALL COLLEGE NEW CAMPUS IN ST AUSTELL A STEP CLOSER

Government funding regarded as a 'game changer' for college

MASSIMILIANO
ambasciata@cornwallcollege.ac.uk

Ambitious plans to revamp Cornwall College's St Austell campus have taken a giant leap forward after it was named as one of just 16 colleges in England to receive a share of £1.5 billion government cash.

An unbroken run of success will pave the way for the college to redevelop the site on Troscovsky Road, which could include the demolition of John Keay House.

The project will "transform" post-16 education in St Austell and be a "shot in the arm" for the town, according to the chief executive and principal of The Cornwall College Group, John Evans.

The cash comes from the next phase of the government's further education capital transformation fund. The fund was first launched in September 2009 by the Prime Minister to rebuild and transform college estates and create modern, fit-for-purpose spaces that meet the needs of students and the communities they serve.

Mr Evans said the announcement was a "momentous occasion for St Austell and the college group, and serves the way for the ambitious plan he has for the campus. "We want to create a real centre of educational excellence at our St Austell site," he said. "We have been heavily investing in our student experience and teaching, and a recent Ofsted visit recognised the quality of our recent work.

"Ever since our new leadership team was appointed in 2015, we have seen continued improvement and growth, and today's news will mean that we only add to this.

"Of course, as a community college, it is not just our young people that this investment will benefit.

"We have an enormous range of offer for adults too, both in professional qualifications and leisure courses and many of our local businesses and organisations are able to take advantage of our onsite facilities as well."

Mr Evans thanked MP for St Austell, Steve Double, adding: "There is no doubt that his ongoing an audience with Gavin Williamson will have had an impact. We both have the same vision for St Austell."

Mr Double said: "This announcement is really exciting and I have the same ambitions for the town and surrounding areas and have been excited to see how far you have come in including to replace the John Keay House site for a number of years.

"I am hopeful that with this funding boost, the exceptional facilities available, and the other investments being made, our young people will be able to stay in St Austell to continue their studies and that quality further education provision will be successful for future generations of young people in the town."

Kim O'Mara, the newly appointed head of campus for Cornwall College St Austell, says this is an incredibly exciting time for the college and our future students.

FACTFILE: PAUL WILLIAMS

Mr Evans said the announcement was a "momentous occasion for St Austell and the college group, and serves the way for the ambitious plan he has for the campus. "We want to create a real centre of educational excellence at our St Austell site," he said. "We have been heavily investing in our student experience and teaching, and a recent Ofsted visit recognised the quality of our recent work.

"However, one thing I have been determined to achieve since taking on this role in 2015 is the opening of our facilities - and the campus at John Keay House has been a top priority of mine.

"We hope that being announced in this latest round of capital transformation funding is an important next step to achieving this."

Last year Mr Evans revealed his £1m mystery plan to revamp the campus in the town.

Speaking at the time he said the new building would create a "strong identity for the college and our future students. This is what we want to see. It is not just a building, it is a statement of our vision for the future of our college, which is currently going through a significant programme of change.

Following the announcement last week, Mr Evans told the town: "The DfE have said they will work with us to come to an agreed project that they would then support. It is going to be significant money."

"We want ahead and started to do the concept, design and planning long before this came about. I believe that's what we want to see. It is not just a building, it is a statement of our vision for the future of our college, which is currently going through a significant programme of change.

Following the announcement last week, Mr Evans told the town: "The DfE have said they will work with us to come to an agreed project that they would then support. It is going to be significant money."

INVESTING IN
YOUR FUTURE

Future Farm

Cornwall now boasts a major research and innovation dairy farm, Future Farm. Located at Duchy College Stoke Climsland, Future Farm is helping improve the efficiency, welfare and technological advancement in dairy farming. It's a huge benefit for the next generation of workers and leaders in the sector. Learners from across all of our land-based campuses will have access to state-of-the-art equipment, data and research tools to widen their knowledge, skills and behaviours. Future Farm is home to 220 cows that can be grouped into three mini-herds to research the latest innovations in dairy.

Bicton College Zoo

Bicton College has recently secured licensed zoo status which will provide a positive educational experience for all learners. The zoo licence enables students to gain customer service skills and confidence whilst sharing their knowledge with visitors, and promoting further understanding and respect for animals, conservation, sustainability and biodiversity. The licence also enables us to keep new exciting species which will enable learners to enter the animal care industry with an understanding of husbandry needs for a wide variety of animals. We are proud of all of our learners at Bicton College and this will enable us to further their personal and specialist skills allowing them to thrive within the workplace.

Driving forward Electric Vehicle training in the UK

The Cornwall College Group (CCG) with Truro and Penwith College are working in partnership to deliver the £2.4 million Skills Accelerator project. This new project is set to drive forward the research and training of electric vehicle engineers in the UK, and focuses on curriculum and skills development in the electric vehicle and emerging green technology industries. The students can study and progress from Level 1 to Level 4, with training covering electrical/hybrid vehicle awareness, electrical/hybrid vehicle hazard management, system repair, testing and replacement, as well as diagnosis. The Electric Vehicle courses are launched in conjunction with the Institute of Motor Industry and will add electrical vehicle training free of charge to all the motor vehicle apprentices at St Austell and Camborne campuses.

Falmouth Marine School Boatbuilding training buoyant after 100 years

October 2020 marked 100 years of Falmouth Marine School providing training for the boatbuilding industry, an integral part of the maritime history of Cornwall. On the 1st October 1920, 96 apprentices from Cox & Co (Falmouth Docks) began their boatbuilding apprenticeships with the college and since then we have continued to provide students with first-class experience within the industry, which is proving to lead directly to employment with companies such as Pendennis Superyachts, Princess Yachts Limited, Gweek Classic Boatyard, Fibrefusion Limited, Cockwells, Rustler Yachts and more.

Ecology apprenticeships are breaking new ground

by OLIVIER VERGNAULT
olivier.vergnault@truro.ac.uk
@OlivVergnault

THE UK's first ecological post-graduate degree apprenticeship course is being pioneered in Cornwall.

The course, set up by The Cornwall College Group (TCCG) in partnership with the Eden Project, will allow participants to secure a master's degree in ecological restoration and specialise in one of three ecological subjects while working full-time.

Dr Mark Nason, head of Eden Project learning, said: "This is a UK first and an incredible opportunity for businesses as well as students."

The course has been designed in direct response to the demand seen

in such a hands-on industry – students can earn whilst they learn and employers will help create experts in the field whilst being seen to have a strong commitment to this vital sector."

Businesses interested in taking on an apprentice ecologist are being urged to attend a virtual event to find out how their firm could benefit – including how those that recruit before September will receive the £3,000 government bonus.

The "blended" nature of the level-seven ecologist apprenticeship being delivered by TCCG will involve weekly virtual lessons and four five-day residentials at the Eden Project over two years.

The course was created by 10 employers to combine expertise

in such a hands-on industry – students can earn whilst they learn and employers will help create experts in the field whilst being seen to have a strong commitment to this vital sector."

Dr Nason said: "A recent report from a committee of MPs said that a severe shortage of trained ecologists is hampering efforts by local governments to oversee biodiversity policies, with the committee recommending investment in training and skills as part of the Government's plans for green jobs. We're incredibly proud as a college to be positioning ourselves at the forefront of environmental education with a huge variety of courses covering biodiversity, conservation, ecology and sustainable agriculture."

Employers interested in taking part in the scheme are being invited

SUSTAINABILITY AT THE HEART OF YOUR COLLEGE

We hope when you arrive at college you realise very quickly how we are dedicating ourselves to securing the future of our planet.

Everyone has a part to play in achieving the long term sustainability of what we do, and we are determined to be leaders in this vital work.

SO FAR, WE HAVE:

1.
Created a Sustainability Committee formed of students, staff, leaders and governors, that has the power to make real changes to the way we go about our work

2.
Established new courses that lead to important and rewarding careers in the sustainability sector

3.
Begun weaving a sustainability focus into all our courses

4.
Audited our energy, waste, travel and many other operations within the Group, resulting in positive decisions such as switching our energy provider to one that only uses renewable energy

6.
Added sustainability into one of our five core values so that it is woven into daily practices

5.
Launched Future Farm, which is leading research into cutting-edge sustainable farming techniques

7.
Lobbied world leaders with highly regarded #heyG7 campaign

But this is just the beginning and we have much to do. We have a clear plan of how we want to achieve carbon net zero and then go further.

There are lots of exciting projects that are happening across our campuses, alongside new ways of working that will be introduced in the coming months.

It's vital to us that our students are involved in all these plans.

Luckily, we have a highly vocal and active student body, who have been championing the sustainability cause for some time, and we would love for you to be part of this exciting and important work.

We're looking forward to welcoming you to join one of our colleges as well as the Group's sustainability revolution.

AGRICULTURE & COUNTRYSIDE MANAGEMENT

There has never been a better time to study agriculture and countryside management – and there is nowhere better to study it than our campus in the countryside.

The industry offers some fantastic opportunities for skilled workers, technicians, managers and leaders of the future. There are some real challenges ahead, not least of which is to feed a rapidly growing world population and mitigate the impact of climate change. At Bicton College and Duchy College we enable you to gain the necessary skills and qualifications to help you succeed in life and we work closely with employers to reduce the skills gaps in the sector.

Our facilities are second-to-none with our own state-of-the-art research, teaching and training facility at Future Farm as well as hundreds of acres of working farmland and beautiful countryside for you to explore whilst you study.

I want a career in... AGRICULTURE

Agriculture makes a significant contribution to the economy in the South West of England and provides a wide range of exciting job opportunities. Our courses provide all of the skills and knowledge required for a successful step into the sector, regardless of whether or not you are from an agricultural background. We are the region's largest land-based education and training provider with our campuses located in the countryside.

Study Full-time

LAND AND ENVIRONMENT DIPLOMA LEVEL 1

Where: Bicton College, Duchy College Stoke Climsland and Duchy College Rosewarne (Crops)
Entry Requirements: Two or more GCSEs at grade 2 or above, or successful completion of Entry Level qualification.

This one-year course is an ideal introduction into the land-based agricultural industry, where you will gain the hands-on practical skills, experience and knowledge of a variety of farming disciplines, designed to prepare you for employment. These include: safe working, farm animal husbandry, crop husbandry, tractor operation, fencing, and other estate skills.

Progression: Agriculture Technical Certificate Level 2 or Agriculture (Stockperson) Apprenticeship Level 2.

AGRICULTURE TECHNICAL CERTIFICATE LEVEL 2

Where: Bicton College and Duchy College Stoke Climsland
Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

This one-year course covers general mixed agriculture including crops, livestock, tractors and machinery. You will be introduced to the fundamentals of plant, soil and animal science and how these influence the growth, yields and quality of our crops and livestock. You will examine how crops grow, how to plant them, how to look after them and how to harvest and store them. You will learn about the health, welfare, nutrition and reproduction of farm livestock and learn the basics of business management and farm profitability.

Progression: Agriculture Diploma Level 3 or Agriculture (Stockperson) Apprenticeship Level 2 or Level 3.

Study Full-time

AGRICULTURE DIPLOMA LEVEL 3

Where: Bicton College and Duchy College Stoke Climsland
Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, plus two sciences, or successful completion of a relevant Level 2 qualification.

Develop your technical knowledge and practical skills in order to gain a better understanding of the management of different agricultural enterprises and gain university entry. You will be learning from experienced agriculturalists both inside the classroom and on the College farm.

Progression: University study such as our FdSc Agriculture or employment in the industry.

Apprenticeship

GENERAL FARM WORKER LEVEL 2

Where: Bicton College, Duchy College Rosewarne and Duchy College Stoke Climsland
Entry Requirements: Three or more GCSEs at grade 3 including English and maths, as well as an employer willing to hire you as an apprentice.

As a general farm worker you could specialise in livestock or crop, and will assist with animal and plant health and nutrition, maintaining health and safety and biosecurity, and operating farm vehicles. Office work is minimal although basic daily record keeping will be required. You will be expected to undertake and pass a range of courses as part of this apprenticeship, including emergency first aid and the safe use and handling of pesticides.

Progression: On to a Level 3 Apprenticeship or a full-time study programme.

Apprenticeship

LIVESTOCK UNIT TECHNICIAN LEVEL 3

Where: Bicton College, Duchy College Rosewarne and Duchy College Stoke Climsland
Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

A livestock unit technician is responsible for managing the livestock related tasks on a farm such as animal health and welfare from conception and birth through to the customer; and to support business productivity. The apprenticeship will develop your skills and knowledge enabling you to make key decisions to ensure the standards of health and safety, cross compliance, farm assurance, biosecurity and infrastructure security are met. You will usually only work with one species. The role will include the safe use and maintenance of farm vehicles, including the equipment used for transporting or producing feed. You will be required to understand, record and meet the business Key Performance Indicators that are set out by your employer.

You will be expected to undertake and pass a range of courses as part of this apprenticeship to include emergency first aid at work, safe use of veterinary medicines and the safe use of pesticides or safe application of pesticides using pedestrian hand held equipment.

Progression: University study such as our FdSc Agriculture or continue in employment in the industry.

CAREERS IN THIS INDUSTRY: FARM WORKER, FARM MANAGER, AGRICULTURAL SCIENTIST, AGRICULTURAL CONSULTANT.

Apprenticeship

CROP TECHNICIAN LEVEL 3

Where: Duchy College Rosewarne
Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

As a crop technician you will be responsible for optimising crop/plant yields through establishment, management, harvest and post-harvest operations, while maintaining and improving the surrounding environment. You will also need to keep up-to-date with technological advances and new innovations. Being a crop technician requires self-motivation and the ability to work both independently and as a team player to complete tasks safely and efficiently. Many companies now use automation for a number of routine tasks, which will require technical skills to operate. This apprenticeship will develop your knowledge, skills and behaviours in core subjects before specialising in either soil based system or containerised systems.

You will be expected to undertake and pass a range of courses as part of this apprenticeship to include emergency first aid at work and the safe use of pesticides as well as choosing to do one of the following: boom sprayer, mounted, trailed or self-propelled equipment, granular applicator equipment or handheld applicator equipment.

Progression: University study such as our BSc Agriculture or continue in employment in the industry.

I want a career in... COUNTRYSIDE & CONSERVATION

The current climate emergency is changing the way we view and manage our planet and natural environment. In the future all businesses and organisations will be required to review and improve their impact on the environment. These courses will provide you with the skills and knowledge of how sustainability, conservation and the natural environment can be applied to a wide range of sectors.

Study Full-time

LAND-BASED STUDIES (COUNTRYSIDE CONSERVATION & HORTICULTURE) DIPLOMA LEVEL 1

Where: Bicton College and Duchy College Rosewarne
Entry Requirements: Two or more GCSEs at grade 2 or above, or successful completion of Entry Level qualification.

You will study a range of modules including plant and tree identification, estate skills, land-based machinery, tool use and care, wildlife and conservation and health and safety. The course acts as an introduction to countryside management and horticulture for students who love the outdoor learning environment, who are practically orientated and don't mind working in all weathers.

Progression: Land & Wildlife Diploma Level 2.

LAND & WILDLIFE DIPLOMA LEVEL 2

Where: Bicton College and Duchy College Rosewarne
Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

During the course you will study a range of modules including estate skills, land-based machinery, species identification, ecology and wildlife conservation, health and safety, conservation of flora and fauna, and work experience. You will also learn the skills and knowledge to create boardwalks, post and rail fences, stiles, gates, hedge laying, surveying, management of invasive species, stream maintenance and tree planting.

Progression: Land & Wildlife Diploma Level 3.

CAREERS IN THIS INDUSTRY: RANGER, ECOLOGIST, ENVIRONMENTAL HEALTH PRACTITIONER, NATURE CONSERVATION OFFICER.

Study Full-time

LAND & WILDLIFE DIPLOMA LEVEL 3

Where: Bicton College and Duchy College Rosewarne
Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

This will give you the opportunity to undertake a vast array of surveys for flora and fauna; build stiles and boardwalks; erect post and rail and post and wire fencing; undertake scientific study of freshwater systems; monitor and map coastal processes; understand legislation involved with habitat restoration and conservation; species reintroduction and rewilding; and species identification along with your own specialist project.

Progression: University study such as our FdSc Countryside & Conservation at our Bicton campus or employment in the industry.

I want a career in... GAMEKEEPING

Creating and maintaining good, healthy habitats which are beneficial to all wildlife is at the heart of a gamekeeper's job. Gamekeeping has changed significantly over the years and while you will still be responsible for the husbandry of both reared and wild game for shooting, your time will also be spent helping to shape the countryside and protecting its species.

Study Full-time

GAMEKEEPING & CONSERVATION DIPLOMA LEVEL 3

Where: Duchy College Stoke Climsland
Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

During this two-year course you will have access to Duchy College's 283-hectare estate and woodlands where you will care for the College's pheasants and learn about the management of game birds, deer, farm habitat, woodlands and fisheries. You will also study land-based machinery, working dogs, pest and predator control and will organise a number of shoot days from start to finish which will include costings, promotion, event preparation and running the activities on the day.

If you love working outdoors, care about the countryside and the environment and would like to make significant contributions to the biodiversity and conservation of rare species, then why not join the 5,000 full-time gamekeepers currently employed in the UK.

British gamekeepers currently manage approximately 7.3 million hectares of the land in the UK and work closely with farm managers and foresters to help conserve both game and wildlife, using economically viable estate management policies.

Progression: University study, a higher apprenticeship or employment in the gamekeeping or related industries.

CAREERS IN THIS INDUSTRY: GAME FARMING, PEST CONTROL, ESTATE MAINTENANCE, GAMEKEEPER, RANGER, ESTATE MANAGER.

78,000

people work in the industry in the UK

I want a career in... ANIMAL MANAGEMENT

Working with animals can be an extremely fulfilling and rewarding career. From working in kennels and catteries to large exotic animal collections, rescue centres or sanctuaries, there is a wide range of careers available on successful completion of your course. With access to a range of animal collections on our campuses you will gain the knowledge and practical training you need to pursue a career in this exciting industry.

Study Full-time

ANIMAL CARE DIPLOMA LEVEL 1

Where: Bicton College, Duchy College Rosewarne and Duchy College Stoke Climsland
Entry requirements: Two or more GCSEs, at grade 2 or above, including both English and maths.

Learn the basic skills to start your career working with animals. You will study how to care for small mammals, birds and farm animals, handle and feed animals, clean their accommodation and carry out basic health care.

Progression: Animal Care Certificate Level 2.

ANIMAL CARE CERTIFICATE LEVEL 2

Where: Bicton College, Duchy College Rosewarne and Duchy College Stoke Climsland
Entry requirements: Five GCSEs, including maths or English at grade 4, with the rest at grade 3 or above.

This one-year course will provide you with the basic knowledge and experience of working with and caring for a range of animals, including looking at their health and husbandry, control and restraint of animals and feeding requirements. You will also study optional units.

Progression: Animal Management Diploma Level 3.

CAREERS IN THIS INDUSTRY: ZOOKEEPER, ANIMAL CARE ASSISTANT, ZOOLOGIST

Study Full-time

ANIMAL MANAGEMENT DIPLOMA LEVEL 3

Where: Bicton College, Duchy College Rosewarne and Duchy College Stoke Climsland
Entry requirements: Five GCSEs at grade 4 or above including English and maths.

This two-year course covers a wide range of topics including; animal behaviour and communication, biology, feeding and nutrition, health and husbandry, welfare, and breed development.

Progression: University study on one of our wide range of animal science, conservation and zoology degrees.

Apprenticeship

ANIMAL CARE & WELFARE ASSISTANT APPRENTICESHIP LEVEL 2

Where: Bicton College, Duchy College Rosewarne and Duchy College Stoke Climsland
Entry requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification. You will also need an employer willing to take you on as an apprentice.

Learn how to promote and maintain health and well-being; animal handling and grooming, and delivering basic treatment.
Progression: Animal Management Diploma Level 3 or employment in the industry.

I want a career in... VETERINARY NURSING

As a veterinary nurse you will provide support to sick and injured animals who are receiving treatment in a veterinary practice and provide expert nursing care. You will help to educate owners on maintaining the health of their pets and carry out a range of medical treatments under veterinary supervision. Knowing that you have helped nurse animals back to full health is one of the most rewarding careers.

Study Full-time

ANIMAL NURSING ASSISTANTS CERTIFICATE LEVEL 2

Where: Bicton College and Duchy College Rosewarne
Entry requirements: GCSE English or maths at grade 5 or above, and a further three GCSEs at grade 3 or above. If you are aged 16-18 you should also have a voluntary placement in a veterinary practice for two days a week. If you are 19+ you will need a one or two day paid or voluntary placement.

During this course you will learn the practical skills and the underpinning knowledge for all aspects of work in an assisting role within a veterinary practice including animal handling and care, assisting with care and administrative duties in the veterinary environment. You will also undertake at least one day a week work experience in a veterinary practice. This is a one-year course, with one day a week in college. Maths or English GCSE can be studied on a second day where a grade 4 or above has not been obtained.

Progression: Veterinary Nursing Diploma Level 3 or our Animal Management Diploma Level 3.

CAREERS IN THIS INDUSTRY: VETERINARY NURSE, PET NUTRITIONIST, PET BEHAVIOURIST, VETERINARY PHYSIOTHERAPIST.

Apprenticeship

VETERINARY NURSING APPRENTICESHIP LEVEL 3

Where: Bicton College and Duchy College Rosewarne
Entry requirements: Five GCSEs including maths, English and a science at grade 5 or above.

During this two-and-a-half year course you will learn the operational requirements of a veterinary practice, veterinary nursing duties, anatomy, physiology and genetics, animal health, wellbeing and husbandry, supporting the supply of veterinary medicines, supporting veterinary anaesthesia, and preoperative and post-operative nursing care.

You will spend one day a week on campus and the remaining four days in the workplace with your employer. There will also be occasional block weeks throughout the course. To study this course you must be in paid employment with a Royal College of Veterinary Surgeons approved training practice.

Our veterinary nursing teaching areas are designed to simulate a veterinary practice. We have a radiography room, laboratory, kennel area and operating theatre. We have many pieces of equipment that you would expect to find in a veterinary practice such as microscopes, anaesthetic machines, operating tables and a large variety of surgical instruments. With our equipment, purpose-built facilities, working farms and equestrian centres, you will have access to animals you would expect to come across in veterinary practices.

Progression: Professional registration as a veterinary nurse, further professional qualifications at Level 4, and university studies on one of our wide range of animal science, conservation or zoology degrees at Cornwall College Newquay, Duchy College and Bicton College.

ANIMAL MANAGEMENT DIPLOMA LEVEL 3

Where: Duchy College Rosewarne and Duchy College Stoke Climsland

Entry requirements: 5 or more GCSEs at grade 4 or above, including English, maths and science.

This course is perfect if you would like a career caring for animals in a zoo-based setting. We work in partnership with Dartmoor Zoological Park and Newquay Zoo to ensure you gain the practical, real-life experience that employers look for. During this course you will study a wide range of subjects including animal nutrition, animal handling and safe working, health and welfare, husbandry of exotic species, animal biology, animal training, behaviour, breeding, zoological collections and wildlife ecology.

There are one- and two-year options available with this pathway and we will work with you to decide which is best for you. Our state-of-the-art animal management centre at Duchy College Rosewarne provides dedicated practical facilities for working with a range of animals, including exotic species, aquatics, birds, zoo animals and large animals.

At Duchy College Stoke Climsland there are strong links with Dartmoor Zoological Park and two days per week are spent there, with a further day on campus and a day of work experience at Dartmoor Zoo working alongside the zoo staff.

Progression: University study such as Cornwall College Newquay's FdSc Zoology with Ecology and Conservation or FdSc Animal Behaviour and Welfare with possible further progression on to BSc (Hons) Applied Zoology and Conservation or BSc (Hons) Applied Marine Zoology.

HEAR FROM OUR ALUMNI

LAURA DENNIS FUNDRAISING MANAGER, THE HUGS FOUNDATION

Laura initially studied a Diploma in Horse Management and Care before going on to achieve a distinction in Business Management for the Environment and Land-based Sector and progressing to do a degree in Animal Behaviour and Psychology – all with The Cornwall College Group.

Since then she has secured a job as the Fundraising Manager for The Hugs Foundation – a charity that provides rescue and rehabilitation for horses, ponies and other animals that have been mistreated, abandoned or abused as well as providing well-being support to children, young people, the elderly and veterans.

“The work experience side of my course really helped me find exactly what career I wanted.”

I want a career in... ART AND DESIGN

Do you love art or design? Are you an inventive, creative person? Would you like to broaden your skills and learn how to develop your ideas, so that you could one day earn a living from your creativity? Our courses are ideal if you like to study in a practical, hands-on way. You will explore a wide range of materials, processes and technical skills, as well as developing good study skills.

Study Full-time

ART & DESIGN DIPLOMA LEVEL 2

Where: Camborne and St Austell

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

This one-year course allows you to experiment with drawing, painting, collage and mixed media, 3D, textiles, graphic design, Photoshop editing, and photography. You will be encouraged to try everything with an open mind, so that we can then help you find your talent and support you in developing your specialism. Projects are varied and are designed for you to be able to personalise them so that you can develop an individual style.

Progression: Art & Design Practice Diploma Level 3.

ART & DESIGN EXTENDED DIPLOMA LEVEL 3

Where: Camborne and St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

During this two-year course you will learn new skills and techniques and you will also learn about yourself as a creative. What are you passionate about? What do you want your art to communicate? How can you fit your creative skills into a job that you love? You will leave with the skills needed to become part of the fastest growing area of the UK economy.

Progression: University study such as our FdA Art & Design Practice, or employment in the industry.

CAREERS IN THIS INDUSTRY: FASHION DESIGNER, FINE ARTIST, GRAPHIC DESIGNER, PHOTOGRAPHER.

Study Full-time

ART & DESIGN FOUNDATION EXTENDED DIPLOMA LEVEL 3

Where: Camborne and St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

This one-year course is all about supporting you through a wide range of processes such as: drawing, painting, printmaking, photography, graphic design, animation, 3D, textiles and fashion.

It is suited to those who want to progress on on to university study or industry, or who are still unsure about their creative direction, or who want to spend a year exploring their creativity.

We will encourage you to think 'outside of the box' and push your ideas, while underpinning these with contemporary and historical themes, artists and art movements. You will engage in workshops, gallery visits and written assignments, whilst developing and defining areas of personal strength and interest.

Progression: University study such as our FdA Art & Design Practice, or employment in the industry.

I want to be a... GAMES DESIGNER

Do you love games? Are you passionate about platformers, barmy for board games and know your RPG stats inside out? Then why not come and join us on the games design course and find out what you are capable of!

Study Full-time

GAMES DESIGN & ANIMATION EXTENDED DIPLOMA LEVEL 3

Where: Camborne and St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

This two-year course is practically focused and coursework based and you will learn the skills needed to move onto university or into the ever expanding UK games industry. We focus on the development of games and game art and assets, so you don't need to be a coding master to succeed.

In the first year of the course you will look at the analysis and design of games, create 2D and 3D levels, undertake market research of your own game ideas and prepare those ideas for development, learn employability skills and manage teams to create products, investigate web design and analyse and create sound effects for games. You will even create a fully realised board game, use 3D printing techniques and a full production process to launch the product in a live premiere event – and all in just ten days.

In year two you will create social action games, research and produce academic essays, apply for university and get your career

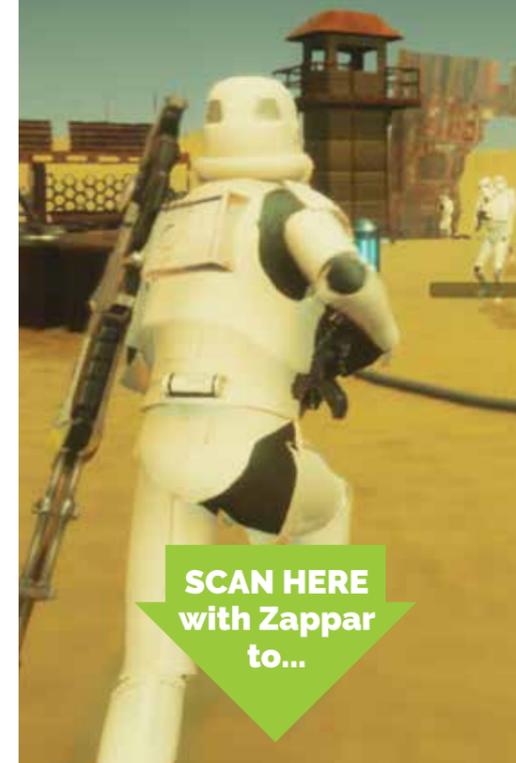

goals set up alongside making your own 3D animated characters. Both years will see you create your own final projects for end of year assessment.

Making use of the most up-to-date games development and digital media software you will learn to create with Adobe Creative Suite, including Premiere Pro, Photoshop, Animate, After Effects and more. 3D modelling software such as Autodesk 3Ds Max and Autodesk Maya. Game engines like Construct 3 and Ue4 and learn to work with the latest gadgets like the Oculus Rift Virtual Reality System.

For those students who don't quite meet the entry requirements we also run a one-year Media & Animation Diploma Level 2 designed to feed directly into the games course the following year.

Progression: University study such as our HND Games Design for Industry with possible progression on to our BA (Hons) Games Design for Industry (top-up), or employment in the industry.

CAREERS IN THIS INDUSTRY: GAMES DESIGNER, CONCEPT ARTIST, CHARACTER AND LEVEL MODELLER, ANIMATOR.

I want a career in... MEDIA & FILM

If you want to work in television, film, journalism, advertising, radio, or animation then our award-winning media department can help you achieve a bright career. Our former students are now working all over the world as camera operators, film directors and producers on exciting projects such as Star Wars films, American Idol, The X Factor, Britain's Got Talent and more.

Study Full-time

MEDIA, GAMES & PHOTOGRAPHY DIPLOMA LEVEL 2

Where: Camborne and St Austell

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

This one-year course introduces you to media skills and processes used in the industry today. You'll learn about manual camera operation and composition, professional sound recording, creative software use, professional pre-production, structuring video content, editing techniques etc. By developing these skills at Level 2, you will be well prepared to enter into more specialised study in further qualifications. The diploma is coursework based, meaning there are no exams as part of the media course. It's all about giving you the practical skills and experience behind the camera, in a project management role to lead a production.

Progression: Creative Media Production Diploma Level 3, Games Design & Animation Diploma Level 3 or Photography Creative Commercial Diploma Level 3. Alternatively you could go into employment.

CAREERS IN THIS INDUSTRY: CAMERA OPERATOR, DOP, PRODUCER, DIRECTOR, PRODUCTION RUNNER.

Study Full-time

FILM & TELEVISION EXTENDED DIPLOMA LEVEL 3

Where: Camborne and St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

This two-year course gives you the required media skills and experience to work in the industry. You'll learn about manual camera operation and composition, professional sound recording, script-writing, journalism, film production, editing techniques, creative software and lots more including our two week intensive nationally recognised film making machine, Film School.

This diploma is coursework based, giving you complete creative freedom. It's all about giving you the practical skills and experience to lead a creative production.

You'll learn about and put to good use a selection of professional equipment; take full advantage of the television and sound studios and great edits using the Adobe Creative Cloud Suite.

Progression: University study on courses such as media production, broadcasting, film production, media marketing and journalism, or employment in the industry.

I want to be a... PHOTOGRAPHER

If you are interested in a career in photography and have your sights set on a future in the creative industries then look no further as this is the course for you. The course is constructed with practical projects and hands on learning and you'll be spending a lot of time taking photographs in and out of college.

Study Full-time

PHOTOGRAPHY - CREATIVE - COMMERCIAL EXTENDED DIPLOMA LEVEL 3

Where: Camborne and St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

During this two-year course you will learn from practicing professional photographers fusing passion, creativity and commercial production and you will explore a range of photographic applications such as landscape, portrait, fashion, events and fine art. While learning these new applications you will also be introduced to studio lighting, shooting on location, photographic products, stop-motion animation, as well as learning how to exhibit your work.

You will learn industry skills including: shooting, editing, and printing using both digital and analogue cameras. You will have access to a traditional darkroom as well as the full Adobe Creative Suite including Lightroom, Photoshop, InDesign and Premiere. Our large photo studio features quality equipment used in industry today.

At our St Austell campus you will benefit from working as part of The Creative and Digital Academy, you'll collaborate on a wide range of projects, performances and exhibitions with fellow creatives. Our vibrant and diverse spaces mean you'll be engaging with musicians, dancers, gamers, filmmakers and actors, all working together to grow the creative landscape in Cornwall.

Progression: University study such as our FdA Photography, or employment in the industry.

Want to start your own business? Make your ideas happen? Create exciting advertising campaigns? Learn how to manage a team of professionals? You can start developing your career in this sector by studying a business qualification.

Study Full-time

BUSINESS DIPLOMA LEVEL 2

Where: St Austell

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

This two-year course will provide you with an understanding of how marketing, human resources, accounts, operations, sales, project teams, management teams, directors and customer service interlink to achieve business aims and objectives. This course involves research for assignments, guest speakers, lectures, group work and discussions and, where possible, visits.

Progression: Business Diploma Level 3.

BUSINESS DIPLOMA LEVEL 3

Where: St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

This two-year course will provide you with essential knowledge of how the environments of Cornwall and the UK impact upon how a business plans and operates to ensure its success. It will enable you to acquire vital skills and the critical awareness necessary for managing teams and creating value for a business, whilst preparing you for your career.

Progression: University study, an apprenticeship or employment in the industry.

Apprenticeship

CUSTOMER SERVICE PRACTITIONER APPRENTICESHIP LEVEL 2

Where: St Austell

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification. Plus an employer willing to take you on as an apprentice.

This apprenticeship gives you the chance to tailor your training to the job role of your dreams, leading to potential careers in business, marketing, sales, customer service or HR. With a focus on developing essential customer service skills at its core you will spend time at college learning skills and theory to help you in the workplace.

Progression: Business Administration Apprenticeship Level 3.

BUSINESS ADMINISTRATION APPRENTICESHIP LEVEL 3

Where: St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above including English and/or maths, or successful completion of a relevant Level 2 qualification. Plus an employer willing to take you on as an apprentice.

If you are efficient and enjoy organising people and resources, this is a great apprenticeship for you to start your career. Experience a variety of administrative roles in any industry e.g. executive assistants, secretaries, administration assistants, data entry clerks and office juniors. Delivery will consist of class-based and work based learning.

Progression: A higher level apprenticeship, university study or employment in the industry.

Apprenticeship

TEAM LEADER/SUPERVISOR LEVEL 3

Where: St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above including English and/or maths, or successful completion of a relevant Level 2 qualification. Plus an employer willing to take you on as an apprentice, employed at a supervisory management level.

This apprenticeship will cover being a leader; personal development as a first line manager, resource planning, managing and communicating information, identifying development opportunities, management communication, meeting stakeholder needs, plus the completion of an end point assessment.

Progression: A higher level apprenticeship, university study or employment in the industry.

Apprenticeship

HR SUPPORT LEVEL 3

Where: St Austell

Entry Requirements: Although there are no formal entry requirements, initial diagnostics to ensure that this qualification is appropriate for you will be carried out.

You will gain an understanding of business, HR legislation and policies, plus HR functions, systems and processes. Whilst developing your skills in service delivery, problem solving, communication and interpersonal, teamwork, process improvement, managing HR information and personal development.

Progression: A higher level apprenticeship, university study or employment in the industry.

Study Full-time

FOOD PREPARATION & COOKING LEVEL 1

Where: Camborne and St Austell

Entry Requirements: Two or more GCSEs at grade 2 or above, or successful completion of Entry Level qualification.

This one-year course is ideal if you have a passion for the food and drink industry, and enjoy working as part of a hospitality team. Completing this course is your first step to working in a professional kitchen or restaurant. The course covers all the basic duties to become a chef, from maintaining a safe working place to preparing and cooking food items.

Progression: Food Preparation & Service Certificate Level 2.

FOOD PREPARATION & SERVICE CERTIFICATE LEVEL 2

Where: Camborne and St Austell

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

During this one-year course you will learn how the hospitality industry is structured and functions alongside how to prepare savoury and sweet products, and beverages, serve food and beverages to customers, and work safely and hygienically.

Progression: Professional Cookery Certificate Level 2, an apprenticeship or employment in the industry.

Study Full-time

PROFESSIONAL COOKERY CERTIFICATE LEVEL 2

Where: Camborne and St Austell

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

This one-year qualification covers the knowledge and skills you will need to enter work as a professional chef. You will learn about the techniques, structure, and principles of working as a chef in a professional kitchen, including how knives, tools and equipment are used, and how to work safely and hygienically.

Progression: Professional Cookery Diploma Level 3, Chef De Partie Apprenticeship Level 3 or employment in the industry.

PROFESSIONAL COOKERY ADVANCED DIPLOMA LEVEL 3

Where: Camborne and St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

This is a practical course that will equip you with the skills and knowledge to work across a variety of sectors in the catering and food service industries, from event catering to fine dining restaurants. The course will enable you to develop skills in the preparation and cooking of complex meat, poultry, fish, hot and cold sauces, vegetables and salads. During the course you will develop and refine your essential skills, building on your culinary foundations to take your cookery to a higher level with more complex techniques and dishes.

Progression: You could enter the industry as a commis chef or chef de partie at high-end establishments.

Study Full-time

FOOD & BEVERAGE SERVICE SUPERVISION DIPLOMA LEVEL 3

Where: Camborne and St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

If you enjoy working front of house and are looking to progress your career to supervisory or management level this course is ideal. You will learn through a combination of practical and theoretical units helping you to develop your supervisory skills in a range of areas including: staff training, customer service, food and beverage combinations, legislation, hospitality events, health and safety and wine preparation.

Progression: Employment or university study.

Study Full-time

PROFESSIONAL COOKERY (PATISSERIE & CONFECTIONERY) DIPLOMA LEVEL 3

Where: Camborne and St Austell

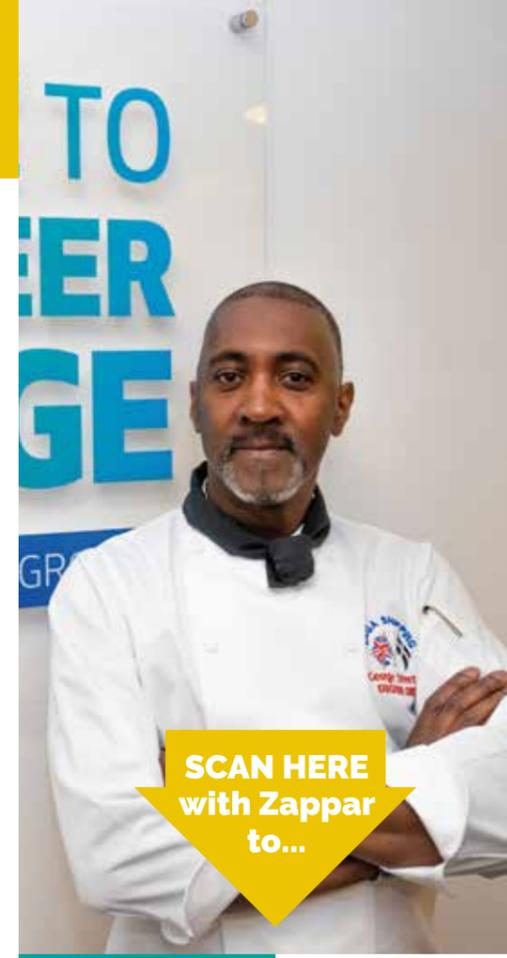

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

During this one-year course you will produce delights from the world of pastry: fermented dough and batter products, petit fours, paste products, hot, cold and frozen desserts, biscuits, cake and sponges, and chocolates. As you progress, you can let your imagination run wild and produce a showpiece. To get you ready and prepared for work you will also undertake food safety supervision, supervision in the professional kitchen, sustainability and gastronomy.

Progression: Employment or a higher apprenticeship.

CAREERS IN THIS INDUSTRY: COMMIS CHEF, CHEF DE PARTIE, SOUS CHEF, HEAD CHEF.

If you are passionate about food and would love to use your creativity to make mouth-watering dishes every day, then look no further than a career as a chef. From commis chef to head chef there is a range of roles available to you.

I want to be a... CHEF

If you have a passion for cooking or want to ensure that customers receive the very best in front of house service then join the best catering college in the South West. As a nationally recognised Centre of Excellence in three disciplines and holder of an AA Highly Commended College Rosette, there really is nowhere better to study catering and hospitality.

Apprenticeship

COMMIS CHEF APPRENTICESHIP LEVEL 2

Where: Camborne and St Austell

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification. Plus an employer willing to take you on as an apprentice.

The primary objective of the commis chef is to learn and understand how to carry out the basic functions in every section of the kitchen. During this one-year apprenticeship you will learn how to prepare and cook a range of commodities including: fish, shellfish, meat, poultry, game, offal, vegetables, stock, sauces, soup, bread and dough, pastry, cakes, and hot and cold desserts.

Progression: Chef de Partie Apprenticeship Level 3 or employment in the industry.

PRODUCTION CHEF APPRENTICESHIP LEVEL 2

Where: Camborne

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification. Plus an employer willing to take you on as an apprentice.

If you would like to work in large kitchens such as schools, hospitals, armed forces, care homes, high street casual dining or pub kitchens, then this apprenticeship is ideal for you. You will learn kitchen operations techniques, nutritional information, how to communicate with colleagues and customers and how to contribute to individual, team and organisational success.

Progression: Employment in the industry.

CAREERS IN THIS INDUSTRY: COMMIS CHEF, CHEF DE PARTIE, SOUS CHEF, HEAD CHEF.

Apprenticeship

CHEF DE PARTIE APPRENTICESHIP LEVEL 3

Where: Camborne

Entry Requirements: Four or more GCSEs at grade 4 or above including English and/or maths, or successful completion of a relevant Level 2 qualification. Plus an employer willing to take you on as an apprentice.

This apprenticeship is for learners working in a wide range of hospitality settings across the service and commercial sectors. A chef de partie is responsible for running a specific section of the kitchen. This type of chef usually manages a small team of workers, which they must keep organised so that dishes go out on time and the work area remains clean and orderly, for example, sauces, pastries or fish. However, in smaller kitchens a chef de partie may work independently as the only person in their section. Also known as a station or section chef, the chef de partie reports to the senior chef and has a very important role in any kitchen. During this apprenticeship the emphasis is on culinary skills, team management, health and safety and all business aspects of the hospitality industry. You will also develop a deeper understanding of preparing and cooking a range of commodities including: fish, shellfish, meat, poultry, game, offal, vegetables, stock, sauces, soup, bread and dough, pastry, cakes, and hot and cold desserts with the ability to transfer this knowledge to junior members of the team.

Progression: Employment in the industry.

I want to... WORK WITH CHILDREN

Do you enjoy being around children, have an interest in child development and are patient, caring, enthusiastic and creative? Do you also have a sense of fun? If the answer is yes then our range of children, schools and families courses are perfect for you.

Study Full-time

WORKING WITH CHILDREN IN EARLY YEARS & PRIMARY SETTINGS CERTIFICATE LEVEL 2

Where: Camborne and St Austell

Entry Requirements: Four GCSEs at grade 3 or above including maths and English, DBS evidence in place prior to enrolment, work placement secured within six weeks of enrolment and a letter of recommendation from a tutor or work placement supervisor.

This one-year course allows you to get hands-on in a childcare setting and primary school, interacting with children and being part of a team whose main aim is to provide a caring and enabling environment.

You will take part in a weekly work placement and attend college in order to complete the course.

You will take part in practical and theory lessons, in well-equipped classrooms that replicate the childcare and primary school settings. Explore the world of all ages of children, from learning about nappy changing, to preparing bottles, making nutritious food, to setting up an exciting and educational play environment, and getting creative with arts and crafts and sensory play.

Progression: Childcare & Education Level 3.

Study Full-time

CHILDCARE & EDUCATION DIPLOMA LEVEL 3

Where: Camborne and St Austell

Entry Requirements: Five GCSEs at grade 4 or above including maths and English, DBS evidence in place prior to enrolment, and work placement secured within six weeks of enrolment.

During this two-year course you will learn why children behave the way they do and the theory that supports their development and learning. You will also develop skills to carry out child observations using children who come into college or are in the workplace.

An important aspect of being an early years practitioner is learning your roles and responsibilities when with children, so you'll look at legislation, keeping children safe and working in partnership with others. You will be taught by sector experienced tutors who are there to fully support you in your chosen career.

We will help you to develop your confidence in the workplace to enable you to communicate effectively and carry out your role. You will learn the art of time management and be an active part of the community through organising charity events or volunteering.

Progression: University study such as our FdA Child & Family Studies.

Apprenticeship

EARLY YEARS EDUCATOR APPRENTICESHIP LEVEL 3

Where: Camborne and St Austell

Entry Requirements: GCSEs at grade 4 in English language and maths. Plus an employer willing to take you on as an apprentice.

If you love working with children and would like a career in a supporting role within a children's centre, pre-schools, nurseries or reception classes; studying this apprenticeship is ideal for you. You could be working on your own, or with others, to deliver the Early Years Foundation Stage of learning, development and care requirements of children from birth to five years old.

You will attend college one day a week where you will learn from a range of interesting themes including child development and observation, planning for play and learning, health and safety, safeguarding, creativity, nutrition and diet, and professional development.

Progression: Employment or university study such as our FdA Child & Family Studies.

Apprenticeship

TEACHING ASSISTANT APPRENTICESHIP LEVEL 3

Where: Camborne and St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above including English and/or maths, or successful completion of a relevant Level 2 qualification. Plus an employer willing to take you on as an apprentice.

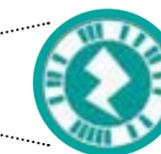

This qualification provides you with an understanding of the knowledge needed when working directly with children and young people in a school or college environment.

It will enable you to gain an understanding of elements including children and young people's development, and safeguarding their welfare.

Progression: Employment or university study such as our FdA Child & Family Studies.

CONSTRUCTION MULTI-SKILLS ENTRY LEVEL 3 AND LEVEL 1

Where: Camborne (Entry Level 3) and St Austell (Level 1)
Entry Requirements: Camborne - No formal entry requirements are required for Entry Level 3. St Austell - GCSEs in English and maths at grade 2 or above.

If you are not sure which subject to choose in construction, then this is the starter course for you. The course has been designed to give you time to try three different trade areas, carpentry, bricklaying and plumbing. In bricklaying you will learn how to set out for brick and block walls, tiling, and concreting.

Progression: Bricklaying Diploma Level 1.

BRICKLAYING DIPLOMA LEVEL 1

Where: Camborne and St Austell
Entry Requirements: GCSEs in English and maths at grade 2 or above.

This is an ideal one-year introduction to learning more about trowel trades in the construction industry. To work on a construction site you need to have a Construction Skills Certificate Scheme (CSCS) card, which covers essential health and safety, however if you wish to earn more than a labourer, gaining a technical skills qualification will provide you with a great start to a career. This course is ideal if you would like to go on to an apprenticeship.

Progression: Bricklaying Diploma Level 2 or Bricklaying Apprenticeship Level 2.

Study Full-time

CONSTRUCTION MULTISKILLS DIPLOMA WITH PLANT OPERATIONS OPTIONS LEVEL 1

Where: Duchy College Stoke Climsland
Entry Requirements: Two or more GCSEs at grade 2 or above, or successful completion of Entry Level qualification.

This course provides you with a range of skills and knowledge from core construction trades. If you are interested in a career in construction and are not sure which trade is for you, then this course will give you the opportunity to experience different trades and strengthen your knowledge and understanding.

Progression: Specialist trade courses at either Level 1 or Level 2, Plant Operations Level 2, Plant and Construction Apprenticeship at Level 2.

Study Full-time

BRICKLAYING DIPLOMA LEVEL 2

Where: Camborne and St Austell
Entry Requirements: Three or more GCSEs at grade 3 or above, including English and maths.

This one-year diploma will advance your knowledge of the bricklaying industry and develop your essential skills. You'll be learning from experienced and professional bricklayers, who are there to give you the very best start to your career. We do everything in our workshop: from brick to block work, line work, piers, corners, one brick thick walls, cavity walls, arches, render and finish plastering and much more.

Progression: Employment in the industry or an apprenticeship.

Apprenticeship

BRICKLAYING APPRENTICESHIP LEVEL 2

Where: Camborne and St Austell
Entry Requirements: Three or more GCSEs at grade 3 or above. Plus an employer willing to take you on as an apprentice.

You will spend a lot of time in our workshop, learning by doing as you work on a range of materials and tools, which will be supported by theory lessons to underpin your knowledge. You will also be collecting evidence from work to show your competency in the job.

Progression: Employment in the industry or an apprenticeship.

YOU WILL STUDY

CAREERS IN THIS INDUSTRY: BRICKLAYER, STONEMASON, CONSTRUCTION TECHNICIAN, SUPERVISORY ROLES.

I want to be a... CARPENTER

If you are interested in working in the construction industry, we offer a choice of specialist training. Site carpentry focuses on woodwork essential to a construction site, and includes fitting flooring, roofing frame installation, partition wall construction and stair building. Bench joinery is predominantly more workshop-based, where you make and prepare materials for installation on a construction site.

Study Full-time

CONSTRUCTION MULTI-SKILLS ENTRY LEVEL 3 AND LEVEL 1

Where: Camborne (Entry Level 3) and St Austell (Level 1)
Entry Requirements: Camborne - No formal entry requirements are required for Entry Level 3. St Austell - GCSEs in English and maths at grade 2 or above.

If you are not sure which subject to choose in construction, then this is the starter course for you. The course has been designed to give you time to try three different trade areas, carpentry, bricklaying and plumbing. In carpentry you will learn how to handle tools safely and construct halving joints, housing joints and framing joints.

Progression: Carpentry & Joinery Diploma Level 1.

CARPENTRY & JOINERY DIPLOMA LEVEL 1

Where: Camborne and St Austell
Entry Requirements: GCSEs in English and maths at grade 3 or above.

This one-year course is an ideal introduction to working with wood in the construction industry. We offer specialist training and qualifications in both bench joinery and site carpentry and there is also an opportunity to cross over between the two disciplines. This course is ideal if you would like to go on to an apprenticeship.

Progression: Site Carpentry/Bench Joinery Diploma Level 2 or Site Carpentry/Bench Joinery Apprenticeship Level 2.

Study Full-time

SITE CARPENTRY/BENCH JOINERY DIPLOMA LEVEL 2

Where: Camborne and St Austell*
Entry Requirements: Three or more GCSEs at grade 3 or above, including English and maths.

All of our training takes place in a construction-related environment and with carpentry you'll be working on your own timber frame house either in our large workshops or outside to add a bit more site realism to the course. With bench joinery you will be taught all aspects of joinery from cutting joints by hand to assembling windows and then progressing to setting up static machines to produce doors and staircases.

Progression: Employment in the industry or an apprenticeship.

SITE CARPENTRY/BENCH JOINERY DIPLOMA LEVEL 3

Where: St Austell (carpentry only)
Entry Requirements: Four or more GCSEs at grade 4 or above including English and maths.

This one-year course will enable you to take your site carpentry or bench joinery skills far beyond the Level 2 and give you a more advanced understanding of building construction along with the part a site carpenter or bench joiner plays in the manufacture of building components and how they fit into the construction of all sorts of buildings.

Progression: Employment in the industry or further qualifications in construction management.

Apprenticeship

SITE CARPENTRY/BENCH JOINERY APPRENTICESHIP LEVEL 2

Where: Camborne and St Austell*
Entry Requirements: Three or more GCSEs at grade 3 or above. Plus an employer willing to take you on as an apprentice.

All of our training takes place in a construction related environment and with carpentry you'll be working on your own timber frame house either in our large workshops or outside to add a bit more site realism to the course. With bench joinery you will be taught all aspects of joinery from cutting joints by hand to assembling windows, producing doors and staircases.

Progression: Site Carpentry/Bench Joinery Apprenticeship Level 3.

*Please note we do not offer the bench joinery option at our St Austell campus, only the site carpentry.

Apprenticeship

SITE CARPENTRY/BENCH JOINERY APPRENTICESHIP LEVEL 3

Where: Camborne and St Austell*
Entry Requirements: Four or more GCSEs at grade 4 or above including English and maths. Plus an employer willing to take you on as an apprentice.

An advanced site carpenter will normally work on a building site, or in domestic or commercial premises, preparing and installing complex and often bespoke building components e.g. double doors, shaped linings, staircases with turns, complex wall and floor units, erecting bespoke structural roof structures.

Progression: University study such as our HNC Construction & the Built Environment, or employment in the industry.

CAREERS IN THIS INDUSTRY: SITE CARPENTER, BENCH JOINER, WOOD MACHINIST, SHOP FITTER.

I want to be an... ELECTRICIAN

Would you like a career in a well-paid, rewarding, exciting and ever-changing environment? Are you a problem solver? A team player? Do you have an appetite for new knowledge and a concern for the environment? Do you know your Teslas from your Musks? And finally, do you relish a challenge? If this has 'sparked' your interest then read on!

Study Full-time

ELECTRICAL INSTALLATION DIPLOMA LEVEL 1

Where: Camborne and St Austell

Entry Requirements: GCSEs in English and maths at grade 3 or above.

This one-year diploma will see you gain confidence through regular hands-on practical sessions in our dedicated electrical workshop. Our focus is also on giving you great employability skills such as communication, professionalism, teamwork, autonomy and interview techniques. You will gain a solid understanding of wiring circuits, health and safety, installation methods, basic testing and renewables.

Progression: Electrical Installation Diploma Level 2.

ELECTRICAL INSTALLATION DIPLOMA LEVEL 2

Where: Camborne and St Austell

Entry Requirements: GCSEs in English and maths at grade 5 or above, or successful completion of the Electrical Installation Diploma Level 1.

This one-year course will explain the systems and practices found in the electrical industry. From the rules that govern the sector to the practical applications, from how to apply the correct theory to practical situations to fault finding. The principles of electrical installation will be broken down and what seems a minefield will become a light bulb moment and you will see it all clearly.

Progression: Electrical Installation Diploma Level 3.

CAREERS IN THIS INDUSTRY: : INSTALLATION ELECTRICIAN, MAINTENANCE ELECTRICIAN, ELECTRICAL DESIGN ENGINEER.

Study Full-time

ELECTRICAL INSTALLATION DIPLOMA LEVEL 3

Where: Camborne

Entry Requirements: GCSEs in English and maths at grade 5 or above and successful completion of the Electrical Installation Diploma Level 2.

Students will learn important topics such as 3 phase lighting and motor installation. Inspection, testing and fault diagnosis are an essential part of the course. In addition, environmental technologies, the current wiring regulations, BS7671, all underpinned by further electrical science and principles make this a very demanding programme of study.

Progression: Employment to work towards qualified status, or further professional development qualifications.

Apprenticeship

ELECTROTECHNICAL EMTA AWARD (ELECTRICAL ADVANCED APPRENTICESHIP) LEVEL 3

Where: Camborne

Entry Requirements: GCSEs in English and maths at grade 4 or above and an employer willing to take you on as an apprentice.

The course covers the skills and training required for the installation or maintenance of electrotechnical systems and equipment. The course lasts up to four years and upon completion you will be qualified to work as an installation or maintenance electrical engineer.

Progression: Employment in the industry or university study.

I want to work in... FURNITURE MAKING

If you have a creative soul with practical ability, a course in furniture making is an ideal route to a rewarding career. Furniture design is a specialised field where function and fashion collide. Furniture has evolved and changed with the times, some styles have remained constant throughout the years, while others have drastically changed or become obsolete.

Study Full-time

FURNITURE MAKING DIPLOMA LEVEL 2

Where: Camborne

Entry Requirements: GCSEs in English and maths at grade 3 or above, or successful completion of our Furniture Making & Furnishings Certificate Level 1 or Carpentry & Joinery Diploma Level 1.

This one-year course focuses on hand skills, and how to construct both simple and complicated joints. You will learn about the different types of wood used in the industry and its suitability for different projects, as well as sustainability. Whilst the focus is on hand skills, you will also be taught how to use a wide variety of woodworking machines in our extensive machinery shop. Part of the course will entail the construction of a bedside cabinet, which incorporates a door and drawer.

Progression: Furniture Design & Making Diploma Level 3.

Study Full-time

FURNITURE DESIGN & MAKING DIPLOMA LEVEL 3

Where: Camborne

Entry Requirements: Four or more GCSEs at grade 4 or above including English and maths, or successful completion of a relevant Level 2 qualification.

This course will introduce you to the complete process of furniture design and production, from researching the history of furniture design to the making of your own designs into finished practical pieces. Often you will get the chance to work on live commissions with clients that will give you an invaluable insight into the commercial world of furniture design and making.

The majority of your time will be spent in the workshops perfecting your craft, with assignments and projects making up your assessment to gain the qualification. Essential skills developed, both traditional and new include: hand tool skills, wood machining, joint structure, strength and finishing, understanding timber types and technical drawing.

Progression: Directly into employment, self-employment or university study.

CAREERS IN THIS INDUSTRY: FURNITURE MAKER, CABINET MAKER, CRAFT WOODWORKER, ANTIQUE RESTORER.

I want to work in... FURNITURE MAKING

If you have a creative soul with practical ability, a course in furniture making is an ideal route to a rewarding career. Furniture design is a specialised field where function and fashion collide. Furniture has evolved and changed with the times, some styles have remained constant throughout the years, while others have drastically changed or become obsolete.

Apprenticeship

FURNITURE MAKING APPRENTICESHIP LEVEL 2

Where: Camborne
Entry Requirements: Three or more GCSEs at grade 3 or above. Plus an employer willing to take you on as an apprentice.

You will build your practical skills in our state-of-the-art workshops while learning the theoretical side of product development with our team of expert, friendly and medal-winning lecturers, many of whom are designing and producing their own furniture at a commercial level.

Progression: Furniture Apprenticeship Level 3.

Apprenticeship

FURNITURE APPRENTICESHIP LEVEL 3

Where: Camborne
Entry Requirements: Four or more GCSEs at grade 4 or above including English and maths. Plus an employer willing to take you on as an apprentice.

This one-year course will enable you to fit out very high specification interiors in cars, motorhomes, super yachts, and planes, design and fit kitchens, offices, and shops or set up your own furniture making business. You will learn in our dedicated furniture suite where we have a large makers workshop, a design room, a power tool room and a finishing room as well as access to the wood machine/ joinery workshop.

You will develop your design skills and making skills to another level as you explore the world of curves, initially you will be engaged in producing a complex box and then will soon be engaged in designing a prototype piece of furniture to present to a customer. You will learn a diverse range of skills from making and designing jigs to operating CNCs, working as a team and leading a team, looking at a wide range of design influences to enable you to construct complex furniture in the most efficient way possible.

Within the workshops you will have practical access to equipment and staff that will enable you to progress your design to completion. You will have time to learn techniques that you can further develop.

Progression: Directly into employment, self-employment or university study.

CAREERS IN THIS INDUSTRY: FURNITURE MAKER, CABINET MAKER, CRAFT WOODWORKER, ANTIQUE RESTORER.

I want to be a... PLUMBER

Often called upon in an emergency, if you can fix a leaking pipe, mend a broken toilet, or repair a central heating system, you will be hailed a hero. An experienced plumber should have the ability to work in a variety of different environments and during your time with us we will teach you the practical, hands-on skills and industry legislation to enable you to do this, either as an employee or running your own business.

Study Full-time

BASIC PLUMBING STUDIES LEVEL 1

Where: Camborne and St Austell
Entry Requirements: GCSEs in English and maths at grade 3 or above.

Practical skills such as cutting, bending and joining pipes and fittings, backed up by some classroom theory to introduce you to concepts of plumbing and heating systems and how they work. You will be assessed throughout the course on your practical work. This course is ideal if you would like to go on to an apprenticeship.

Progression: Plumbing Studies Diploma Level 2.

Study Full-time

PLUMBING STUDIES DIPLOMA LEVEL 2

Where: Camborne and St Austell
Entry Requirements: GCSE English and maths at grade 5 or above, or successful completion of our Basic Plumbing Studies Level 1.

This one-year course will explain the systems, components and terminology used in the plumbing industry, you will learn how the advanced systems work and how they interact with one another. By gaining an advanced knowledge to all the plumbing systems of a house, how they work and how they interact with one another, you will be prepared for the more specialised practical repair, installation and diagnostic elements of further qualifications at Level 3.

Progression: Plumbing Diploma Level 3 or our Plumbing Apprenticeship Level 3.

CAREERS IN THIS INDUSTRY: PLUMBING ENGINEER, PLUMBING AND HEATING ENGINEER, PLUMBING AND DRAINAGE ENGINEER.

I want to be a... PLUMBER

If you like getting your hands dirty, fixing things and implementing a science that dates back to the Roman times, plumbing might just be what you are looking for. Our workshop features industry-standard equipment and kit, exactly like you would find in any plumber's van. We also have a strong partnership with many manufacturers and industry bodies.

Apprenticeship

PLUMBING APPRENTICESHIP LEVEL 3

Where: Camborne and St Austell

Entry Requirements: Four or more GCSEs at grade 5 or above, including English and maths. Plus an employer willing to take you on as an apprentice.

This four-year course will explain the systems, components and terminology used in the plumbing industry, you will learn how the systems work and how they interact with one another.

The first two years will lay the foundations of the basics of the subject. Year three will introduce you to how we design and calculate system requirements, while year four will be all about your chosen fuel route (gas, oil, renewable technologies). This will all run alongside you gaining valuable experience at work and putting practice into the theory you learn with us. As a Level 3 course, this apprenticeship is all about immersing you in the plumbing and heating industry and developing your essential skills. You'll be learning from professional engineers with many years of industry experience, who are there to give you the very best start to your career.

Progression: Employment in the industry as a fully qualified plumbing and heating engineer.

CAREERS IN THIS INDUSTRY: PLUMBING ENGINEER, PLUMBING AND HEATING ENGINEER, PLUMBING AND DRAINAGE ENGINEER.

Apprenticeship

GAS ENGINEERING APPRENTICESHIP LEVEL 3

Where: Camborne

Entry Requirements: Four or more GCSEs at grade 5 or above, including English and maths. Plus an employer willing to take you on as an apprentice.

This apprenticeship will help you build all the knowledge required to be a fully-fledged gas engineer. You will be confident in navigating British standards and manufacturer's instructions. You will learn how and why gas appliances do what they do. In addition to learning about gas appliances you will gain knowledge and experience of pressurised hot water systems. You will understand the health and safety aspects of not just gas itself but the importance of expelling dangerous flue products from a dwelling and the need to provide clean air for combustion.

In addition to your gas studies, we promote and discuss equality, diversity and inclusion, and prepare you for the variety of customers you will encounter. Throughout this course you will be learning and using excellent communication and developing your professional skills.

Progression: Employment in the industry.

I want to be a... PROPERTY MAINTENANCE OPERATIVE

If you are interested in working in a fast moving and varied sector, then property maintenance could be the profession for you.

Apprenticeship

PROPERTY MAINTENANCE OPERATIVE APPRENTICESHIP LEVEL 2

Where: Camborne

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification. Plus an employer willing to take you on as an apprentice.

You will study and develop all the essential skills you need as a property maintenance operative, carrying out maintenance and repair activities as you progress through the course. You will be looking at everything: carpentry, plumbing, plastering, electrical, tiling and learning about external building repairs.

This apprenticeship will give you all the skills, knowledge and behaviours you need to carry out your maintenance role to a high standard; whether it is in a care home, hospital, school, commercial premises, holiday park, town council or any of the other numerous possibilities.

Our workshops feature up to date industry-standard equipment for each discipline. We have a proven track record with construction related trades and are the preferred provider of construction courses in the area, employers know a construction qualification from The Cornwall College Group means you have the very best skills for the industry. So, if you have good problem-solving skills and you work well with your hands, this is the best place to start.

You will learn from experienced construction professionals who are there to give you the very best start to your career.

Progression: Employment in the industry.

CAREERS IN THIS INDUSTRY: MAINTENANCE MANAGER, HANDYMAN, PROPERTY OPERATIVE.

Apprenticeship

PLASTERING APPRENTICESHIP LEVEL 2

Where: St Austell and Camborne

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification. Plus an employer willing to take you on as an apprentice.

You will spend a lot of time in our workshop, learning by doing as you work on a range of materials and tools, which will be supported by theory lessons to underpin your knowledge. You will also be collecting evidence from work to show your competency in the job.

Progression: Employment in the industry or an apprenticeship.

ESPORTS EXTENDED DIPLOMA LEVEL 3

Where: Camborne

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

The BTEC Level 3 Extended Diploma in Esports is a two-year, coursework and synoptic assessed course that is highly practical and ensures learners have the skills needed to move onto university or directly into industry. A breadth of Esports skills and careers are explored throughout the two-year programme to allow you to choose a range of pathways for your progression. These include but are not limited to sport, marketing, enterprise, IT and the creative industry. You will also have the opportunity to host various Esports events as well as testing your gaming skills against other competitive players.

If you want to join the next generation of Esports players, coaches, broadcasters, shoutcasters, events managers and business managers then this is the course for you.

Progression: FdA Games Design for Industry

What is Esports?

The Esports industry is a fast-growing global industry with revenue projected to reach £1.5 billion in 2022 with more than 450 million viewers tuning in during 2021. This is one of the most exciting and rapidly growing industries in the world!

I want a career in... INFORMATION TECHNOLOGY

Today more than 1.5 million people are working within the digital sector, or in digital tech roles in the UK. The number of digital tech jobs across the UK has grown at more than twice the rate of non-digital tech sectors, and Cornwall is one of the UK's growth centres for digital tech.

Study Full-time

SKILLS FOR DIGITAL PROFESSIONALS SUITE LEVEL 2

Where: Camborne and St Austell

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

Workshop skills and web coding make up most of this course. You'll be spending your time in our digital tech suites and our very own PC clinic, where you learn how to assemble, set-up, test and repair PCs. You will install operating systems and other software, test it and configure it. As part of this course you will also be involved in working with external organisations.

Progression: Skills for Digital Professionals Suite Diploma Level 3 or an apprenticeship.

INFORMATION TECHNOLOGY DIPLOMA LEVEL 3

Where: Camborne

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

On this course you will spend time in tech suites and our own PC clinic, learning how to assemble, set-up and test PCs. You will code, install operating systems and work with external organisations.

Progression: University study such as our FdSc Computing, Networking & Software Development at our Camborne campus, an apprenticeship or employment in the industry.

CAREERS IN THIS INDUSTRY: SOFTWARE DEVELOPER, SOFTWARE SUPPORT, COMPUTER PROGRAMMER, IT TECHNICIAN.

Study Full-time

SKILLS FOR DIGITAL PROFESSIONALS SUITE LEVEL 3

Where: St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

You'll learn how computers work and how to maintain and repair them. You will gain insight into how networks operate and learn how to set them up, secure and monitor their performance. This course is ideal if you like anything from social media and e-commerce, to building computers, gaming and local area networks.

Progression: University study such as our FdSc Computing, Networking & Software Development at our Camborne campus.

Apprenticeship

DIGITAL SUPPORT TECHNICIAN LEVEL 3

Where: St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above including English and/or maths, or successful completion of a relevant Level 2 qualification. Plus an employer.

This apprenticeship will maximise the effective use of digital office technologies, productivity software and digital communications. You will cover many areas including, administering and configuring Office 365 apps, digital security, modern digital infrastructures and more.

Progression: University study such as our BSc Computing Technologies or continue in employment in the industry.

Study Full-time

ENGINEERING TECHNOLOGIES DIPLOMA LEVEL 1

Where: Camborne and St Austell

Entry Requirements: GCSEs in English and maths at grade 3 or above.

This one-year course will provide you with the essential skills required as an engineer. You will gain exposure to a real life engineering workshop and undertake practical assessments using relevant industry equipment and technology, such as welding, CAD, turning and machining. You will also learn how to work within a team and develop your maths and English skills.

Progression: Engineering Technologies Diploma Level 2 or an apprenticeship.

ENGINEERING TECHNOLOGIES DIPLOMA LEVEL 2

Where: Camborne and St Austell

Entry Requirements: GCSE English and maths at grade 4 or above, or successful completion of our Engineering Technologies Diploma Level 1.

This one-year course is all about mastering the essential skills that you'll need during your engineering career and giving you experience with the very latest technology. You will study: health and safety, producing and interpreting engineering drawings, problem solving, fault finding, hand fitting skills, machining techniques in turning, milling, welding and fabrication skills.

Progression: Engineering Technologies Diploma Level 3 or an apprenticeship.

CAREERS IN THIS INDUSTRY: AN ENGINEER IN CIVIL, COMMERCIAL, DEFENCE, DESIGN, ELECTRICAL ENGINEERING.

Study Full-time

ENGINEERING TECHNOLOGIES DIPLOMA LEVEL 3

Where: Camborne and St Austell

Entry Requirements: GCSE English and maths at grade 5 or above, or successful completion of our Engineering Technologies Diploma Level 2.

The focus of this one-year course is on developing your knowledge application, experimental, research and practical engineering techniques. Whilst preparing you to professionally present your findings and demonstrate these essential skills. This course has considerable academic content, preparing you for a potential future at university. As well as the expected maths and science there will be units covering manufacturing (both computer aided and manual), design, CAD and hand drafting, welding theory and practical, electrical and electronic principles, mechanical principles, hydraulics and pneumatics, health and safety, and environmental considerations.

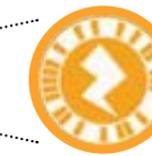

We have strong links with Pendennis and A&P shipyard and train all their apprentices and SERCO for aero, so employers know an engineering qualification from The Cornwall College Group means you will start off in your career with the very best skills for an incredible journey in engineering.

Progression: University study such as our HNC or FdSc Engineering, employment in the industry or an apprenticeship.

ENGINEERING TECHNICIAN APPRENTICESHIP LEVEL 3

Where: Camborne, St Austell and Engineering Skills Centre Plymouth

Entry Requirements: Four or more GCSEs at grade 4 or above including English and/or maths, or successful completion of a relevant Level 2 qualification. Plus an employer willing to take you on as an apprentice.

During this apprenticeship you will cover the key knowledge, skills and behaviours required to be an engineering technician, as well as the specific criteria for your role profile.

We offer the following pathways*:

- Fitter
- Machinist
- Mechatronics
- Technical Support
- Toolmaker

The apprenticeship covers a foundation phase and once complete you will enter the development stage, which is predominantly assessed within the workplace while building on the knowledge at college. On completion of the development stage you will undertake an End Point Assessment in the form of a professional interview which, if successful, will see you gain your apprenticeship as well as qualifying for EngTech professional status.

*Please note not all pathways are available at all campuses.

Progression: University study such as our HNC or FdSc Engineering, or employment in the industry.

Apprenticeship

WELDER FABRICATOR APPRENTICESHIP LEVEL 3

Where: Camborne and St Austell

Entry Requirements: You will be required to attend an initial assessment in maths and English and a short interview prior to enrolment. You are expected to have a C/4 or Level 2 Functional Skill in maths and English to enter gateway in order for you to complete your End Point Assessment.

The broad purpose of the occupation is to carry out metal fabrication work using things such as rolled steel joists, columns, channels, steel plate and metal sheet etc. Work includes manufacturing bridges, oil rigs, ships, cranes, platforms, aircraft and machinery parts, sheet metal enclosures, equipment supports,

and anything that can be fabricated out of metal. Fabricators can work alone or in teams, in factories or on operational sites. Fabricators use a large range of metals including steel, stainless steel, aluminium and titanium. As a metal fabricator, your daily work will include interacting with planners, supervisors, inspectors, designers, welders, pipefitters, fitters, machinists, riggers, steel erectors, stores personnel, painters, and many others involved in manufacturing, production, maintenance and repair. Whilst on programme, if successful, you will achieve a Level 3 Diploma in Advanced Manufacturing Engineering (Development Knowledge).

Progression: HNC/HND Engineering

STUDY

CAREERS IN THIS INDUSTRY: AN ENGINEER IN CIVIL, COMMERCIAL, DEFENCE, DESIGN, ELECTRICAL ENGINEERING .

I want to work in... LAND-BASED ENGINEERING

If you love science, technology, engineering, or information technology, then a career in land-based engineering could be for you. The skills and types of land-based engineering include diagnostics repair and testing, all in the context of diesel and petrol engines, equipment controlled by GPS technology and integrated into environmental information; a fantastic mix of innovation and problem solving.

Study Full-time

LAND-BASED ENGINEERING CERTIFICATE LEVEL 2

Where: Bicton College and Duchy College Stoke Climsland
Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

Modern agriculture is full of incredible opportunities, with huge demand for qualified engineers. During this one-year course you will learn the skills and theory to maintain a wide variety of land-based machinery and equipment. Units covered include: health and safety, workshop practice, transmission systems, engines, fabrication, hydraulics, machinery operations. You will also undertake 150 hours of work experience.

Progression: Land-based Engineering Diploma Level 3 or employment in the industry.

Study Full-time

LAND-BASED ENGINEERING DIPLOMA LEVEL 3

Where: Bicton College
Entry Requirements: Four or more GCSEs at grade 4 or above, including English and maths, or successful completion of a relevant Level 2 qualification.

This two-year course is ideal if you want in-depth insight into the mechanics and science for land-based engineering. You might cover things like inspecting and testing land-based machinery, maintaining a production plant or servicing a fleet of grounds keeping ATVs. You'll also gain plenty of practical experience in your choice of skills and attend work experience placements with local employers.

Progression: University study such as our HNC Engineering or employment in the industry.

Apprenticeship

LAND-BASED ENGINEER APPRENTICESHIP LEVEL 2

Where: Bicton College and Duchy College Stoke Climsland
Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification. Plus an employer willing to take you on as an apprentice.

There has never been a better time to start a land-based engineering apprenticeship. The sector is technologically advancing at a fascinating rate, encompassing systems such as precision farming aids, satellite guidance, telematics, electronic controls, driverless technology, transmissions, engines, hydraulics and welding.

Progression: Land-based Engineering Apprenticeship Level 3 or employment in the industry.

Apprenticeship

LAND-BASED ENGINEER TECHNICIAN APPRENTICESHIP LEVEL 3

Where: Bicton College and Duchy College Stoke Climsland
Entry Requirements: Four or more GCSEs at grade 4 or above including English and maths, or successful completion of a relevant Level 2 qualification. Plus an employer willing to take you on as an apprentice.

Throughout this apprenticeship you will build on the work completed at Level 2, but focus on your employer's specific needs. These may include advanced welding skills, computer-based diagnostics or electrical systems maintenance.

Progression: University study such as our HNC Engineering or employment in the industry.

I want to work in...

PLANT OPERATIONS & GROUNDWORKS

Plant operations is the broad term referring to the operation and driving of heavy plant equipment such as, excavators, dumpers, rollers and telescopic handlers to name a few. Groundworks is the specific job role of preparing the ground using some of these machines within a construction, civil engineering, roads, railways or landscaping project.

Study Full-time

CONSTRUCTION DRIVER TRAINING LEVEL 2

Where: Duchy College Stoke Climsland

Entry Requirements: Two or more GCSEs at grade 2 or above. CSCS HSE completed within the last year.

You will learn to operate a variety of equipment including excavators, forklifts, dumpers and road rollers.

Progression: Employment or further qualifications.

PLANT OPERATIONS CSKILLS CERTIFICATE (GROUNDWORKS) LEVEL 2

Where: Bicton College

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

You will have the opportunity to carry out a number of construction tasks using plant with optional units covering 1.5-ton mini excavators up to 14-ton 360-degree tracked excavators. You will also receive industry training using 6-ton high vis forward tipping dumpers and compaction equipment. At the end of the first year, you will have been assessed on four machines to gain your Level 2 qualification and given the opportunity to take CPCS/NPORS tests.

Progression: Plant Operator Apprenticeship, or employment in the industry.

Study Full-time

PLANT OPERATIONS – GROUNDWORKS CERTIFICATE LEVEL 2

Where: Bicton College

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

This plant operations certificate is your gateway to gaining your full professional operators qualification if you want operate heavy plant to the exacting standards of the modern construction site this is the course for you. Once complete and the NPORS test has been passed this is your passport to a career in the construction industry and recognition of your professional operating skills.

Progression: Employment in the industry.

Study Full-time

PLANT OPERATIONS CSKILLS CERTIFICATE (BUILDING CONSTRUCTION) LEVEL 2

Where: Bicton College

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

The second pathway is usually carried out in the optional 2nd year of this course. It opens further opportunities to expand your skills with additional optional units, such as telescopic handler, agricultural tractor in construction, and the opportunity to attend courses such as chain saw. As a trainee operator, you will be involved in basic excavation trenching progressing onto more complex excavations for example structural foundations and service excavations.

Progression: Plant Operator Apprenticeship, employment in the industry.

Apprenticeship

CONSTRUCTION PLANT OPERATIVE APPRENTICESHIP LEVEL 2

Where: Bicton College and Duchy College Stoke Climsland

Entry Requirements: Three or more GCSEs at grade 3 or above, including English and maths, or successful completion of a relevant Level 1 qualification. Plus an employer.

This apprenticeship enables you to demonstrate and recognise your skills, knowledge and understanding and prove your competence in a real workplace environment.

Progression: Employment or further qualifications.

I want a career in... EQUINE MANAGEMENT

A career in the equine industry can be highly rewarding. We will prepare you for a successful career by providing you with the knowledge and practical skills to thrive within the industry, whether that is working practically on a yard as a groom or a yard manager, supporting and running equestrian events, breeding and stud management, equine welfare officer, coaching and training or a whole range of other opportunities.

Study Full-time

HORSE CARE LEVEL 1

Where: Bicton College and Duchy College Stoke Climsland
Entry requirements: Four GCSEs, with English or maths at grade 3, and the rest at grade 2.

This one-year course introduces you to the equine industry and develops your essential skills. You'll be learning from experienced and well-qualified staff, who are there to give you the very best start to your career. There are two options on the course, riding or non-riding. You'll be working on a range of different topics and units including: mucking out, rugs and rugging, tack and tacking up, feeding and watering, health and safety, communication, handling horses and riding horses.

Progression: Horse Care Level 2.

HORSE CARE LEVEL 2

Where: Bicton College and Duchy College Stoke Climsland
Entry requirements: Four GCSEs, including maths or English at grade 4, with the rest at grade 3 or above.

During this one-year course you will learn a range of husbandry skills including feeding, horse health, lungeing horses, exercising, anatomy and physiology, and tack and equipment. You will also undertake work experience. This qualification is ideal for learners who wish to progress to Level 3 study.

Progression: Equine Management Level 3, an apprenticeship or employment in the industry.

Study Full-time

EQUINE MANAGEMENT LEVEL 3

Where: Bicton College and Duchy College Stoke Climsland
Entry requirements: Five GCSEs at grade 4 or above including English, maths and science.

You will learn the practical stable management skills that will enable you to be a valuable employee in the future and have the opportunity to ride and lunge a range of horses to develop your skills. You will study a range of topics including nutrition, biology, health, behaviour and welfare of horses. There are riding and non-riding options available. We encourage you to take the BHS stages alongside your programme which look great on your CV and there's also the option to take a coaching module to support those who would like to be instructors themselves in the future.

Both Bicton College and Duchy College Stoke Climsland campuses are located in beautiful countryside and provide dedicated equestrian facilities, which include indoor and outdoor schools, horse walkers and working yards stabling a range of horses.

Progression: University study such as our FdSc Equitation, Training & Behaviour at our Duchy College Stoke Climsland campus. Or employment in the industry.

Apprenticeship

EQUINE GROOM APPRENTICESHIP LEVEL 2

Where: Bicton College and Duchy College Stoke Climsland
Entry requirements: Four GCSEs, including maths or English at grade 4, with the rest at grade 3 or above.

Apprenticeships allow you to work while gaining a nationally recognised qualification at the same time, so why not combine your love of horses with earning money? Over the course of 15-18 months, you will be working in paid employment within the equine industry and you will spend one day every two weeks during term time at college. You will study a wide range of subjects around the care of all different types of horses including safe working practices, yard and field routines and duties, horse anatomy, physiology and welfare, horse handling, care and appearance, saddlery and equipment, travelling horses, non-ridden exercise as well as core behaviours such as team work and communication.

There are specialised routes depending on your apprenticeship placement such as: riding, non-riding, racing, breeding or driving.

Both Bicton College and Duchy College Stoke Climsland campuses are located in beautiful countryside and provide dedicated equestrian facilities, which include indoor and outdoor schools and working yards. Here you will have the opportunity to practice your skills in preparation for the end point practical assessments.

Progression: Senior Equine Groom Apprenticeship Level 3 or employment in the industry.

Apprenticeship

SENIOR EQUINE GROOM APPRENTICESHIP LEVEL 3

Where: Bicton College and Duchy College Stoke Climsland
Entry requirements: Five GCSEs at grade 4 or above including English, maths and science.

This Level 3 apprenticeship will help you prepare for a more supervisory role, which could include planning horses' diet, nutrition and health plans. During the course you will learn how to promote and maintain the health and well-being of horses, prepare horses for work, maintain their health and well-being during transportation and consider health and safety.

Progression: University study such as our FdSc Equitation, Training and Behaviour at our Duchy College Stoke Climsland campus. Or employment in the industry.

I want to become more... INDEPENDENT, CONFIDENT AND RESILIENT

Within the supported learning team our vision is to support you to be INDEPENDENT, CONFIDENT AND RESILIENT so that you are well-prepared to engage with the wider community.

Independence
Pathway

Preparing for adulthood with a focus on independence; confidence; resilience; physical and sensory development, and skills to enhance quality of life.

INDEPENDENCE

Where: Camborne and St Austell

Entry Requirements: No formal qualifications are required for Foundation Level courses.

This course helps to develop your independence. This is achieved through knowledge and skills that will support your transition to adulthood, with a clear focus on developing your personal progress in this area. On this pathway you will work towards individual personal targets linked to different areas of independence, which may include: Learning to travel by bus or train; independent living at home, e.g. basic home cooking skills or keeping the home clean and tidy; independent living in the

community, which may include learning to go shopping or going to a restaurant; personal development, such as learning to keep safe and the importance of staying healthy. We will work with you, your parents and carers in designing your programme of study, setting your targets and assessing progress inside and outside of college.

Progression: Once you have completed this pathway you may wish to progress on to other pathways within Foundation Learning or the Vocational Academy, such as Skills or Works. If you leave college, you will leave with skills that will enable you to be more independent at home or in the community.

Skills Pathway

To explore destinations and work towards next steps. Further develop independence; behaviour and communication skills; English and maths. Includes tasters for a range of vocational areas if further education is your goal.

SKILLS ENTRY LEVEL

Where: Bicton College, Camborne, Duchy College Stoke Climsland and St Austell

Entry Requirements: Working at Entry Level 2 or above in English and maths.

On this course you will develop skills, knowledge and behaviours for successful learning. You will also gain an insight into different vocational options that will support successful career planning and progression to further study or work. The vocational options on offer are specific to the campus you choose to study at, and use specialists to deliver where required. Learners tell us that the opportunity to explore cross-college vocational pathways is an opportunity to understand what the higher-level course would be like. They also get to know the staff, gain skills and build confidence to apply for a higher-level course in their chosen subject area.

Progression: Once you have completed this pathway, you may wish to progress on to other pathways within Foundation Learning such as Vocational or Works. You may feel ready for a higher-level course.

BARBER

I want to be a... BARBER

You will learn in purpose-built salons, and will train in a dynamic and commercial environment. From creatively cutting hair using a combination of barbering techniques, designing and creating a range of facial hair shapes, providing shaving services, to advising and providing client consultation, you will be trained to industry standard.

Study Full-time

BARBERING DIPLOMA LEVEL 2

Where: Camborne and St Austell

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

You will be hands-on from the first week of this one-year course. Learning in purpose-built salons, you will be training in a dynamic and commercial environment. This qualification has been specifically designed to develop your practical skills in: cutting men's hair, the specialist work of cutting facial hair, how to provide effective shampooing and conditioning or styling services, and how to offer a good consultation service for clients.

As well as the practical knowledge that you will gain from working on the job, our team of industry-trained professionals will guide you through the theory offering their advice and demonstrating techniques.

On this course you will also have the opportunity to work on reception, enhancing your work-based skills in customer service, product promotion and retail sales.

Assessments are carried out during practical lessons along with some online testing.

Progression: Barbering Diploma Level 3, an apprenticeship or employment in the industry.

CAREERS IN THIS INDUSTRY: SALON MANAGER, SALON OWNER, MEN'S HAIRSTYLIST, CRUISE SHIP BARBER, COLOUR SPECIALIST.

Study Full-time

BARBERING DIPLOMA LEVEL 3

Where: Camborne and St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

If you are already qualified to a Level 2 standard and you are looking to upgrade your qualification, this one-year course will help you to progress in your career as a barber. Not only will you develop existing skills but you will also learn how to design and create a range of facial hair shapes and provide shaving services.

You will be expected to attend college for two or three days a week and will be required to work to high professional standards. You will train in one of our industry standard salons, work in a realistic environment and use the latest equipment, machinery and products within the industry. When you are confident enough and have practiced the techniques to a Level 3 standard, you will be able to provide services to paying customers.

Alongside the training, you will be required to complete work related experience within the industry to enrich your programme of study and gain employability skills. You are also required to complete coursework and research in your own time towards completion of this qualification.

Progression: Employment in the industry.

I want to be a... BEAUTY THERAPIST

You will study in our purpose-built salons and train in a commercial environment while learning beauty therapy techniques from industry professionals. Our experts will demonstrate everything that you need to know and you will then practice the skills that you have been shown on fellow students and eventually provide beauty therapy services to paying customers.

Study Full-time

BEAUTY THERAPY DIPLOMA LEVEL 2

Where: Camborne and St Austell

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

This one-year course is an ideal start if you are thinking about pursuing a career in the beauty therapy industry. You'll develop a foundation of beauty therapy skills in areas such as face and skin analysis, hair removal treatments, manicure, pedicure and make-up, light cured gel polish as well as the principles of practice for beauty therapists.

You will gain the basic knowledge and understanding of anatomy and physiology for beauty therapists. You will also have the opportunity to develop your work-based skills, working on the salon reception, promoting products and practicing retail services.

Regular tutorials and demonstrations from teaching staff will embed your knowledge, giving you the confidence to practice beauty therapy in paid employment.

Progression: Beauty Therapy Diploma Level 3.

CAREERS IN THIS INDUSTRY: BEAUTY THERAPIST IN A SPA, SALON OR HOTEL, NAIL TECHNICIAN, MAKE-UP ARTIST.

Study Full-time

BEAUTY THERAPY DIPLOMA LEVEL 3

Where: Camborne and St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

During this one-year course, you will learn various advanced techniques and skills which are used by beauty therapists. You will gain the confidence and understanding of these techniques so you are prepared for work.

Areas of study include: body massage, hot stones massage, facial electrotherapy, body electrotherapy, Indian head massage, electrolysis and microdermabrasion. In addition to all of the practical aspects of the course, you will learn salon practice, promotional activity, health and safety, and anatomy and physiology for beauty therapists.

Our tutors are industry professionals and they will demonstrate the practical techniques as well as best practice so that you can be sure that you are equipped with the skills and know-how to perform these services independently.

When you are confident enough and have practiced the techniques to a Level 3 standard, you will be able to provide beauty therapy services to paying customers.

Progression: A salon management qualification, or go straight into employment.

I want to be a... NAIL TECHNICIAN

If you are interested in a career as a nail technician, then our courses will equip you with the latest skills and know-how. You will receive training in manicure, pedicure, nail art, and artificial nail enhancements. With nail bars becoming commonplace on the high street, our courses will equip you with the essential skills to start employment in this fast growing industry.

Study Full-time

NAIL SERVICES DIPLOMA LEVEL 2

Where: Camborne and St Austell

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

You will be hands-on from the first week of this one-year course. Learning in our purpose-built nail bar, you will be training in a dynamic and professional commercial environment. On this course you will get to develop your work-based skills; recognising the importance of professional practice. You will learn how to: provide manicure and pedicure, carry out nail services, apply and maintain nail enhancements to create a natural finish, fulfil salon reception duties, develop and maintain effectiveness at work, promote additional services or products to customers, and ensure responsibility for actions to reduce risks to health and safety.

Our tutors are industry professionals and they will demonstrate the practical techniques as well as best practice so that you can be sure that you are equipped with the skills and know-how to perform these services independently.

Practical skills are developed on hand trainers - once a level of competence is reached clients are used for assessment. Theory is delivered alongside each unit and in-house exams are set, however emphasis is placed on practical learning. Students will be expected to wear uniform and present themselves in a professional manner as practical work will be assessed in the commercial salon.

Progression: Nail Services Diploma Level 3 or employment in the industry.

CAREERS IN THIS INDUSTRY: SELF-EMPLOYMENT IN A NAIL SALON, NAIL TECHNICIAN IN A SALON.

Study Full-time

NAIL SERVICES DIPLOMA LEVEL 3

Where: Camborne and St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

This is a highly creative one-year course, designed to develop your artistic flair. You will be training in a fully operational nail bar and retail environment, providing the very latest nail treatments to paying clients. During the course you will learn how to: monitor procedures to safely control work operations, enhance and maintain nails using UV gel, liquid powder and wraps, plan and create nail art designs, develop a range of creative nail images, plan and provide airbrush designs for nails, client care and communication in beauty-related industries.

The Level 3 progresses on from the natural nail enhancements of the Level 2 qualification. You will get to plan and create nail designs using liquid and powder, learn how to nail wrap and use UV gel to create gel nails.

Progression: Employment in the industry.

HORTICULTURE, FLORISTRY

&

ARBORICULTURE

Located in beautiful locations in Cornwall and Devon, our Bicton College and Duchy College Rosewarne campuses allow you to be surrounded by a wide range of plants, flowers and trees.

At Bicton College we offer tree surgery courses where you will have access to over 200 hectares of parkland and rolling countryside, together with a walled garden and specialist floristry workshops.

Our Duchy College Rosewarne campus houses a well-established working nursery which supplies garden centres across Cornwall as well as the Eden Project and the National Trust.

I want a career in... HORTICULTURE

Plants play an important role in all our lives by providing us with oxygen and food sources. This combined with the changing face of agriculture and food production within the UK and the current climate emergency, make this an incredibly exciting area of study. As a horticulturalist you will use your scientific knowledge of plants and soil to grow a wide variety of plants whilst also considering the impact on the environment.

Study Full-time

LAND-BASED STUDIES (COUNTRYSIDE CONSERVATION & HORTICULTURE) DIPLOMA LEVEL 1

Where: Bicton College and Duchy College Rosewarne
Entry Requirements: Two or more GCSEs at grade 2 or above, or successful completion of Entry Level qualification.

During the course you will study a range of modules including safe and effective working practices, preparation for work, plant and tree identification, estate skills, land-based machinery, tool use and care, wildlife and conservation, and health and safety. The course acts as an introduction to countryside management and horticulture for students who love the outdoor learning environment, who are practically orientated and don't mind working in all weathers.

Progression: Horticulture Certificate Level 2.

HORTICULTURE CERTIFICATE LEVEL 2

Where: Bicton College and Duchy College Rosewarne
Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

During this one-year programme you will be given an introduction to a wide range of topics including: plant and soil science, landscape surfaces, establishing and maintaining plants, plant propagation, plant names and plant selection.

Progression: Horticulture Diploma Level 3 or employment in the industry.

Study Full-time

HORTICULTURE DIPLOMA LEVEL 3

Where: Bicton College and Duchy College Rosewarne
Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

This one- or two-year qualification gives you the opportunity to study a range of specialist, technical and practical skills. The knowledge you learn will build upon the core skills of: safe working practices, equipment and machinery, plant identification, plant health, plant and soil science and maintenance of turf. You can then learn further specialist skills such as: garden design, business management, ponds/water features, alpine displays, tree and shrub maintenance, constructing landscape features such as steps, paths or walls, and horticultural crop production.

Progression: University study such as our FdSc Horticulture or BSc (Hons) Horticulture (Plant Science) at The Eden Project or employment in the horticulture industry.

Apprenticeship

HORTICULTURE & LANDSCAPE OPERATIVE APPRENTICESHIP LEVEL 2

Where: Bicton College and Duchy College Rosewarne
Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification. Plus an employer willing to take you on as an apprentice.

Horticulture and landscape operatives can be employed to work in public parks and gardens, green spaces and historic gardens, private gardens and estates or in production nurseries and retail outlets. This course is very much orientated towards providing you with the building blocks of plant-based practical skills and knowledge, giving you the perfect starting point to your career.

Progression: Horticulture & Landscape Supervisor Apprenticeship Level 3.

Apprenticeship

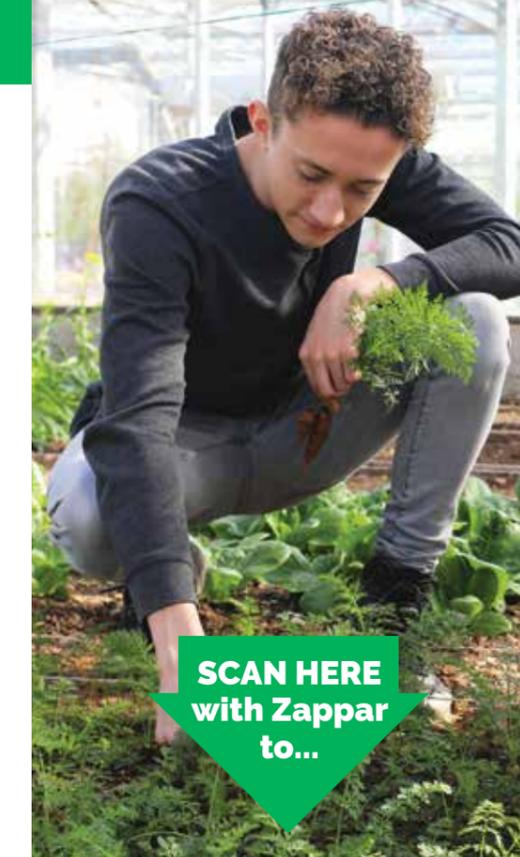

HORTICULTURE & LANDSCAPE SUPERVISOR APPRENTICESHIP LEVEL 3

Where: Bicton College and Duchy College Rosewarne
Entry Requirements: Four or more GCSEs at grade 4 or above including English and/or maths, or successful completion of a relevant Level 2 qualification. Plus an employer willing to take you on as an apprentice.

You will choose from a pathway of either horticulture, landscaping, production horticulture, or parks, gardens and green spaces. Working and learning in the horticulture and landscape industries is rewarding, offers a diverse range of employment opportunities and includes a range of skills that are transferable into other industries following further studies. This course is very much orientated towards providing you with the knowledge and skills required in supervising a team within the workplace, giving you the essential next step in your career.

Progression: University study such as our FdSc Horticulture or BSc (Hons) Horticulture (Plant Science) at The Eden Project or employment in the horticulture industry.

CAREERS IN THIS INDUSTRY: PRODUCTION MANAGER, LANDSCAPE SITE MANAGER, GARDENER, LANDSCAPER.

I want a career in... **FLORISTRY**

If you like to interact with others, be creative and are keen to develop practical, technical floristry skills, then our Level 2 and Level 3 courses are ideal for you. They will provide you with all the skills required to become employed in the industry or to start your own business.

Study Full-time

FLORISTRY TECHNICAL CERTIFICATE LEVEL 2

Where: Bicton College and Duchy College Rosewarne
Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

Throughout this one-year course you will learn about different flowers and plants and how to look after them. You will also learn that there is more to floristry than flowers and that for florists to be successful, they need to understand their tools, environment and the finishing touches that make a difference. With this, you will develop an understanding of design principles and the skills needed to apply these to the design and creation of floristry products. You will gain an understanding of how the floristry business operates and develop skills needed to interact with customers and identify their needs.

Progression: Floristry Advanced Technical Diploma Level 3.

Study Full-time

FLORISTRY ADVANCED TECHNICAL DIPLOMA LEVEL 3

Where: Bicton College and Duchy College Rosewarne
Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

You will study a range of topics that will provide you with the necessary skills and knowledge to progress into employment in the floristry industry. You will study creative floral design methods and techniques, botany, and business skills. You will also cover in detail how to produce a range of designs, including tied designs, wired designs, glued designs and designs in different mediums. You will study how to produce floral designs for different events, such as weddings and funerals. You will also learn about current and future design development and innovation in floristry.

Progression: Directly into employment or self-employment in the industry, or further study.

CAREERS IN THIS INDUSTRY: JUNIOR FLORIST, FLORIST, FLORIST MANAGER, SENIOR FLORIST.

I want a career in... **ARBORICULTURE**

If you want an adventurous and physically demanding career working outdoors, solving problems and perhaps climbing trees or working with chainsaws, then a career in forestry and arboriculture is perfect for you. The arboriculture industry manages trees for their benefits and values in diverse urban and rural locations, from city parks and urban woodlands, to country estates and private gardens.

Study Full-time

LAND-BASED STUDIES (COUNTRYSIDE CONSERVATION & HORTICULTURE) DIPLOMA LEVEL 1

Where: Bicton College
Entry Requirements: Two or more GCSEs at grade 2 or above, or successful completion of Entry Level qualification.

During this introductory course you will study a range of modules including safe and effective working practices, preparation for work, plant and tree identification, estate skills, land-based machinery, tool use and care, wildlife and conservation and health and safety.

Progression: Forestry & Arboriculture Technical Certificate Level 2.

FORESTRY & ARBORICULTURE DIPLOMA LEVEL 2

Where: Bicton College
Entry Requirements: Three or more GCSEs at grade 3 or above, or a merit from a relevant Level 1 qualification.

This one-year course will give you an understanding of plant and soil science, the ability to work safely with chainsaws and other arboricultural tools, the ability to identify different tree species and some knowledge of how to manage them. In short, you will have the necessary skills to begin a career in forestry or arboriculture.

Progression: Forestry & Arboriculture Advanced Technical Certificate Level 3 or employment in the industry.

CAREERS IN THIS INDUSTRY: ARBORICULTURAL OFFICER, FORESTRY WORKER, FOREST OFFICER, RANGER, FOREST MANAGER.

Study Full-time

FORESTRY & ARBORICULTURE DIPLOMA LEVEL 3

Where: Bicton College
Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or a merit from a relevant Level 2 qualification.

You will study tree biology and the relationship they have with the environment, pests and diseases. You will learn how trees contribute to the environment, how tree professionals make decisions about the selection of trees, the use of chainsaws, felling trees and climbing safely.

Progression: Employment in the industry, or university study.

Apprenticeship

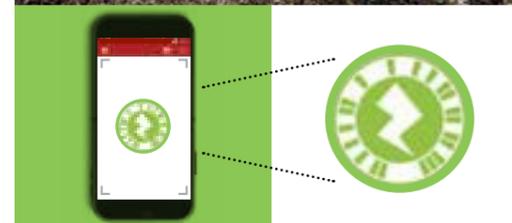

ARBORIST APPRENTICESHIP STANDARD (TREE SURGERY) LEVEL 2

Where: Bicton College
Entry Requirements: Three or more GCSEs at grade 4 or above, including English and maths, or successful completion of a relevant Level 1 qualification. Plus an employer willing to take you on as an apprentice.

While learning the practical side of arboriculture with your employer, you will also attend college and study in our arboretum with veteran and specimen trees, machinery workshops and over 200 acres of extensive parklands. You will also achieve up to nine industry tickets ready for your future career.

Progression: Higher apprenticeship or employment in the industry.

I want a career in... HOSPITALITY

If you want to work in a fast-paced, action-packed and creative industry then look no further than a career in hospitality. The opportunities for career progression in this industry are some of the best and can include working in a range of establishments, for example bars, restaurants, cafés, conference centres, banqueting venues, hotels or contract caterers.

Study Full-time

HOSPITALITY SERVICES DIPLOMA LEVEL 2

Where: Camborne and St Austell

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

This course is designed for learners who wish to pursue a career in the hospitality sector, for example in hotels, restaurants, holiday parks, catering firms, pubs and bars. During this one-year course you will learn a range of topics including receiving, greeting and booking in customers, providing housekeeping services, food and drink preparation and service.

Progression: Hospitality & Supervision Diploma Level 3.

HOSPITALITY SUPERVISION & LEADERSHIP DIPLOMA LEVEL 3

Where: Camborne and St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

This one-year course is ideal if you would like to work in a supervisory or leadership role within the hospitality sector. This course will prepare you for employment and will help you to progress into roles including supervisor, front of house manager, duty manager, or regional manager for a restaurant chain.

Progression: University study or employment in the industry.

CAREERS IN THIS INDUSTRY: WAITER, SOMMELIER, BARTENDER, MIXOLOGIST.

Apprenticeship

HOSPITALITY TEAM MEMBER APPRENTICESHIP LEVEL 2

Where: St Austell

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification. Plus an employer willing to take you on as an apprentice.

This apprenticeship will give you an initial introduction to the hospitality industry, and you will then progress through the core hospitality modules relating to customer, business, people and team leading. You must also choose an additional specialism from the following: food and beverage service, alcoholic beverage service, barista, and food production. The most important part of the role is developing fantastic hospitality skills and knowledge such as recognising customer needs, knowing how to match them to the products and services of the business and working as part of a team to ensure that every customer, whether they are eating in a restaurant, drinking cocktails in a bar, ordering room service in a hotel or attending a business conference, feels welcomed and looked after.

Progression: Hospitality Supervision & Leadership Diploma Level 3 or employment in the industry.

MARINE ENGINEERING, BOATBUILDING & RENEWABLE ENERGY

A career in the marine industry can open up endless opportunities. Just like our students, you can build an incredible career working on superyachts, in various dockyards, or serving in the merchant navy across the world.

Our specialist marine engineering workshop includes inboard and outboard engines, hydraulic systems, thrusters, and generators from leading marine brands, giving you access to the latest equipment.

Falmouth Marine School has been delivering training to the boatbuilding, ship repair and the shipbuilding industry in Falmouth since 1920, and is renowned world-wide for its training and education in this sector. We have run full-time boatbuilding courses since the early 1970s and have dedicated wood and composite workshops in the heart of this extensive maritime industrial area.

With the marine industries rapid growth into renewable energy, we are developing courses up to degree level, relevant to this exciting and challenging new sector.

I want to be a... BOATBUILDER

If you would like a future in the thriving marine sector, and you love working with your hands to create something spectacular, then boatbuilding is the career for you. Each of our courses feature large practical elements and you will spend a great deal of time in our dedicated boatbuilding workshops, in the heart of Cornwall's marine industry.

Study Full-time

BOATBUILDING DIPLOMA LEVEL 2

Where: Falmouth Marine School

Entry Requirements: Two or more GCSEs at grade 4 or above, including English and/or maths.

This one-year foundation course will give you a great start towards a career as a boatbuilder; you will learn about the working environment, the different shapes and designs of boats, the various materials used in boat construction, the numerous components, fittings and systems that go into traditional and modern constructed vessels and the specific terminology used in the marine industry.

By gaining an introduction into the many elements that make up both wooden and composite boats, you will be prepared for the more advanced and specialist skills that are taught in further boatbuilding qualifications.

Our workshop features industry-standard equipment, exactly like a working boatyard. We have strong connections with local boatbuilding companies, and those employers know a boatbuilding qualification from Falmouth Marine School, and The Cornwall College Group means you have the very best skills of a crafts person. So, if you dream of creating exotic boats with beautiful flowing curves, then this is the best place to start.

Progression: Boatbuilding Diploma Level 3.

Study Full-time

PERFORMING ENGINEERING OPERATIONS LEVEL 2

Where: Falmouth Marine School

Entry Requirements: Two or more GCSEs at grade 3 or above.

This one-year assessment based course covers the fundamental skills and knowledge common to all engineering and manufacturing practices within the marine industry. Learners will work with different materials and gain an insight into the worlds of boatbuilding, marine engineering and renewable energy in order to realise their potential and to make an informed decision about their further education and career pathway.

Progression: Level 2 or 3 in Boatbuilding, Marine Engineering or Wind Turbine Technician.

Study Full-time

BOATBUILDING DIPLOMA LEVEL 3

Where: Falmouth Marine School

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

This one-year advanced course will give you the knowledge and skills required to move directly into the industry as a boatbuilder. You will learn about the working environment, the shape and designs of boats, the materials used in boat construction, the numerous components and systems that go into traditional and modern constructed vessels and the specific terminology used in the marine industry.

By learning in detail the many elements that make up both wooden and composite boats, you will be prepared for this challenging and highly skilled role.

You'll be learning from experienced professionals, who are there to give you the very best start to your career. Our workshop features industry-standard equipment, exactly like a working boatyard.

We have strong connections with local boatbuilding companies, and those employers know our boatbuilding qualification means you have the essential skills needed to enter the industry.

Progression: Employment in the industry, or university study.

MARINE ENGINEER

As a marine engineer you will enjoy a career that is filled with exciting challenges, job satisfaction and the opportunity to travel. Our courses will give you the in-depth knowledge you need to service and maintain a wide variety of marine inboard and outboard engines and you will learn in our dedicated workshop, which is one of the largest marine specific training areas in the UK.

Study Full-time

MARINE ENGINEERING DIPLOMA LEVEL 2

Where: Falmouth Marine School

Entry Requirements: Two or more GCSEs at grade 4 or above, including English and/or maths.

This one-year programme will give you an excellent insight into the inner working of marine engines and propulsion systems. You will also learn basic marine electrics, hydraulics and gain knowledge of construction principles and engineering processes related to the marine industry.

Progression: Marine Engineering Diploma Level 3.

MARINE ENGINEERING DIPLOMA LEVEL 3

Where: Falmouth Marine School

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

This one-year programme focuses on giving you the ability to diagnose, analyse and calibrate marine mechanical systems and components found on inboard and outboard engines, alongside the propulsion systems commonly found in most marine vessels.

Progression: Employment in the industry, or continue your studies to progress to the navy, merchant navy or super yacht cadetship.

Study Full-time

PERFORMING ENGINEERING OPERATIONS LEVEL 2

Where: Falmouth Marine School

Entry Requirements: Two or more GCSEs at grade 3 or above.

This one-year assessment based course covers the fundamental skills and knowledge common to all engineering and manufacturing practices within the marine industry. Learners will work with different materials and gain an insight into the worlds of boatbuilding, marine engineering and renewable energy in order to realise their potential and to make an informed decision about their further education and career pathway.

Progression: Level 2 or 3 in Boatbuilding, Marine Engineering or Wind Turbine Technician.

Study Full-time

ENGINEERING TECHNOLOGIES DIPLOMA LEVEL 3

Where: Falmouth Marine School

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

In your first year you will study a range of academic units from ship construction and system maintenance through to computer aided drawing and engineering science. In the second year you will learn complex technical skills relating to hydraulic systems, electrical panels and engineering design.

Progression: Employment in the industry or university study.

Apprenticeship

MARINE ENGINEER APPRENTICESHIP LEVEL 3

Where: Falmouth Marine School

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification. Plus an employer willing to take you on as an apprentice.

You'll develop the knowledge needed to assemble, strip, repair and rebuild components, including how to use hand tools to cut, drill, shape and finish components, alongside how to move components using the appropriate safe methods and equipment.

Progression: A higher level apprenticeship in this sector, university study such as our FdSc Engineering or employment in the industry.

MARINE & NATURAL ENVIRONMENT

Cornwall has the longest coastline of any English county along with countless Areas of Outstanding Natural Beauty and marine conservation zones.

As well as being passionate advocates of sustainability, The Cornwall College Group is rapidly positioning itself at the forefront of education and training in wildlife and conservation. Whether you are looking to train as a marine scientist or zoologist you will learn from lecturers who are experts in this field as well as benefiting from the insights of industry professionals.

We have established powerful links to key organisations in this growing and important sector, with colleagues working with the likes of Newquay Zoo, Blue Reef Aquarium, Cornwall Wildlife Trust, independent consultants and more.

Because of the wide reaching courses we offer across our campuses, you can begin your #GenerationRestoration journey at Falmouth Marine School before having the chance to progress onto our unique degree courses at Cornwall College Newquay or a range of other universities.

I want to be a... MARINE BIOLOGIST

Located in the heart of one of the most biologically diverse regions in the world, with rocky shores, mudflats, maerl and seagrass beds, and a coastline that supports internationally important marine wildlife, there really is no better place to turn your passion for the ocean into a full-time career.

Study Full-time

MARINE CONSERVATION DIPLOMA LEVEL 2

Where: Falmouth Marine School

Entry requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

This one-year foundation course gives you an introduction to marine biology, conservation and marine environmental science. You will develop a multitude of practical skills for working in the marine science and fisheries sector, as well as building on your understanding of marine systems and biology. This will include working with aquaria, surveying, practical conservation activities, marine animal identification and species biology.

Progression: Progression to Level 3 courses, including marine biology and marine conservation at Falmouth, or employment in industry such as fish farming or estate and countryside management.

Study Full-time

MARINE CONSERVATION DIPLOMA LEVEL 3

Where: Falmouth Marine School

Entry requirements: Four or more GCSEs at grade 4 or above, including English and/or maths.

This two-year Level 3 course is a zoology focused conservation course, incorporating learning about the management and biology of marine species, alongside some practical skills in conservation and animal science. No prior knowledge is required, but you will develop your knowledge of the industry, your ability to work in the sector, and gain skills in maintaining and caring for wild marine populations as well as public aquaria.

Progression: Progression to some universities for undergraduate and foundation degrees such as within Cornwall College, or employment in industry such as aquarium or zoos alongside conservation charities and groups.

Study Full-time

MARINE BIOLOGY & ECOLOGY DIPLOMA LEVEL 3

Where: Falmouth Marine School

Entry requirements: Four or more GCSEs at grade 4 or above, including English and maths.

This is an A-Level equivalent course, with a focus on marine biology, ecology, and environmental science. You will gain practical skills in marine surveying, wildlife management, as well as species identification skills gained along the local marine environment and coastline. You will also cover elements of evolutionary biology and behaviour, fisheries management and enhancement, ecological theory, and oceanography.

Progression: Progression to degrees covering marine biology/marine sciences, as well as industry roles covering these.

MARINE ENVIRONMENTAL SUSTAINABILITY DIPLOMA LEVEL 3

Where: Falmouth Marine School

Entry requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

This two-year programme, split into two one-year qualifications, teaches students interested in the changes happening in sustainability from an environmental management view. Blending together technology and natural science, you can expect to learn about the marine environment and techniques for environmental monitoring, alongside natural resources management and the tools for environmental sustainability science.

Progression: Degrees in marine resource management, geo-environmental science, sustainability sciences, and marine wildlife management, including marine biology and ecology BSc routes.

CAREERS IN THIS INDUSTRY: MARINE BIOLOGIST, CONSERVATIONIST, AQUACULTURE PROFESSIONAL, ENVIRONMENTALIST.

Study Full-time

UNIFORMED SERVICES DIPLOMA LEVEL 1

Where: Duchy College Stoke Climsland
Entry Requirements: Entry level 3 or better in English and maths.

This course is a fantastic opportunity for learners who are interested in progressing on to a Level 2 course in sport, outdoors or military and protective services. There is a very large practical element to the course including elements of fitness and team sports. For learners wanting to apply for one of the forces; it will enable learners to prepare to make a recruitment application or provide a basis for further study and progression towards the entry qualification of a specific service.

Progression: Level 2 Sport; Level 2 Outdoor Adventure or Level 2 Military and Protective Services.

Study Full-time

MILITARY & PROTECTIVE SERVICES DIPLOMA LEVEL 2

Where: Bicton College, Camborne and Duchy College Stoke Climsland
Entry Requirements: Two GCSEs at grade 3 in English and maths, or successful completion of a relevant Level 1 qualification.

This one-year introductory course will explain the numerous uniformed service career options and entry requirements, as well as provide hands-on experience with service kit and equipment, physical training preparation and terminology used in the uniformed services industry. You will learn from highly experienced armed services and emergency services professionals, who are there to give you the very best start to your career. By gaining an introduction to service careers, developing your teamwork and physical fitness and your self-confidence, you will be prepared for the more specialised command and control, leadership and physical and mental resilience elements of further qualifications. We also offer optional trips and excursions to military sites.

Progression: Military and Protective Services Diploma Level 3, or join the Armed Forces or uniformed services. If you would like to join the Army Foundation College at Harrogate in March, this course could form part of your preparation.

Study Full-time

MILITARY & PROTECTIVE SERVICES DIPLOMA LEVEL 3

Where: Bicton College, Camborne and Duchy College Stoke Climsland
Entry Requirements: Two GCSEs at grade 4 or above in English and maths, or successful completion of a relevant Level 2 qualification (preferably at merit grade).

This one-year course focuses on developing your understanding of the uniformed services industry and developing both essential and advanced skills with the option to continue on to a second year, including more specialist units that include personal protection, crime scene investigation and emergency planning. You will gain a strong understanding of service life and learn how to remain calm and in control during emergency incidents. You will also become a confident communicator and have a strong understanding of service collaboration and national/international current affairs. We offer optional trips including a three-day London trip and excursions to military sites. By the end of the course you will have developed strong teamwork and leadership skills and will also be physically and mentally resilient. You will also be mentored through your chosen services application process and be ready to enter employment. We pride ourselves on our success rates with 80% of students who pass going straight into the military or protective services and the remaining 20% continuing their studies.

Progression: Direct entry into employment with a uniformed service or progression onto the Level 3 Extended Diploma. On completion of the extended diploma you can progress to FdSc Rescue and Emergency Management at our Bicton College campus, which will prepare you for officer entry as well as emergency planning and management.

Study Full-time

DIPLOMA IN POLICING LEVEL 3

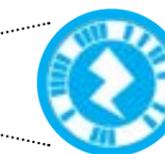

Where: Bicton College
Entry Requirements: Three or more GCSEs at grade 4 or above including English and maths.

This new pathway offers learners the opportunity to focus their studies on a career in the Police. You will receive a career focused study programme that prepares you to entry into Policing as well as the National Crime Agency, prison service and security industry. Modules are focused on areas such as The UK Police service, UK legal systems, crime scene investigation and forensics, safeguarding and prevent duty, emergency incidents, interoperability and JESIP, command and control, equality and diversity, physical fitness and conflict management.

Progression: Extended Diploma in Policing and our FdSc Emergency Management and BSc (Hons). It is also possible to progress onto the NEW Police Apprenticeship degree.

MOTOR VEHICLE

Step into the motor vehicle sector with the latest training and state-of-the-art facilities. Our students across Cornwall College Camborne and Cornwall College St Austell have access to high-tech garages and workshops, testing bays, full-body works, spray booths, and an HGV workshop; all whilst having the opportunity to train further and gain Electric/Hybrid Vehicle training.

Mentored by a team of motor vehicle experts and enthusiasts, you'll be guided to master your craft and venture into this changing sector, gaining up-to-date knowledge and skills that prepare you for current and future industry developments.

Our students have gone on to have exciting and successful careers, working for Bentley Motors and as part of Formula One engineering teams. Just like them, you can become a champion in new motor solutions, shaping and being part of the new generation of auto technicians.

I want to be a... MOTOR VEHICLE TECHNICIAN

A motor vehicle technician services and repairs light vehicles, working in either a dealership that focuses on a particular manufacturer, or for an independent garage. Working on all systems found within the vehicle, the nature of the work ranges from replacing simple parts, right through to diagnosing and rectifying complex faults with the use of diagnostic methods and equipment.

Study Full-time

INTRODUCTION TO VEHICLE TECHNOLOGY ENTRY LEVEL 3

Where: Camborne and St Austell

Entry Requirements: GCSEs in English and maths at grade 3 or above.

During this one-year introductory course you will identify the systems, components and terminology used in the automotive industry, you will also be introduced to how the systems work and how they interact with one another. You will then be prepared for the more specialised practical repair, installation and diagnostic elements of further qualifications.

Progression: Light Vehicle Maintenance & Repair Diploma Level 1.

LIGHT VEHICLE MAINTENANCE & REPAIR DIPLOMA LEVEL 1

Where: Camborne and St Austell

Entry Requirements: GCSEs in English and maths at grade 4 or above, or successful completion of our Introduction to Vehicle Technology Entry Level 3 qualification with progression shown in maths and English.

During this one-year course you will study the following: engines, tyres, brakes, steering, suspension, transmission, and electronics. If you can find it in a car, you will be studying it and developing the essential skills you need as a mechanic, carrying out maintenance and repair activities during the course.

Progression: Light Vehicle Maintenance & Repair Diploma Level 2.

CAREERS IN THIS INDUSTRY: DIAGNOSTIC TECHNICIAN, WORKSHOP CONTROLLER, MOT VEHICLE EXAMINER, SMART REPAIRER.

Study Full-time

LIGHT VEHICLE MAINTENANCE & REPAIR DIPLOMA LEVEL 2

Where: Camborne and St Austell

Entry Requirements: GCSEs in English and maths at grade 4 or above, and successful completion of a relevant Level 1 qualification or equivalent experience.

This qualification is recognised by industry in many countries around the world. By gaining an ability to diagnose and repair all the major systems of a vehicle, you will be prepared for the more technical and specialised repair, installation and diagnostic elements of further qualifications.

Progression: Light Vehicle Maintenance & Repair Diploma Level 3 or apprenticeship.

VEHICLE SERVICE TECHNICIAN DIPLOMA LEVEL 2

Where: Camborne and St Austell

Entry Requirements: GCSEs in English and maths at grade 4 or above, and successful completion of a relevant Level 1 qualification or equivalent experience.

This one-year course includes practical workshop activity and theory sessions, making it the perfect course if you enjoy hands-on work and getting stuck in. You will study health and safety, tools and materials, automotive job roles, batteries, wheels, tyres, brakes, exhaust systems and associated systems. Develop soft skills, such as communication and employer expectations, to prepare you for the industry.

Progression: Vehicle Maintenance & Repair Diploma Level 2 or apprenticeship.

Study Full-time

LIGHT VEHICLE MAINTENANCE & REPAIR DIPLOMA LEVEL 3

Where: Camborne and St Austell

Entry Requirements: GCSEs in English and maths at grade 4 or above, and successful completion of a relevant Level 2 qualification.

Modern technology means you won't just be working with sockets, wrenches and pliers to repair engines, with modern cars now requiring computer diagnostics for fault finding and repairs you will become familiar with the latest technology, repair techniques and testing.

Progression: In the workplace or your own business. Or further specialist training in inspection testing, electric/fuel cell technology, MOT testing, ADAS systems and air conditioning to broaden your expertise and develop your career.

CAREERS IN THIS INDUSTRY: SERVICE CENTRE MANAGER, TECHNICIAN OR SUPERVISOR, TYRE TECHNICIAN.

Apprenticeship

MOTOR VEHICLE SERVICE & MAINTENANCE TECHNICIAN APPRENTICESHIP (LIGHT VEHICLE) LEVEL 3

Where: Camborne

Entry Requirements: Four or more GCSEs at grade 4 or above including English and maths. Plus an employer willing to take you on as an apprentice.

Designed in phases you will learn: foundation skills assisting with the productivity of others, routine service and inspection procedures, simple diagnosis and repair procedures, intermediate diagnosis and repair procedures, complex diagnosis and repair procedures and complete systems understanding and repair of major components. Typically it is expected that it will take three years for you to attain the required level of competence in the workplace.

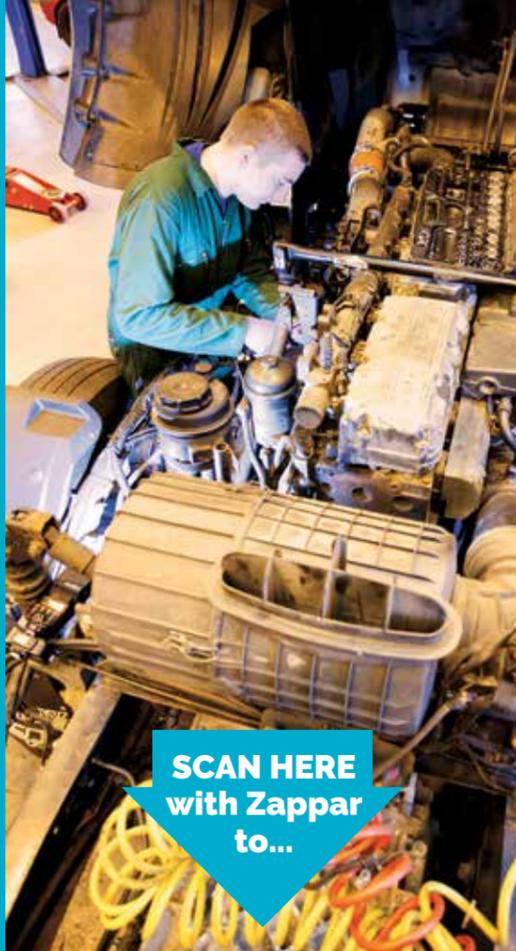

Progression: Employment in the industry and further training in electric/fuel cell technology, MOT testing, ADAS systems and air conditioning.

I want to be an... HGV MECHANIC

If you have an interest in heavy vehicles like HGVs, cranes or other large vehicles you see on the road and have your sights set on becoming a mechanic, then this is the course for you and will be your first step in a career in automotive engineering.

Study Full-time

HEAVY VEHICLE MAINTENANCE & REPAIR DIPLOMA LEVEL 1

Where: Camborne
Entry Requirements: GCSEs in English and maths at grade 4 or above, or successful completion of our Introduction to Vehicle Technology Entry Level 3 qualification with progression shown in maths and English.

This course introduces you to the automotive industry and develops your essential skills. You'll learn from experienced automotive professionals and mechanics. You'll spend a lot of time in our workshop, learning by doing as you work on a range of vehicles.

Progression: Heavy Vehicle Maintenance & Repair Diploma Level 2, HGV apprenticeship.

HEAVY VEHICLE MAINTENANCE & REPAIR DIPLOMA LEVEL 2

Where: Camborne
Entry Requirements: GCSEs in English and maths at grade 4 or above, and successful completion of a relevant Level 1 qualification; or equivalent experience.

During this one-year course you will learn how the systems work and operate using components and terminology used in the heavy vehicle industry. By gaining the skills to remove and re-fit all the specific systems of heavy vehicle maintenance and repair, you'll be prepared for the more specialised practical repair, installation and diagnostic elements of further qualifications.

Progression: Heavy Vehicle Maintenance & Repair Diploma Level 3 or apprentice use.

CAREERS IN THIS INDUSTRY: HGV MECHANIC, SELF-EMPLOYED IN THE INDUSTRY.

Apprenticeship

HEAVY VEHICLE SERVICE & MAINTENANCE TECHNICIAN APPRENTICESHIP LEVEL 3

Where: Camborne
Entry Requirements: Four or more GCSEs at grade 4 or above including English and maths. Plus an employer.

You will study engine faults, transmission issues, steering and suspension, chassis rectification, electronic diagnostic testing and work towards developing your skills in removing and fitting heavy vehicle components.

Progression: Employment or self-employment in the industry.

I want to work in... VEHICLE RESTORATION

Vehicle restoration is a very specialist area, where demand for skilled technicians is high and salaries can be very rewarding. The skills are transferable to other sectors, so you could take your qualification and move into the boat painting industry, where you could work around the world.

Study Full-time

VEHICLE ACCIDENT REPAIR DIPLOMA LEVEL 1

Where: Camborne
Entry Requirements: GCSEs in English and maths at grade 4 or above.

This one-year introductory course to general accident repair will give you an insight into the various career pathways available. You will learn essential practical skills that cover basic panel beating and vehicle body repair. You will also start to understand basic paint methods and spraying applications. Supporting this you will also have the chance to build core knowledge of vehicle construction, materials and methods as well as usual workshop health and safety best practice.

70% of your time will be spent in the workshop carrying out practical work, which could be welding repairs, panel repairs or respraying vehicles. You will also learn how to take panels off and refit them, how to carry out panel beating and filler repairs. We also have a spray booth where you will learn how to spray primers, etch primers and high build primers. Our spray booth is designed for water-based paints using industry standard technology.

Many of our former students are working in industry in Cornwall, the UK or abroad, with some running their own body shops.

Progression: Vehicle Paint Principles Diploma Level 2.

CAREERS IN THIS INDUSTRY: MET TECHNICIAN, PAINT SPRAYER, BODY SHOP TECHNICIAN, PANEL BEATER.

Study Full-time

VEHICLE PAINT PRINCIPLES DIPLOMA LEVEL 2

Where: Camborne
Entry Requirements: GCSEs in English and maths at grade 4 or above, and successful completion of a relevant Level 1 qualification.

Vehicle restoration is a very specialist area, where demand for skilled technicians is high and salaries can be very rewarding. The skills are transferable to other sectors, so you could take your qualification and move into the boat painting industry, where you could work around the world.

To become a qualified technician you must complete the Level 1 and 2 qualifications. At Level 2 specialise in body, paint and accident repair. We offer full Mechanical, Electrical and Trim (MET) training to provide you with the best start in the workplace.

Progression: Employment in the industry.

Study Full-time

MUSIC PERFORMANCE DIPLOMA LEVEL 2 & LEVEL 3

Where: St Austell

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

During this two-year course you will study the following areas:

Original song writing, composing and arranging

We'll support you in developing your key instrument/s and explore more varied instruments with you. You'll learn to play well known songs from a wide range of different genres and then explore how to write and perform your own music. The ability to write and perform original material is fundamental to the course. Becoming a unique and creative artist will help with employability in this competitive landscape but also develop your creativity.

Writing for film/games and moving image

The ability to use sequencing to write and compose original music for games and film is an exciting part of the course. This is a growing sector of the music industry and will give you the opportunity to discover more about this incredibly rich and creative area. Students will also have the opportunity to collaborate with other creative subjects such as fine art and media.

Recording using analogue and digital equipment

You'll develop digital sequencing skills as well as recording and production techniques. You'll work with professional musicians, in-house and visiting, who will enable you to grow by delivering insightful and challenging feedback.

Performance

The course will focus on live performance and you'll get the opportunity to perform at a wide variety of venues including The Royal Cornwall Show, pubs, clubs and our very own Keay Theatre.

Collaboration

Students will also have the opportunity to collaborate with other creative subjects such as Dance, Acting, Fine Art, Photography and Media. The Creative and Digital Academy is home to a vibrant portfolio of subjects who all work together to support each other's growth.

Progression: University study or employment in the industry.

I want a career in... PERFORMING ARTS & MUSICAL THEATRE

Do you long to act, dance, sing or perform to live audiences or on TV? Our St Austell campus has a renowned reputation for its performing arts courses which enable students to progress to some of the most prestigious performing arts schools and conservatoires in the country. Our facilities are amazing and include The Keay Theatre, professional dance studios, and rehearsal and performance spaces.

Study Full-time

PERFORMING ARTS DIPLOMA LEVEL 2

Where: St Austell

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

During this one-year course you will explore what is required to succeed in this creative industry. You will have the opportunity to take part in both on-campus and off-campus projects, including performing in our own Keay Theatre. This is the perfect course for an all-round experience, before you specialise in your chosen field of acting, dance or musical theatre.

Progression: Acting Diploma Level 3 or Altitude Dance Diploma Level 3.

ACTING DIPLOMA LEVEL 3

Where: St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

You will take part in daily technique classes in voice, improvisation and physical theatre and develop further fundamental skills through project work such as: devising, characterisation, line learning, script work, fitness, rehearsal processes and etiquette, production scheduling, stage craft, responding to direction, giving and receiving feedback.

Progression: Continue to higher education study at university or conservatoire training.

CAREERS IN THIS INDUSTRY: DANCER, SINGER OR ACTOR.

Study Full-time

ALTITUDE DANCE DIPLOMA LEVEL 3

Where: St Austell

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

You will learn through a range of exhilarating units covering subjects such as ballet, jazz, contemporary, commercial and body conditioning. You will also have the opportunity to participate in acting, music and stage craft lessons. As well as this you will take part in project work that will encourage you to become an intelligent and reflective dance artist and enable you to develop fundamental skills to support you moving within your career.

Our Altitude Dance programme has a renowned reputation, which has enabled students to progress to some of the most prestigious dance schools and conservatoires in the country and direct in to the industry. Our outstanding facilities include The Keay Theatre, professional, heated and sprung dance studios, as well as other rehearsal and performance spaces.

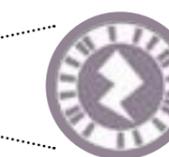

Progression: Continue to university study or conservatoire training. Successful completion of Altitude Dance will give you a guaranteed place on the BA (Hons) Dance at Falmouth University. Learners have gone on to study at Trinity Laban, NSCD, Performers College, Bodywork, London Studio Centre, Shockout Arts, Urdang, Middlesex University, Laine Theatre Arts, The Royal Central School of Speech and Drama and more.

HEALTH & SOCIAL CARE DIPLOMA LEVEL 2

Where Camborne and St Austell

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification. DBS evidence in place prior to enrolment and a work placement secured within six weeks of enrolment

This one-year course will explain the role of the health and social care practitioner when working with members of the community. Through hands-on learning you will learn about a number of interesting areas including growth and development, nutrition, communication and equality and diversity. You will also develop your practical skills through a placement in a health and social care setting. We have a range of expert health and social care staff, including registered nurses.

Progression: Health & Social Care Diploma Level 3.

Study Full-time

HEALTH & SOCIAL CARE PRACTICE DIPLOMA LEVEL 3

Where: Camborne and St Austell

Entry Requirements: Five GCSEs at grade 4 or above including maths and English, DBS evidence in place prior to enrolment, and a work placement secured within six weeks of enrolment

This two-year course is an exciting new way to develop the skills and competencies needed for a career in the health and social care field. The course provides in-depth study and training for anyone interested in a career in the health services or social care field. It also provides the theory and experience, which will be invaluable for progression to university study, such as a nursing degree or into employment in the health sector as a practitioner in a variety of settings. We have a range of expert health and social care staff, including registered nurses.

You will also have opportunities to develop effective communication techniques as well as a range of practical skills, which are vital to work and progress in this field. There are specialist units that enhance the generic health and social care core subjects, such as mental health issues, psychology and health promotion.

Progression: You will gain UCAS tariff points that will allow you to progress to university to study degrees such as midwifery, social work, teaching, care management, nursing or other care related subjects.

Apprenticeship

ADULT CARE WORKER LEVEL 2

Where: St Austell

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification. DBS evidence in place prior to enrolment and a work placement secured within six weeks of enrolment

Adult care workers are the frontline staff who help adults with care and support needs to achieve their personal goals and live as independently and safely as possible. Enabling them to have control and choice in their lives is at the heart of person centred care. Job roles are varied and relevant to the type of service being provided and the person supported. Adult care workers may work in residential or nursing homes, domiciliary care, day centres, a person's own home or some clinical healthcare settings.

Progression: Lead Adult Care Worker Level 3.

Apprenticeship

LEAD ADULT CARE WORKER LEVEL 3

Where: St Austell

Entry Requirements: Five GCSEs at grade 4 or above including maths and English, or successful completion of a relevant Level 2 qualification. Plus, DBS evidence in place prior to enrolment, and an employer willing to take you on as an apprentice.

Lead adult care workers are frontline staff who help adults with care and support needs to achieve their personal goals and live as independently and safely as possible, enabling them to have control and choice in their lives. In addition, they have responsibility for providing supervision, frontline leadership, guidance and direction for others, or working autonomously, exercising judgement and accountability.

Progression: Leader Adult Care Worker Level 5.

CAREERS IN THIS INDUSTRY: HEALTHCARE ASSISTANT, NURSING ASSOCIATE, REGISTERED NURSE.

I want a career in... DENTAL NURSING

Embarking on a career in Dental Nursing can open up many opportunities in a thriving industry. Gone are the days when nursing chairside was all that was required of you. There are now several diverse and exciting career pathways for dental nurses. Once qualified, and your experience increases, you can pursue a career as a dental hygiene therapist or in orthodontic nursing. Within your role in practice, there are numerous extra qualifications that can be gained, including dental radiography, oral hygiene, and impression taking.

Apprenticeship

DENTAL NURSING APPRENTICESHIP LEVEL 3

Where: Camborne and St Austell

Entry Requirements: GCSE grade 4 or above in maths and English. Plus an employer willing to take you on as an apprentice.

This apprenticeship focuses on direct chair-side work and the delivery of a high level of patient care during a range of dental treatments.

As well as providing an overview of all clinical responsibilities and duties of a dental nurse's role, the qualification will enable you to apply to the General Dental Council for professional registration as a dental nurse.

Progression: BSc Dental Therapy & Hygiene or BSc (Hons) Dental Therapy at another university. Further study or employment in the industry as a qualified dental nurse registered with the General Dental Council.

Study Full-time

DENTAL NURSE DIPLOMA LEVEL 3

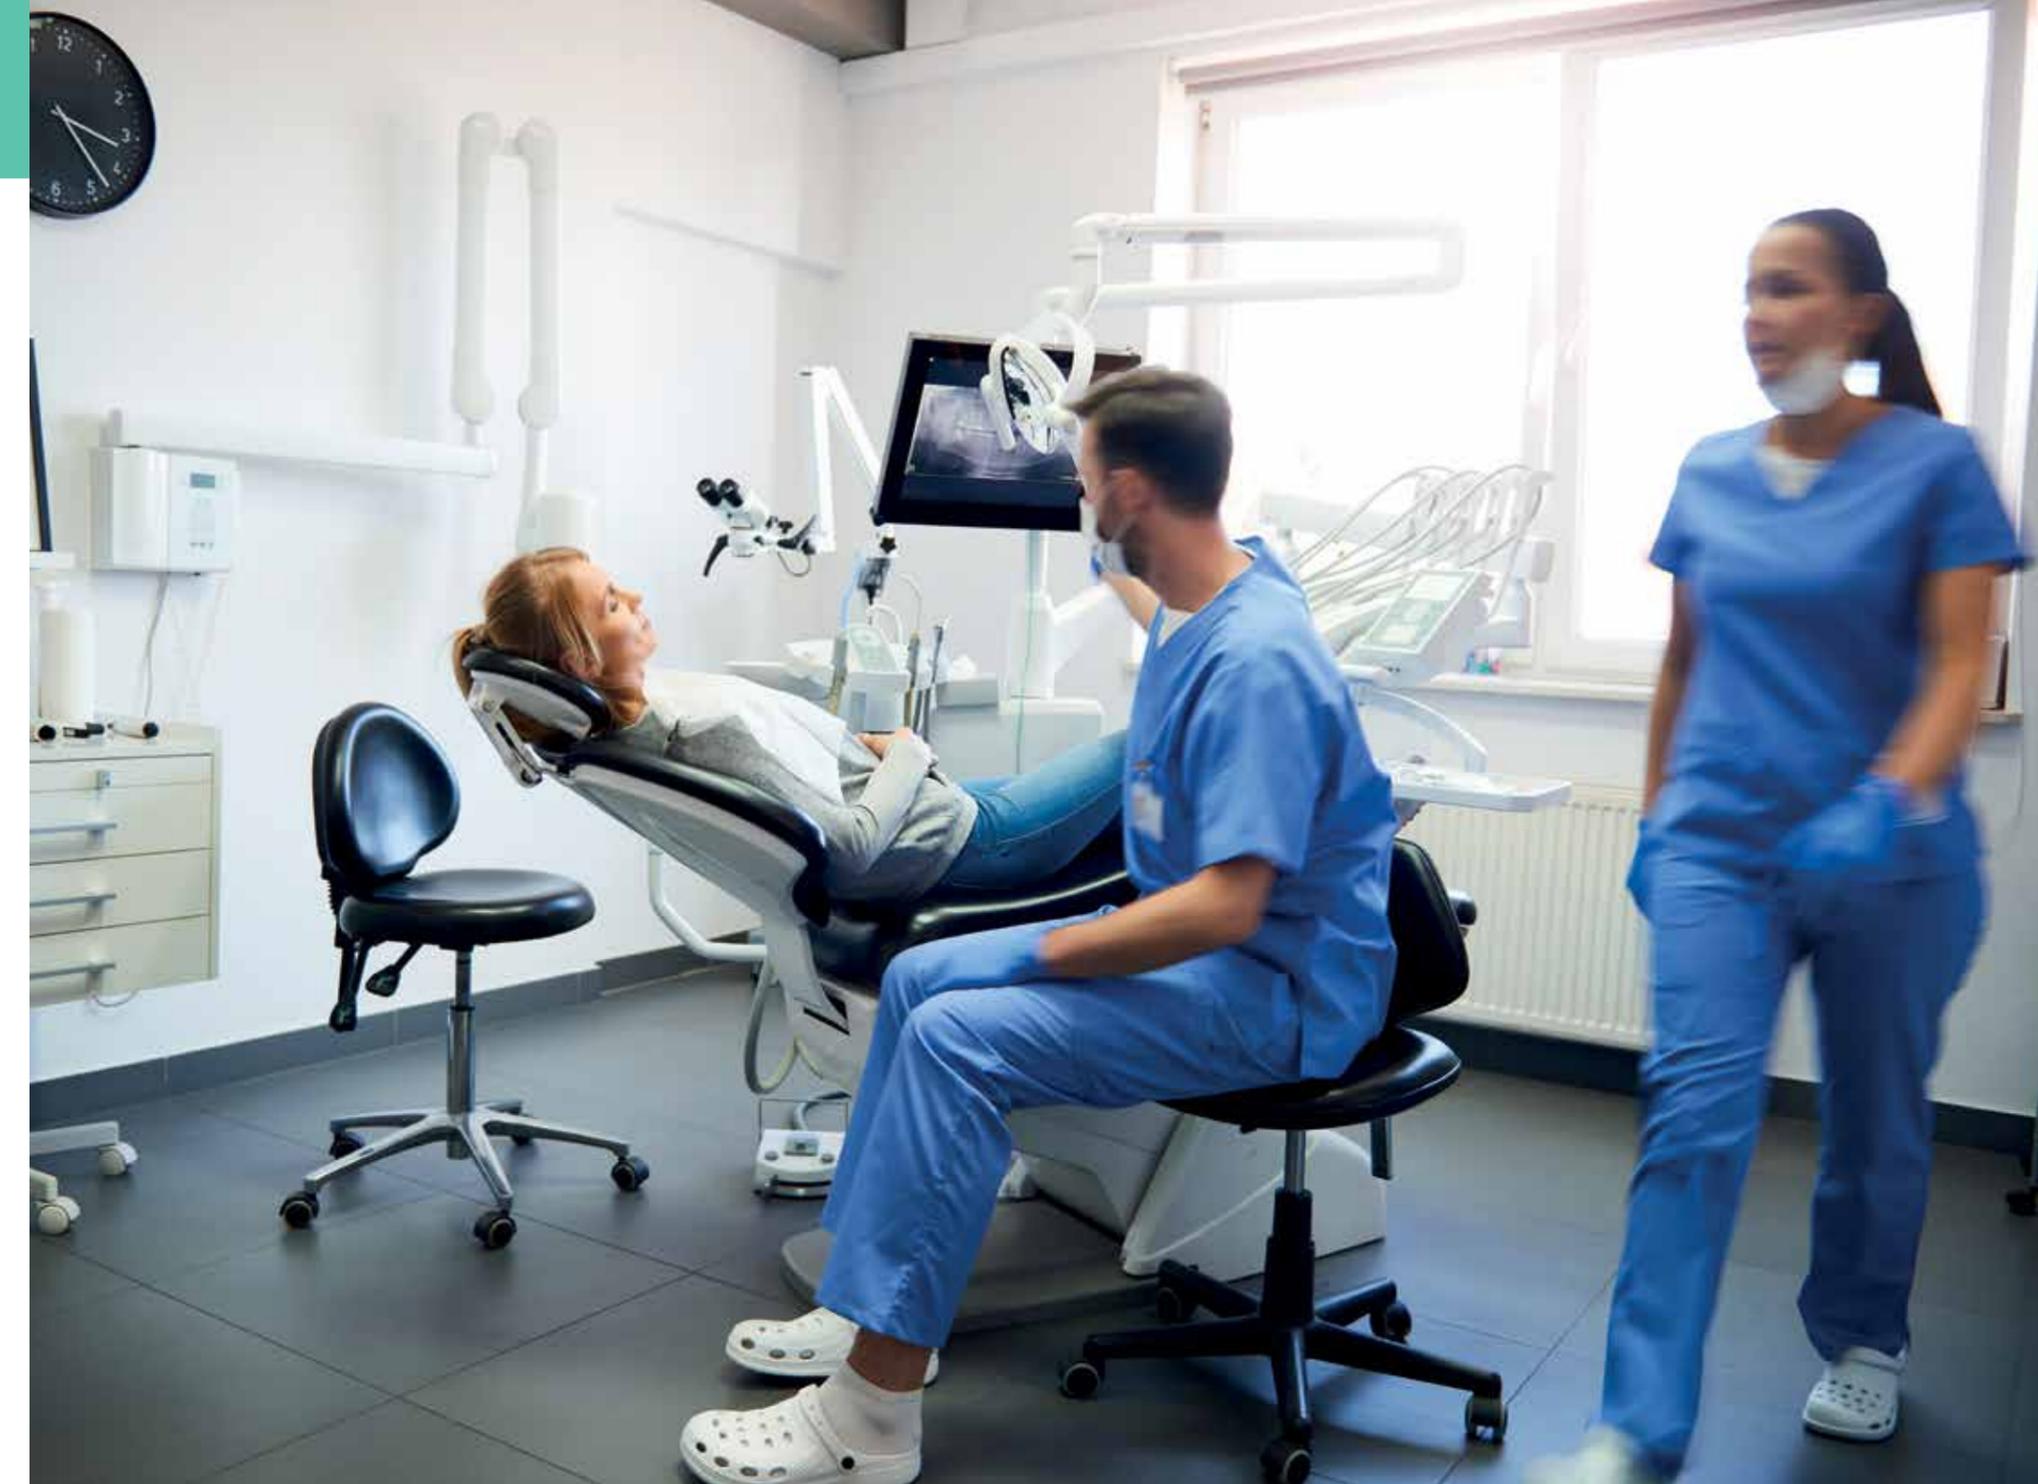

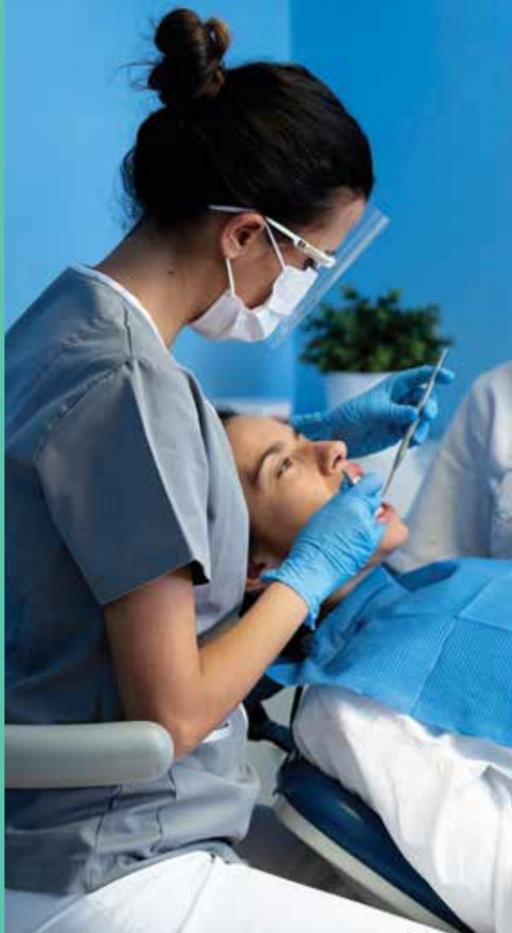

Where: Camborne and St Austell

Entry Requirements: GCSE grade 4 or above in maths and English.

From a general check-up to root canal work, as a dental nurse you will be required to have a reassuring and caring nature as it will be your job to look after the patients. You will also need great communication and organisational skills as you will be responsible for looking after the equipment and maintaining high levels of cleanliness. Successful completion of the course will enable you to become a qualified dental nurse and register with the General Dental Council.

Progression: BSc Dental Therapy & Hygiene or BSc (Hons) Dental Therapy at another university. Further study or employment in the industry as a qualified dental nurse registered with the General Dental Council.

CAREERS IN THIS INDUSTRY: DENTAL NURSE.

SPORT, FITNESS, OUTDOOR ADVENTURE & WATERSPORTS

We can take your sporting journey to the next level with our range of qualifications, training, and amazing facilities which include commercial gyms, sports pitches, 3G pitches, sports halls, and much more. Our fantastic partnerships with Plymouth Argyle Football Club and South West Lakes are designed to help you get the career you want, whether as an elite athlete or an inspirational coach.

Our unique watersports courses will prepare you for a career in the industry, making them ideal for anyone with a passion for being outdoors.

We also have a Sports Academy designed to offer student-athletes a balance between academic study and sport whilst at college. Each academy offers weekly sports coaching, team analysis, termly nutrition/lifestyle/sports psychology workshops, and weekly strength and conditioning sessions.

In partnership with the local sports clubs, we make sure you fulfil your potential.

Study Full-time

OUTDOOR ADVENTURE EDUCATION DIPLOMA LEVEL 2

Where: Duchy College Stoke Climsland

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

This one-year course is an ideal introduction to outdoor adventure education and develops your essential leadership and coaching skills. You'll be spending a lot of time outside the classroom and learning from experienced outdoor sports coaches and instructors. During the course you will learn a wide range of topics from managing risks and keeping groups and yourself safe in the outdoors, to looking at how the body works and what the fitness requirements are to overcome challenges and complete expeditions. You will also develop your own coaching and leadership style that will help you get the most out of the people you work with.

Progression: Outdoor Adventure Diploma Level 3 or employment in the industry.

CAREERS IN THIS INDUSTRY: OUTDOOR INSTRUCTOR, OUTDOOR CENTRE MANAGER, PE TEACHER, EXPEDITION LEADER.

Study Full-time

OUTDOOR ADVENTURE EDUCATION DIPLOMA LEVEL 3

Where: Duchy College Stoke Climsland

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

During this two-year course you'll be spending a lot of time outside the classroom, pushing yourself to take on new challenges whilst developing skills and experience in a wide range of outdoor activities. Alongside this you will be developing your leadership and coaching skills as well as gaining that all important understanding of how businesses in the sector operate. In addition to our facilities on campus, which include a gym and sports hall, you'll also benefit from being situated in one of the best placed college campuses for outdoor activities anywhere in the UK. Our highly experienced instructors will have you out and about for a whole day of practical activity every week all year. We will provide access to equipment and training which means you could be out paddling on lakes and rivers, climbing on indoor and outdoor routes, ripping up trails on a mountain bike, navigating over Dartmoor or Bodmin moors and even catching the odd wave. In addition there will be opportunities to push yourself during our expeditions and study tours which may see you climbing world famous routes in Fontainebleau, France, or summiting mountains in North Wales.

Progression: University study such as our FdSc Sport, Health & Fitness with possible progression on to our BSc (Hons) Sport, Health & Exercise Science (top-up) at our Camborne campus or our FdSc Surf Science at Cornwall College Newquay.

I want a career in... SPORT

If you have a passion for sport and fitness and have your sights set on becoming a sports coach, PE teacher, fitness instructor or leisure manager, then a sports coaching diploma is ideal for you.

Study Full-time

DIPLOMA IN SPORT (SPORTS COACHING) LEVEL 2

Where: Camborne and Duchy College Stoke Climsland

Entry Requirements: A minimum of three GCSEs at grade D (3) (to include English and PE/maths desirable) or you will have successfully completed a relevant Level 1 programme including English Functional Skills Level 1.

This one-year diploma introduces you to the theory behind how the body works and the practical steps needed to plan and coach your very own sport/fitness session. You will learn about the principles of training and how to perform practically to achieve sporting excellence. By gaining an introduction to sports coaching, you will be prepared for the more specialised tactical awareness, sporting skills, awareness of healthy exercise and nutrition needed to move on to further qualifications. At Duchy Stoke we have two pathways within the Level 2 qualification: football or fitness. You will also be spending a lot of time in our on-campus sport hall and fully equipped gym, as well as 3G pitch at our Camborne campus.

Progression: Once you've finished the Level 2 course, you'll have a real understanding of the foundations to sports coaching including health and fitness; and be ready to move on to the more advanced Level 3 courses. Alternatively you could look to enter the industry as a leisure assistant or assistant coach.

CAREERS IN THIS INDUSTRY: COACH, NUTRITIONIST, SPORTS THERAPIST, ELITE ATHLETE, FITNESS PROFESSIONAL, PE TEACHER.

Study Full-time

EXTENDED DIPLOMA IN SPORT (SPORTS COACHING) LEVEL 3

Where: Camborne and Duchy College Stoke Climsland

Entry Requirements: A minimum of four GCSEs at grade A* to C (9-4) (to include English and/or maths. Science and/or PE desirable). Or you will have successfully completed a relevant Level 2 programme (preferably at merit grade).

This two-year diploma is all about you growing as a sports coach by effectively knowing how the body works and successfully planning and delivering your very own sport coaching/fitness session. Our industry experienced lecturers combine theory and practical learning allowing you to study a range of topics from fitness training and programming, to the skills, techniques and tactical awareness involved in sport. As you progress through the course you will be carrying out your own personal fitness plan, and developing essential teamwork and leadership skills. At Duchy Stoke we have two pathways within the Level 3 qualification: football or fitness. Students can opt in to study a football specific programme with high quality training delivered by Argyle staff. If you opt in for the fitness pathway the team at the Zone, state-of-the-art gym provision, will add their insight as you work on both your own physical fitness and learn how to coach in the fitness setting.

Progression: Once you've finished the Level 3 course, you'll have a real understanding of the wide range of subjects within sport, health and fitness. This will allow you to move on to the more advanced courses such as our FdSc Sport, Health and Fitness or head out into the industry as a fitness instructor or community coach.

GYM INSTRUCTING AND PERSONAL TRAINING DIPLOMA LEVEL 3

Where: Duchy Stoke Climsland

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and maths.

This course is designed to provide the knowledge and skills required to work as a gym instructor and personal trainer. This qualification is mapped to the CIMSPA (Chartered Institute for the Management of Sport and Physical activity).

PLEASE NOTE: Learners who are 18 on 31st August and entitled to free education (third year learners) would be fully funded to complete the course. For those learners who are not entitled to

government funding the course can also be self-funded or funded via the Advanced Learner Loan.

The qualification is for learners aged 18+. All learners below the age of 18 wouldn't be able to gain the license to practice due to not being recognised as an adult to gain this industry qualification.

Progression: Learners successfully completing this qualification will be able to gain entry to the CIMSPA Exercise and Fitness Directory as a practitioner.

CAREERS IN THIS INDUSTRY: COACH, NUTRITIONIST, SPORTS THERAPIST, ELITE ATHLETE, FITNESS PROFESSIONAL, PE TEACHER.

I want to be a... WATERSPORTS INSTRUCTOR

Our exciting partnership with South West Lakes, one of Cornwall's leading outdoor providers, has enabled us to develop a study programme that will make you directly employable by the industry or allow you to gain entry on to university study. The beautiful Stithians Lake is your classroom and our expert lecturers will prepare you for a career in watersports and the wider outdoor industry.

Study Full-time

WATERSPORTS INSTRUCTOR DIPLOMA LEVEL 2

Where: Falmouth Marine School

Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

During this one-year course you will achieve your Level 2 diploma, alongside developing your personal and leadership skills in a range of watersports including paddleboarding, kayaking, windsurfing and sailing. You will also have the opportunity to gain additional instructor qualifications which will make you extremely employable within the industry.

75% of your timetable will be spent on the water developing your skills. Once your personal levels are up to scratch, you will start developing leadership and coaching skills. You will gain a range of RYA qualifications in sailing, windsurfing, powerboating and first aid. Your classroom sessions will focus on study such as business, sports events, and health and safety.

You will have the opportunity to take part in several trips which could include surfing, coasteering, with the possibility of a trip abroad to a watersports centre.

Progression: On to the one-year Level 3 programme and then employment in the industry or university study.

CAREERS IN THIS INDUSTRY: WATERSPORTS INSTRUCTOR, OUTDOOR INSTRUCTOR, SENIOR INSTRUCTOR, CENTRE MANAGER.

Study Full-time

WATERSPORTS INSTRUCTOR DIPLOMA LEVEL 3

Where: Falmouth Marine School

Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

This one-year programme is for those who have completed the Level 2 and would like to further develop their skills in the watersports industry.

You will learn about different aspects of the watersports industry, which may include sports development and coaching, equipment and facilities, sports facilities and operations management, outdoor adventurous expeditions and assessing risk.

In addition to work experience placements, volunteering opportunities and long-term prospects within the local industry, we also give you the opportunity to take additional internationally recognised qualifications, including National Governing Body qualifications, at a hugely reduced and affordable price. They are not compulsory and will not impact upon you completing your educational qualifications.

Progression: University study such as our FdSc Surf Science at Cornwall College Newquay or straight into employment in the industry.

I want a career in... TRAVEL, TOURISM AND EVENTS

When people say "the world is your oyster" the tourism industry and tourism jobs are one of the only sectors that enables you to travel and explore the world while you are working.

Study Full-time

TRAVEL & TOURISM DIPLOMA LEVEL 2

Where: Camborne
Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

If you are looking for an exciting and rewarding career in the travel and tourism industry, whether you want to join a local visitor attraction, hotel or holiday park, or work in a travel agency, venture further overseas as a resort representative, or even travel around the world as cabin crew or by working on a cruise ship, then we have the right course for you.

Our qualification consists of a range of units that enable you to learn, develop and practice skills required for this exciting industry. As well as delivering a wide range of skills and knowledge, our industry focus and employability ethos means that we have some of the best connections and partnerships to really help boost your career.

As part of our Travel and Tourism Training Suite we have a cabin crew training replica, overseas resort representative training venue, tourist information point and reception for you to practice the skills you need. Our students also experience working on a BAC 1-11 aircraft at the Cornwall Heritage Aviation Centre.

Progression: Travel & Tourism Diploma Level 3.

CAREERS IN THIS INDUSTRY: CABIN CREW, CRUISE SHIP WORKER, RESORT REPRESENTATIVE, TRAVEL AGENT.

Study Full-time

TRAVEL & TOURISM DIPLOMA LEVEL 3

Where: Camborne
Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

You will study worldwide travel and tourism destinations, the cruise industry, retail travel agency and holiday park hosts, tour guiding, ski chalet hosting, travel agency skills and event management. You will also study our popular cabin crew qualification, which is taught by a staff member who also flies with British Airways.

Progression: University study such as our FdA Event Management or employment in the industry.

Apprenticeship

EVENTS ASSISTANTS APPRENTICESHIP LEVEL 3

Where: Camborne
Entry Requirements: Four or more GCSEs at grade 4 or above, including English and/or maths, or successful completion of a relevant Level 2 qualification.

Event management is a fast-paced, exciting and diverse industry. In order to thrive you'll need to be enthusiastic, energetic and organised. You will have the opportunity to work in a technical, artistic and administrative capacity in either small or large scale, indoor or outdoor events.

Progression: University study or employment in the industry.

VOCATIONAL ACADEMY

We offer courses for learners who may need some extra support or for those who simply want to spend some time developing core skills.

Our courses are designed to focus on transferable skills that can be used in any vocational area and enable you to try out numerous career paths before committing to a specific vocational course.

The Vocational Academy's vision is to support you to be confident, resilient and work-ready.

ABOUT WHAT
YOU WILL STUDY

I want to become more... CONFIDENT, RESILIENT AND WORK-READY

Within the Vocational Academy team our vision is to support you to be CONFIDENT, RESILIENT AND WORK-READY so that you are well-prepared to engage with the wider community.

Take part in a range of vocational options to help you make an informed choice for your future vocational area, and develop the knowledge and study skills for a successful transition.

VOCATIONAL

Where: Bicton College, Camborne, Duchy College Stoke Climsland and St Austell
Entry Requirements: Working at Entry 3 or above in English and maths.

This course is ideal if you are unsure of the subject area you wish to pursue or you feel you need to build your self-confidence before studying a specific vocational pathway. You will experience a range of vocational options to help you make that choice. The options on offer are specific to the campus you choose to study at. During the

course you will study vocational and life skills around the areas of work that you have chosen to study. You will also build your teamwork skills, self-confidence and develop your English and maths.

Progression: You will have the opportunity to progress to a specialist programme within one of our other curriculum areas or explore the option of an apprenticeship. You could also progress to further study with us on our work-related studies programmes to pursue either voluntary or paid employment.

Within the Foundation Learning team our vision is to support you to be INDEPENDENT, CONFIDENT AND RESILIENT so that you are well-prepared to engage with the wider community.

This pathway develops your knowledge and skills to prepare you for the world of work before leaving college.

PATHWAY 2 EMPLOYMENT (P2E) STAGE 1 – WORK RELATED STUDIES

Where: Bicton College, Camborne, Duchy College Stoke Climsland and St Austell
Entry Requirements: No formal qualifications are required for Foundation Level courses.

You will learn the skills, knowledge and behaviours to prepare you for the world of work. During these steps to becoming work ready you will set personal targets to ensure you reach the goals you need to enter the next stage in your career. You will get the opportunity to visit local employers and also follow a career plan to match your skills and interests with different jobs and careers and, where relevant, work with the P2E co-ordinator to find the right work placement for your supported internship at stage 2. Work experience opportunities will range from placements including our on-site shop and coffee shop, to placements within other college departments.

Progression: Pathway 2 Employment (P2E) Stage 2 (Supported Internship) – available to learners with an EHCP only Voluntary or paid employment.

PATHWAY 2 EMPLOYMENT (P2E) STAGE 2 – SUPPORTED INTERNSHIP – EHCP LEARNERS ONLY

Where: Bicton College, Camborne, Duchy College Stoke Climsland and St Austell
Entry Requirements: Completion of an Entry Level or Level 1 qualification.

Supported internships are a good way of preparing you for employment. What makes them different is that you do most of your learning at work and some in college. This means you can 'learn on the job'. A supported internship could be the right choice for you if you know you learn best by 'doing'.

Progression: Employment.

START YOUR CAREER WITH AN APPRENTICESHIP

#1 FOR APPRENTICESHIPS IN CORNWALL AND DEVON

An apprenticeship is for anyone over the age of 16 and is the perfect option to allow you to start or keep earning at work, while receiving training and gaining a recognised qualification. It gives you a great mix of learning in a work setting, and studying at college, allowing you to continue developing your skills.

A fair deal: Starting salary £4.30 per hour*.

Support: We will be there when you need us throughout your training.

Choice: We've got over 60 different pathways to choose from across the region.

Get hired: We will help you find an employer, alongside supporting your college and job applications.

We work with hundreds of businesses including:

- Pendennis
- Francis Clark
- St Austell Brewery
- NHS
- Eden Project
- Cornwall Council
- Ocean Housing
- RNLI
- Kier Group
- Watson Marlow

If you are applying for an apprenticeship you need an employer who is willing to take you on as an apprentice. Please speak to our dedicated recruitment team to find out more.

0330 123 2523

apprenticeships@cornwall.ac.uk
cornwall.ac.uk/apprenticeships

LIVE YOUR BEST LIFE

Foundation Degree Awarding Powers

In a major boost for learners and businesses in the South West, we have secured foundation degree awarding powers.

As the only FE college in the county to do this, we now have the authority to co-create bespoke higher level foundation degree courses with key employers efficiently and quickly to the requirements of each business, as well as being responsive to the workforce needs of the local and regional economy. We also work in partnership with a range of universities to award our HNDs, Foundation Degrees, Bachelors Degrees and Masters programmes.

In partnership with

FALMOUTH UNIVERSITY

SUPPORTING YOU

We have a range of staff who will support you and help you achieve your goals.

Engagement and Progression Officers (EPOs) are available to support you with any concerns that you have or if you need any support.

- They can offer advice and guidance and help to find solutions to overcome any barriers you are facing
- Help you to progress with your studies and achieve your learning and career goals
- They will always be available in the social space for you to talk to and will also arrange activities for students to take part in.

Personal Development

You will take part in a range of activities that will help you develop personal and employability skills. They will focus on helping you to become a successful student and prepare for your future life and be an active part of society. There will also be lots of enrichment opportunities that you can take part in from trips and visits to guest speakers. You can have your say in the activities we offer as well.

Health and Wellbeing

We offer a wide range of additional health and wellbeing opportunities for you to participate in around your study programme. The activities you undertake will depend on which campus you are studying at.

Learning Centre and Study Support

Our Learning Centres have a range of staff to support you when using the resources, computers and software. You can also access workshops and request support sessions to develop your study and academic skills whether you are

on an introductory course or studying for a higher level qualification.

Computer access and access to online classrooms

When you enrol with us you will be issued with a computer account and email. This will give you access to a range of software and resources which includes:

- the College's Wi-Fi
- your course details and progress information
- access to a wide range of software and resources to support your study
- Online classrooms with Moodle and Teams
- A range of online study resources and ebooks

Careers

Alongside our Engagement and Progression Officers, our team of Careers Officers are available all year round to provide impartial support and advice when help is needed with career choices, progression to university and other training, education or employment opportunities.

Special Educational Needs and Disability (SEND) Provision

Our vision is to develop independent, confident and resilient learners who are well-prepared to engage with the wider community. Please see our website for our SEND Provision Statement which includes further information and details should you wish to talk to someone in person: cornwall.ac.uk/supporting-your-learning/#send-provision

Safeguarding

We set out to provide a safe and supportive learning and working environment for all our students, staff and visitors. The Cornwall College Group has a duty to safeguard all

learners, staff and visitors. We also have a duty to prevent extremism and radicalisation.

Equality, Diversity and Inclusion

The Cornwall College Group is committed to equal opportunities for all and recognises that valuing and embracing diversity is the key to providing high quality teaching and learning. We take pride in serving our local communities in Cornwall and Devon and are fully committed to promoting equality of opportunity, access, dignity and fairness.

Financial support

Financial support is available via a college bursary to help you access your college education. This is means-tested and primarily focused on supporting you with bus pass costs, childcare and meals whilst at college. To find out the most up-to-date information; please visit our website cornwall.ac.uk/financial-support or email studentfinance@cornwall.ac.uk

Accommodation

If you do not live within reasonable travelling distance of the College you may wish to consider seeking accommodation nearby. For students at Bicton College and Duchy College Stoke Climsland there are full-board residential places available. Residential Bursaries are available for eligible students.

Students' Union (CCSU) and Learner Voice

We are incredibly proud of our Students' Union (CCSU) which exists to represent your voice at every level in the College and to make sure you have a fantastic time with us. The CCSU can arrange activities for students and give feedback on how to improve the student experience on campus. Every course will also have a course rep to provide feedback on your programme.

Funding

Your course may be fully funded if this is your first Level 3 qualification. For anyone who is 19 years or over, you can apply for an Advanced Learning Loan to cover tuition fee costs. You do not have to repay the loan until you are earning a minimum of £25,725 a year. The loan may also be written off by the Student Loans Company if you go on to complete a full higher education qualification. The College also has a limited bursary fund to support people from low income families with costs such as childcare and transport, please contact us on 0330 123 2523 for more details.
